Mixed Economy In Focus Zambia:

Mixed Economy in Focus Ben Turok,1989 The Oxford Handbook of the Zambian Economy ,2024-08-23 This handbook offers a comprehensive and authoritative account of the Zambian economy including past and current trends The Zambian economy has evolved from simple and fragmented agrarian activities at the turn of the 20th Century into a wide range of organized and regulated modern economic activities today While the economy has largely revolved around the mining industry since the early 1920s when the extraction of copper and other mineral ores on the Copperbelt begun there has been a gradual broadening of economic activities over time with services now accounting for almost two thirds of gross domestic product GDP This book shows that since colonial times one of the persistent items on the economic development agenda in what is today known as Zambia has been the need to diversify the economy to reduce dependence on mining in terms of foreign exchange earnings and public revenue While the need to diversify the economy has been well acknowledged by successive Zambia governments including the current government achieving this goal has proved to be elusive so far By presenting a collection of well researched and empirically supported chapters on the key areas of the Zambian economy this volume gives readers a good sense of where the Zambian economy has come from where it is at the moment but also highlights the challenges and prospects for economic growth One Zambia, Many Histories Jan-Bart Gewald,Marja Hinfelaar,Giacomo Macola,2008-06-25 In contrast to the rich tradition of academic analysis and understanding of the pre colonial and colonial history of Zambia the trajectory of post colonial Zambia has been all but ignored by historians The assumptions of developmentalism the cultural hegemony of United National Independence Party orthodoxy and its conflation with national interests and a narrow focus on Zambia s diplomatic role in Southern African affairs have all contributed to a dearth of studies centring on the diverse lived experiences of Zambians

The Management of Urban Development in Zambia Emmanuel Mutale,2017-11-30 Over the past few decades the developing world has seen unprecedented urban growth and urban areas have had to deal with a number of complex problems as a result While population growth is one of the factors contributing to the deprivation and decay characteristic of most urban areas in the developing world there are other factors Apart from demographic and economic factors the political organization factor of centralization has concentrated decision making and with it resources in the urban areas leading to further rural urban migration Another factor is one of colonialism The transfer of foreign social structures and technology while offering alternatives has dislocated and significantly altered indigenous patterns of development in the developing world This book examines a region where this last factor is a major significance Zambia s copperbelt Here the concentration of towns which were developed very rapidly in the 1930s made Zambia one of the most highly urbanized Sub Saharan countries By focusing on copperbelt towns the book provides a critical analysis of the development of urban policy in Zambia Aspects of conflict and cooperation between different interest groups and where relevant their economic relationships are explored and a structural conflict model of

urban management is proposed The book concludes that with proper management existing and emerging sectional interests in urban areas can help provide conditions which foster the formulation of equitable urban policy Although focused on Zambia the proposed structural conflict approach has potential for wider application

Reformism and Revisionism in Africa's Political Economy in the 1990s T. Shaw, 1993-02-09 This timely text reevaluates the contemporary political economy of Africa in the light of continuing economic and ecological crises changing perceptions and prescriptions and transformations in global economic and strategic relations It treats hitherto overlooked issues such as gender and informal sectors and examines proliferating conditionalities such as democratic structures and military expenditures It suggests that established perspectives need to be superceded by revisionist approaches and it anticipates disappointment with current structural adjustment programmes advocating instead a return to various forms of self reliance

Zambia at Fifty Years Royson Mukwena, 2016-03-19 This book looks at what went wrong and right during Zambia's first fifty years of nationhood and based on this makes some recommendations where necessary on the way forward for the country in the areas covered in the book The cutoff point for the book is October 24 2014 The book is a systematic discourse on a range of socioeconomic and political developments in the country since independence The discourse covers political history constitutional history political culture and citizen participation in public affairs sovereignty and democracy foreign policy civilian control of armed forces dependency syndrome employment creation through micro small and medium enterprises marketing systems library and information services labour matters the civil service and social welfare

Africa's Choices Michael Barratt Brown, 2019-05-20 This book provides an account of actual African experience and African criticisms It is designed to examine the actual viability of the World Bank's structural adjustment strategies for Africa all of which were designed to encourage export led growth

