Mobilising Politics And Society The Eu Conventions Impact On Southern Europe:

Mobilising Politics and Society? Sonia Lucarelli, Claudio Maria Radaelli, Claudio Radaelli, 2013 Mobilising Politics and Society offers a timely analysis of the European Union Convention's impact on the domestic political systems and civil society in Southern Europe. It provides country chapters on Portugal, Spain, Italy, Greece, Malta, Cyprus, and Turkey. All chapters follow a common scientific template in order to offer material for genuine cross-country comparison. In addition, the volume contains horizontal chapters on three important issues: the mobilisation of intellectuals, sub-national politics, and the participation of women. The editors compare results of the country chapters in their conclusions. The book contains documentation on the EU Convention and South European participants. This volume was previously published as a special issue of the journal *South European Society and Politics*.

The 2014 European Parliament Elections in Southern Europe Hermann Schmitt, Eftichia Teperoglou, 2018-02-02 Southern Europe has been the EU region most exposed to the Eurozone sovereign debt crisis with consequences for national party systems and political stability. The 2014 European Parliament elections took place at a crucial time for Europe and Southern European societies more generally. This book analyses the Euroelections in Southern Europe, asking whether these followed the usual pattern of low-stimulus contests or whether the crisis context raised the bar. Country chapters on Italy, Greece, Spain, Portugal, Cyprus, and Malta investigate the background of the elections, the electoral campaign, and the rise of Euroscepticism. The linkage between governments' economic performance, the Europhile or Eurosceptic stances of political parties, and their electoral performance are at the core of the analysis in each chapter. The findings reveal that the political and electoral consequences of the economic crisis have not fundamentally challenged the second-order character of the 2014 European Parliament elections in Southern Europe. However, electoral behaviour exhibits some indications of a more critical contest in which the EU divide becomes more significant and polarising in determining voting choices. This book was previously published as a special issue of *South European Society and Politics*.

Voters and Parties in the Spanish Political Space

Ignacio Sánchez-Cuenca,Elias Dinas,2016-04-08 This book deals with the structure of Spanish politics how citizens and parties locate themselves in political space and how these actors make decisions based on their positions in the various dimensions this space consists of The authors of this volume address the questions surrounding the dimensions of Spanish politics the effect of the nationalist issue Catalonia and the Basque Country in Spanish political competition the reasons for which the Catalans and the Basques appear as more left wing than the rest of Spain the ways in which Spanish voters make their choices the political issues that are more polarizing in Spain the background behind why the two main parties hold such similar positions on redistribution whether the territorial conflict has an impact on preferences for redistribution and how the immigration issue alters political competition All of these questions rely on the spatial theory of politics for their analyses The data used in all the chapters come from a survey that was especially designed with the aim of addressing all these topics that are examined in the book This is the first exhaustive and rigorous explanation of how Spanish politics work based on the positions that parties and citizens occupy in the political space This book was published as a special issue of South European Society and Politics *Southern Europe and the Financial Earthquake* Susannah Verney,Anna Bosco,Marina Costa

Lobo,2016-04-14 Following the outbreak of the international financial crisis Southern Europe became an epicentre of economic instability and international concern The prospect of a sovereign debt default in the eurozone s flaky fringe sent shock waves through the European and global economies Examining the crucial initial phase when the financial crisis was just beginning to spill over into the real economy the volume surveys the impact of the September 2008 Lehman Brothers collapse across the EU s southern periphery The six South European eurozone members Italy Greece Spain Portugal Cyprus and Malta are viewed in comparative perspective with EU candidate state and non eurozone member Turkey In an era before the spectacular EU IMF bailouts the picture that emerges is one of national differentiation illuminating these countries different starting points and varying policy responses in the face of the gathering financial storm This book was published as a special issue of South European Society and Politics *Transformations of the Radical Left in Southern Europe* Myrto

Tsakatika,Marco Lisi,2020-06-09 Political parties are alleged to be turning their backs to civil society they are said to discourage the active participation of their members and to distance themselves from the privileged relations to affiliated social organisations they once prized Instead parties are broadly believed to be directing their efforts towards capturing government office and the resources that come with it neglecting linkage to their social roots Transformations of the Radical Left in Southern Europe questions this widely shared view Exploring the social linkage strategies of the most relevant radical left parties in Portugal Spain Italy Greece and Cyprus in depth this book demonstrates that the members of the European radical left party family continue to prioritise social linkage despite their increasingly office seeking orientation Between the fall of the Berlin Wall in 1989 and the current economic crisis they have been tirelessly experimenting with diverse new forms of party organisation that have enabled them to return to their social roots The main lesson drawn from the studies in

this book is that party ideology and a party's position in the national political arena go a long way towards explaining the extent to which political parties prioritise social linkage This book was published as a special issue of South European Society and Politics **Economic Crisis and Austerity in Southern Europe** Maria Petmesidou, Ana Marta Guillén, 2017-10-02

Southern Europe has been hit hard by the global economic crisis and as such their welfare states have come under acute strain Unmet need has sharply increased while significant welfare reforms and deep social spending cuts have been prominent in the crisis management solutions implemented by governments labouring under EU constraints and the strict rescue deal requirements for Greece and Portugal This volume provides a systematic comparative appraisal of welfare state reform trajectories across Southern Europe prior to and during the crisis and traces the impact of austerity policies and wider recession upon income inequality and poverty It brings together a number of cross country studies on major social policy areas raising crucial questions What policy choices are driving reforms as Southern European economies work their way out of fiscal difficulty Can the crisis provoke the improvement of institutional capabilities and recalibration of social Or instead does structural adjustment indicate a significant policy turn towards the erosion of social rights The contributions critically approach these issues and bring evidence to bear upon whether Southern European welfare capitalisms are becoming more dissimilar This book was originally published as a special issue of South European Society Politics

