

The background of the book cover is a painting. It depicts a wide, green, grassy field or path leading towards a small, simple building with a thatched roof. In the foreground, two figures, seen from behind, are walking away from the viewer along the path. They are wearing light-colored shirts and dark trousers. The background is filled with dense, lush green trees and foliage. The sky is a pale blue with soft, white clouds. The overall style is that of a soft, impressionistic painting.

nuanced portrayal of cultural interactions invites reflection on historical and contemporary issues alike making it an essential read for those keen to understand the intricacies of colonial narratives and their enduring legacies **Defining Moments** Leslie Koh, They weren't superheroes Some weren't even sure whether they were meant to be missionaries But these ordinary men and women obeyed God's call to make disciples of all men With great dedication and deep passion they committed their lives to bring the gospel to the Asia Pacific where an extraordinary God enabled and empowered them to carry out His mission of drawing generations of people to His saving grace What made these men and women leave their homes for faraway lands in spite of their doubts fears and inadequacies What made them keep sowing even when their message of salvation was rejected Read their stories and discover the defining moments that transformed these ordinary men and women into God's faithful messengers on extraordinary missions **Christendom** Peter Heather, 2025-04-22 A colossal book written by a colossus in the field The New York Review of Books A major reinterpretation of the religious superstate that came to define both Europe and Christianity itself by one of our foremost medieval historians In the fourth century AD a new faith grew out of Palestine overwhelming the paganism of Rome and resoundingly defeating a host of other rival belief systems Almost a thousand years later all of Europe was controlled by Christian rulers and the religion ingrained within culture and society exercised a monolithic hold over its population But how did a small sect of isolated and intensely committed congregations become a mass movement centrally directed from Rome As Peter Heather shows in this illuminating new history there was nothing inevitable about Christendom's rise and eventual dominance From Constantine the Great's pivotal conversion to Christianity to the crisis that followed the collapse of the Roman empire which left the religion teetering on the edge of extinction to the astonishing revolution of the eleventh century and beyond out of which the Papacy emerged as the head of a vast international corporation Heather traces Christendom's chameleonlike capacity for self reinvention as it not only defined a fledgling religion but transformed it into an institution that wielded effective authority across virtually all of the disparate peoples of medieval Europe Authoritative vivid and filled with new insights this is an unparalleled history of early Christianity **A Time for Mission** Samuel Escobar, 2013-07-14 Christian mission in the twenty first century has become the responsibility of a global church The heart of mission is the drive to cross geographical cultural and social barriers in order to share the good news of Jesus Christ with all peoples Drawing on his involvement in missionary work over many years Samuel Escobar explores how the church spreads the Christian faith God's Word forms the foundation for his reflections while he uses insights from theological and historical studies as well as from the social sciences to gain a clearer understanding of the church's missionary calling His stimulating and challenging analysis contributes significantly to a global evangelical dialogue on mission today and in the future **African Literature and Social Change** Olakunle George, 2017-10-16 George rethinks the entirety of African literature by considering texts from the 19th century and mid 20th century alongside canonical texts Neil ten Kortenaar author of Debt Law Realism Alert to the ways in which

critical theory and imaginative literature can enrich each other African Literature and Social Change reframes the ongoing project of African literature Concentrating on texts that are not usually considered together writings by little known black missionaries so called black whitemen and better known 20th century intellectuals and creative writers Olakunle George shows the ways in which these writings have addressed notions of ethnicity nation and race and how the debates need to be rehistoricized today George presents Africa as a site of complex desires and contradictions refashioning the way African literature is positioned within current discussions of globalism diaspora and postcolonialism A bold exploration of the complexity of different modes of writing about Africa in the context of current debates on the nature of the literary in the production of African knowledge Concerned with a rhetoric of self writing as it has developed over two hundred years Olakunle George attends to local details within the larger configurations of colonial discourse in this ambitious and timely work It is a caution against the neglect of the conditions of possibility that made an African literature possible Simon Gikandi author of Slavery and the Culture of Taste A new and welcome addition to the field of African literary studies Olakunle George s African Literature and Social Change is dense where it needs to be and glories in productive close readings when its objects call for it Comparative Literature Studies