Corruption and Development in Africa K. Hope, B. Chikulo, 1999-08-18 Bringing together a distinguished cast of contributors the book provides an authoritative and definitive analysis of the theory practice and development impact of corruption in Africa Combating corruption is demonstrated to require greater priority in the quest for African development

Corporate Social Responsibility and Regulatory Governance P. Utting, J. Marques, 2009-11-12 This is the first of two volumes that examine the changing nature of state business relations This book assesses the potential and limits of CSR in developing countries by focusing on aspects that are often ignored in the CSR literature historical experience theoretical perspectives and institutional and political dimensions of change

The Oxford Handbook of State Capitalism and the Firm Mike Wright, Geoffrey T. Wood, Alvaro Cuervo-Cazurra, Pei Sun, Ilya Okhmatovskiy, Anna Grosman, 2022 The Handbook of State Capitalism and the Firm assesses develops and extends the debates on how firms are influenced by and respond to state capitalism that is the government's direct influence on economic relationships in capitalist economies

The Challenges of Democratic Governance in Nigeria's Fourth Republic Stanley Naribo Ngoa, Farooq A. Kperogi, Eghosa E. Osaghae, 2024-10-14 This book is a collection of scholarly essays from some of Nigeria's most notable

social science scholars on the character contours and peculiarities of democratic practices in Nigeria's fourth attempt at constitutional rule after years of brutally absolutist military regimes. The Fourth Republic began in 1999 and continues to this day. It is coterminous with the restoration of constitutional rule after 16 years of sustained military rule which represents the longest stretch of democratic self rule since Nigeria won independence from British colonialism in 1960. The chapters in this book contain scholarly insights into the pitfalls of governance, institutional dysfunctions and foundational woes that continue to threaten the vitality of the Fourth Republic. Contributors to the book offer critical theoretical lenses to gaze at the decline in democratic citizenship, weakening of faith in the promises of democracy, loss of critical media engagement with the state and deterioration of the socio-political fortunes of the state in Nigeria.

Political Power and Colonial Development in British Central Africa 1938-1960s Alan Cousins, 2022-12-30. This book focuses on the late colonial history of Zambia and Malawi which between 1953 and 1963 were part of the Federation of Rhodesia and Nyasaland. Although there were many links in their history and between their populations, the two territories, British protectorates under Colonial Office control, contrasted greatly in power structures in their economies and in their development. Europeans living in Northern Rhodesia, with a power base in the mining economy, were able to establish a dominant position in the territory after the Second World War. By the 1950s it looked as though they would have, with Southern Rhodesian Europeans, a long hegemony, gaining independence from Britain as a new Dominion which would mean control over both Northern Rhodesia and Nyasaland through the Federation. Thus white ethnicity and ideology are essential factors in this book relating to the struggle for power from just before the Second World War up to the 1960s. However, crises in 1959 and 1960 led to the collapse of the Federation. A second focus is on issues of social and economic development. For Africans in Nyasaland and in rural parts of Northern Rhodesia, there was a relatively weak economy in this period, a pattern of limited cash crop production while many people became caught up in labour migration subordinate to powerful European-dominated economic forces within southern Africa. This meant that colonial policies aimed at rural development were fundamentally flawed. The book also looks at the actual nature of rural economic change as opposed to colonial policies and discusses alternative visions of the future which were put forward. The argument is put that historians have often concentrated on the activities of the main nationalist movements in Nyasaland and Northern Rhodesia, seeing them as bringing progress away from colonialism and towards independence. Here there is an attempt to draw out the complexities of life and a variety of responses in the colonial situation, progress coming in a number of forms but not always being achieved.

Small-scale Market Agriculture in Zambia Chad Eugene Kruger, 2003

Economic Development and Democracy, 1994 [Peace Research](#), 1994 [Mineworkers in Zambia](#) Miles Larmer, 2007

The received view of Zambia's mineworkers is of a reactionary body, unable and unwilling to shape progressive politics in post-colonial Zambia. Miles Larmer seeks to use a whole range of little-used sources to dispel this myth. Extensive interviews with mineworkers and their wives reveal a working class consciousness and a whole host of social and economic

expectations that shaped their attitude towards political change Mineworkers in Zambia gives this misunderstood group a place in the movement for political reform which culminated in the transition to multiparty democracy in 1991 and in so doing draws important lessons for the wider social and political history of post colonial Africa **Work in Progress** ,1992