National Politics and European Integration Maurizio Carbone, 2010-01-01 This book discusses the domestic politics of treaty reform in the European Union from the failed referendums on the Constitutional Treaty held in France and the Netherlands in May June 2005 to the entry into force of the Treaty of Lisbon in December 2009 The chapters written by some of the finest scholars in the field of EU European politics show how European integration has increasingly become a contested issue in a majority of Member States Going beyond the view that national governments are the main if not the sole driving force in the process of European integration this book shows that other actors and factors have played a central role in preference formation and inter state bargaining These include political parties public opinion the media presidents constitutional courts and more broadly political systems ratification hurdles and the general negotiation context National Politics and European Integration combines empirical analysis and theoretical explanations for one of the most controversial periods in the history of the European Union This important book will be of great interest for advanced students in EU studies comparative politics and public policy **Europeanisation of Public Policy in Southern Europe** Canan Balkir, H.

Tolga Bolukbasi, Ebru Ertugal, 2015-09-07 Large or small old EU member or new and even EU member state or not political economies across Southern Europe have been increasingly but distinctively Europeanised In political public and scholarly debates on processes of Europeanisation Southern Europe invariably features as the area of concern These concerns have been all the more heightened when the current sovereign debt crisis disproportionately hit this flaky fringe This volume systematically investigates the dynamics of Europeanisation in the Southern Periphery by tracing the domestic constellations

of ideas interests and institutions over the course of the 2000s which came to a close with the crisis Bringing together a multidisciplinary team of leading specialists the volume focuses on the political economy of public policy reform in Greece Italy Malta Portugal Spain and Turkey In order to allow for cross case comparisons these original country studies follow a common template framed by what the Editors call the Europeanisation as research programme The volume casts empirical light on the causes of the crisis in these cases as well as the past legacies conditioning their responses to the crisis Its conclusions point to variegated patterns of Europeanisation in different policy areas across Southern Europe This volume will be of interest to students and scholars of European integration European political economy European public policy and comparative politics as well as specialists of Southern Europe This book was published as a special issue of South European Society and Politics

Elections in Hard Times: Southern Europe 2010-11 Anna Bosco,Susannah Verney,2016-04-08 Southern Europe has been at the heart of the European sovereign debt crisis and in the vanguard of the programmes of radical economic austerity implemented to confront it During the first two crisis years the consequences for domestic political stability were dramatic Across the region 2010 11 saw the overthrow of incumbent governments the breaking down of established political affiliations and the emergence of new political actors The culmination was the simultaneous downfall of three South European governments in the space of eighteen days in November 2011 This volume offers a collection of case studies of the twelve popular votes during this period in Italy Greece Portugal Spain Turkey Cyprus and the Turkish Cypriot community The contests include legislative presidential and sub national elections and a national level referendum In our control case Turkey there was no economic crisis and no government change Elsewhere in Southern Europe the studies indicate the progression of the crisis from the limited disapproval of Berlusconi government registered in the Spring 2010 Italian regional election to the electoral collapse of the Spanish socialists in late 2011 The volume indicates a build up of popular frustration with the democratic process which can only be dangerous for the future of South European democracy This book was published as a special issue of South European Society and Politics

Protest Elections and Challenger Parties Susannah Verney,Anna Bosco,2016-04-14 Both in Greece in 2012 and Italy in 2013 it took two elections to form a government A repeat parliamentary contest was required in Greece and the unprecedented re election of the outgoing President of the Republic in Italy before a cabinet could be formed Against a background of economic crisis and national austerity both countries experienced protest elections in which the overriding concern for an unusually large proportion of voters was not to choose a government but to express dissent The outcome included record breaking electoral volatility the decline of bipolarism the startling rise of challenger parties and the transformation of national patterns of government formation including experiments with grand coalitions and technocrat led cabinets These developments sent shock waves through Europe and beyond suggesting Southern Europe might be drifting towards ungovernability The volume offers analyses of the key electoral contests at the parliamentary presidential and local government levels complemented by special

studies of two key challenger parties Beppe Grillo's Five Star Movement in Italy and Golden Dawn in Greece An introductory comparative overview traces the process of convergence between the political systems of Italy and Greece which appears to have been triggered by the economic crisis This book was published as a special issue of South European Society and Politics

Political Representation in Times of Bailout André Freire, Marco Lisi, Ioannis Andreadis, José Manuel Viegas, 2017-10-02 Since 2008 many European states have experienced significant challenges in adapting to austerity and political actors within these states have made significant changes in their discourses and practices This book explores the short term impact of the sovereign debt crisis on aspects of political representation in Greece and Portugal two of the countries that have been the most severely affected It provides the most systematic examination to date of the attitudinal change of voters and elites regarding participation and representation and of the legitimacy of the political system in two of the bailed out Eurozone states By examining the congruence between elites and voters the shift in the patterns of competition and the position of both citizens and representatives on the main issues the studies contribute towards a reassessment of the validity of the responsible party model and of theories about democratic accountability By relying on original mass and elite surveys conducted both before and after the bailouts the volume helps us understand how the EU IMF intervention has affected partisan alignments in Greece and Portugal as well as the differences and similarities in the way political elites and civil society have adapted to severe austerity This book was originally published as a special issue of South European Society Politics
