AMERICAN ARCHAEOLOGY AND ETHNOLOGY A. L. KROEBER ,1926 **Encyclopedia of Religion and Nature** Bron Taylor,2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses North American Indian Music Richard Keeling,2013-10-15 First Published in 1997 The present volume contains references and descriptive annotations for 1 497 sources on North American Indian and Eskimo music As conceived here the subject encompasses works on dance ritual and other aspects of religion or culture related to music and selected classic recordings have also been included The coverage is equally broad in other respects including writings in several different languages and spanning a chronological period from 1535 to 1995 The book is intended as a reference tool for researchers teachers and college students With their needs in mind the sources are arranged in ten sections by culture area and the introduction includes a general history of research Finally there are also indices by author tribe and subject Aboriginal Society in Southern California Paul Radin,William Duncan Strong,1929 , *Publication* University of California, Berkeley,1908 The Federal Cylinder Project: California Indian catalog, Middle and South American Indian catalog, Southwestern Indian catalog ,1984 *Roaring Camp: The Social World of the California Gold Rush* Susan Lee Johnson,2000-12-17 Winner of the Bancroft Prize The world of the California Gold Rush that comes down to us through fiction and film is one of half truths In this brilliant work of social history Susan Lee Johnson enters the well worked diggings of Gold Rush history and strikes a rich lode Johnson explores the dynamic social world created by the Gold Rush in the Sierra Nevada foothills east of Stockton charting the surprising ways in which the conventions of identity ethnic national and sexual were reshaped With a keen eye for character and story she shows us how this peculiar world evolved over time and how our cultural memory of the Gold Rush took root **Myths of the Southern Sierra Miwok** Samuel Alfred Barrett,1919 **Narratives of Persistence** Lee Panich,2020-04-21 The Ohlone of the San Francisco Bay area and the Paipai of northern Baja California occupy opposite ends of the spectrum of Native Californian identities Or so it would appear While the Ohlone lack popular recognition and official acknowledgement from the United States government the Paipai occupy a large reserve and celebrate their ongoing cultural

traditions throughout Baja California and southern California Yet the two groups share a similar colonial history entanglements with early European explorers labor and enculturation at Spanish missions and sustained interactions with American and Mexican settler colonialism Based on fifteen years of archaeological and historical research in the two regions Narratives of Persistence charts the remarkable persistence of the Ohlone and Paipai alongside a synthesis of Native Californian endurance over the past five centuries As the case studies demonstrate Ohlone and Paipai people made intelligent and culturally appropriate choices to cope with the impact of colonialism on their communities even as they took different pathways to the present day Lee M Panich illustrates how changes in Native identity and practice within these colonial contexts were made to best conduct the groups lives within shifting sets of colonial constraints He draws connections between the events and processes of the deeper past and the way the Ohlone and Paipai today understand their own histories and identities offering a model for how scholars of Indigenous histories may think about the connections between the past and the present

The Taking and Displaying of Human Body Parts as Trophies by Amerindians

Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject
