Foley,2003-06-30 Justice Marshall once remarked that if people knew what he knew about the death penalty they would reject it overwhelmingly Foley elucidates Marshall s claim that fundamental flaws exist in the implementation of the death penalty He guides us through the history of the Supreme Court s death penalty decisions revealing a constitutional quagmire the Court must navigate to avoid violating the fundamental tenant of equal justice for all Nearly 100 influential Supreme Court capital punishment related cases from 1878 2002 are examined beginning with Wilkerson v Utah which question not the legitimacy of capital punishment but the methods of execution Over time focus shifted from the constitutionality of certain methods to the fairness of who was being sentenced for capital crimes and why The watershed 1972 ruling Furman v Georgia reversed the Court s stand on capital punishment holding that the arbitrary and capricious imposition of the death penalty is cruel and unusual punishment and therefore unconstitutional Furman clarified that any new death penalty legislation must contain sentencing procedures that avoid the arbitrary infliction of a life ending verdict which led to the current complex tangle of issues surrounding the death penalty and its constitutional viability *Progress Or Abuse--a Choice* United States. Sentencing in International Criminal Law Silvia D'Ascoli,2011-04-01 This book deals with sentencing in international criminal law focusing on the approach of the UN ad hoc Tribunals for the former Yugoslavia ICTY and Rwanda ICTR In contrast to sentencing in domestic jurisdictions and in spite of its growing importance sentencing law is a part of international criminal law that is still under construction and is unregulated in many aspects International sentencing law and practice is not yet defined by exact norms and principles and as yet there is no body of international principles concerning the determination of sentence notwithstanding the huge volume of sentencing research and the extensive modern debate about sentencing principles Moreover international judges receive very little guidance in sentencing matters this contributes to inconsistencies and may increase the risk that similar cases will be sentenced in different ways One purpose of this book is to investigate and evaluate the process of international sentencing especially as interpreted by the ICTY and the ICTR and to suggest a more comprehensive and coherent system of guiding principles which will foster the development of a law of sentencing for international criminal justice The book discusses the law and jurisprudence of the ad hoc Tribunals and

also presents an empirical analysis of influential factors and other data from ICTY and ICTR sentencing practice thus offering quantitative support for the doctrinal analysis This publication is one of the first to be entirely devoted to the process of sentencing in international criminal justice The book will thus be of great interest to practitioners academics and students of the subject **Official Cohort Default Rate Guide** ,1995 **Official Cohort Default Rate Guide, For FFEL Program**
