Missouri Valley Land Of Drouth Flood:

The Missouri Valley, Land of Drouth, Flood, and Promise Rufus Terral, 1970-01-01 **Report on Flood and Drought Control in the Missouri River Basin** Clark E. Mickey, 1928 **Unruly River** Robert Kelley Schneiders, 1999 This text takes a long historical view to reconstruct the Missouri Valley environment before Euro American settlement and then trace the environmental transformations resulting from the development projects of the 19th and 20th centuries **Hell of a Vision** Robert L. Dorman, 2012-10-11 The American West has taken on a rich and evocative array of regional identities since the late nineteenth century Wilderness wonderland Hispanic borderland homesteader s frontier cattle kingdom urban dynamo Native American homeland Hell of a Vision explores the evolution of these diverse identities during the twentieth century revealing how Western regionalism has been defined by generations of people seeking to understand the West s vast landscapes and varied cultures Focusing on the American West from the 1890s up to the present Dorman provides us with a wide ranging view of the impact of regionalist ideas in pop culture and diverse fields such as geography land use planning anthropology journalism and environmental policy making Going well beyond the realm of literature Dorman broadens the discussion by examining a unique mix of texts He looks at major novelists such as Cather Steinbeck and Stegner as well as leading Native American writers But he also analyzes a variety of nonliterary sources in his book such as government reports planning documents and environmental impact studies Hell of a Vision is a compelling journey through the modern history of the American West a key region in the nation of regions known as the United States Command of the Waters Daniel McCool, 2022-09-27 Much has been written about legal questions surrounding Indian water rights this book now places them in the political framework that also includes water development McCool analyzes the two conflicting doctrines relating to water use one based on federal case law governing the rights of Indians on reservations the other sanctioned by legislation and applied to non Indians based on the iron triangles of bureaucrats legislators and interest groups that dominate policy issues He examines the way federal and BIA water development programs have reacted to conflict competition and opportunity from the turn of the century to the 1980s and updates the situation in an introduction written for this edition Hoopla Valley Reservation Boundary Adjustment Act and the Lower Brule Sioux Infrastructure Development Act United States. Congress. Senate. Committee on Indian Affairs (1993-), 1998 *The Papers of Robert A. Taft: 1945-1948* Robert Alphonso Taft, Clarence E. Wunderlin, 1997 Hearings United States. Congress. House, 1945 Crow Creek Sioux Tribe Infrastructure Development Trust Fund Act of 1995 United States. Congress. Senate. Committee on Indian Affairs (1993-), 1996 **The Plains Indians of the Twentieth Century** Peter Iverson, 1985 Essays consider water rights wartime participation religious heritage open reservations economic issues tribal leadership and the Indian rights movement *The U.S. Army Corps of Engineers And Environmental Issues in the Twentieth Century: A Bibliography* , 1984 Bulletin , 1946 **History of Nebraska** James C. Olson, 1997-01-01 History of Nebraska was originally created to mark the territorial

centennial of Nebraska and revised to coincide with the statehood centennial This one volume history quickly became the standard text for the college student and reference for the general reader unmatched for three generations This third edition which has been thoroughly revised and rewritten while preserving the spirit and intelligence of the original affirms and extends that record Incorporating the results of thirty years of scholarship and research the third edition of History of Nebraska gives fuller attention to such topics as the Native American experience in Nebraska and the accomplishments and circumstances of the state s women and minorities It also provides a historical analysis of the state s dramatic changes in the past thirty years

Geological Survey Bulletin ,1949 The Soil Conservation Service Responds to the 1993 Midwest Floods Steven Phillips,1994 The goal of this study is to assist in program management by pointing out problems both recurring and unique to 1993 which hamper an effective response to natural disasters Starting from a historical summary of flooding on the upper Mississippi and lower Missouri rivers it then describes 1993 s disaster Next the general approach of the White House and Congress to flood recovery is examined The activities of individual U S Department of Agriculture agencies also receive attention Most of the document focuses on the Soil Conservation Service s flood recovery program new wetlands and levee policies and the vexing problems encountered in this work Finally the Service s work in each of the nine flood states will be discussed in detail

Public Management Sources ,1946 *The U.S. Army Corps of Engineers and Environmental Issues in the Twentieth Century* Jeffrey K. Stine,Michael C. Robinson,1984

Northwestern University on the Air, the Reviewing Stand ,1948 *The Only True America* David R. Hauser,2000-08-14 Probing the Journals of Lewis and Clark far more closely than other works the book develops the understanding that these Enlightenment gentlemen from Virginia gradually entered the unfamiliar world of the West and Native American animism and magic and they responded differently Clark adapted and learned from the Indians whereas Lewis resisted them as savages Clark returned after having envisioned a landscape of hope and lives a long life of service to native tribes Lewis saw a landscape of despair and in the three remaining years of his life encountered conflict and disappointment Both perspectives on the West are still alive Some find in the virtual obliteration of Native American cultures and the despoiling of the land itself the loss of the West But another impulse toward energy inventiveness and community spirit seems alive especially evident in the smaller cities and larger towns along the route of the explorers In such places the landscape of hope is very much alive The experience of Lewis and Clark then parallels our experience today

The American West and Its Interpreters Richard W.
