## Mission Code Track:

The Missions Code Foreign Missions Conference of North America, 1921      Pioneers, Passionate Ladies, and Private Eyes Larry E Sullivan, Lydia C Schurman, 2013-02-01 Despite efforts of contemporary reformers to curb the availability of dime novels series books and paperbacks Pioneers Passionate Ladies and Private Eyes reveals how many readers used them as means of resistance and how fictional characters became models for self empowerment These literary genres whose value has long been underestimated provide fascinating insight into the formation of American popular culture and identity Through these mass produced widely read books Deadwood Dick Old Sleuth and Jessie James became popular heroes that fed the public's imagination for the last western frontier detective tales and the myth of the outlaw Women particularly those who were poor and endured hard lives used the literature as means of escape from the social economic and cultural suppression they experienced in the nineteenth century In addition to the insight this book provides into texts such as The Bride of the Tomb the Nick Carter Series and Edward Stratemeyer's rendition of the Lizzie Borden case readers will find interesting information about the roles of illustrations and covers in consumer culture Bowling Green's endeavor to digitize paperback and pulp magazine covers bibliographical problems in collecting and controlling series books the effects of mass market fiction on young girls Louisa May Alcott's pseudonym and authorship of three dime novels special collections competition among publishers A collection of work presented at a symposium held by the Library of Congress Pioneers Passionate Ladies and Private Eyes makes an outstanding contribution to redefining the role of popular fiction in American life

**Distributed Space Missions for Earth System Monitoring** Marco D'Errico, 2012-09-14 This title analyzes distributed Earth observation missions from different perspectives In particular the issues arising when the payloads are distributed on different satellites are considered from both the theoretical and practical points of view Moreover the problems of designing measuring and controlling relative trajectories are thoroughly presented in relation to theory and applicable technologies Then the technological challenges to design satellites able to support such missions are tackled An ample and detailed description of missions and studies complements the book subject      Code of Franchises Cincinnati (Ohio).
