Mobilizing Islam Religion Activism And Political Change In Egypt:

Mobilizing Islam Carrie Rosefsky Wickham, 2002 The rise of a popular Islamic reform movement in Egypt has had considerable influence beyond its borders as events since September 11 2001 attest This book explains how militant Islamist groups captured the hearts and minds of educated youth in the Arab world *The Mobilization of Political Islam in Turkey* Banu Eligür, 2010-04-12 The Mobilization of Political Islam in Turkey explains why political Islam which has been part of Turkish politics since the 1970s but on the rise only since the 1990s has now achieved governing power Drawing on social movement theory the book focuses on the dominant form of Islamist activism in Turkey by analyzing the increasing electoral strength of four successive Islamist political parties the Welfare Party its successor the Virtue Party and the successors of the Virtue Party the Felicity Party and the Justice and Development Party This book which is based on extensive primary and secondary sources as well as in depth interviews provides the most comprehensive analysis currently available of the Islamist political mobilization in Turkey **Islamism and Revolution Across the Middle East** Khalil al-Anani, 2021-08-12 Why did Islamists respond so differently to the Arab Spring What do these different responses tell us about Islamists ideological commitment and resilience or the contexts within which they were functioning This book is based on fieldwork on Islamists in eight Middle Eastern countries Egypt Tunisia Libya Morocco Yemen Jordan Kuwait and Syria The contributors trace the transformation of the Islamists ideology behaviour and strategy since the beginning of the Arab Spring The aim of the book is to show that Islamists necessarily have an interactive and dialectical relationship with the environments in which they find themselves and that their behaviour and political calculations are based on a wide range of local regional and global factors They take into account the impact of the different contexts the groups found themselves in from authoritarian to open and reformist and contexts of armed conflict and civil war An interdisciplinary project the book captures the ongoing transformation of Islamist parties to explain the reasons why some movements could adapt and make shifts in their discourse and strategy maintaining organizational coherence and unity while others fell short and suffered major splits and schisms The robust theoretical findings update existing literature on Islamism and advance the state of the field *Islamists and Secularists in Egypt* Dina Shehata, 2009-12-04 In a detailed analysis of the continued survival of authoritarian governments in the Arab world this book uses Egypt as a case study to address the timely and complex issue of democratization in the Middle East The author argues that their longevity is less to do with the strength of the regime but more closely related to the divisions and weakness of opposition groupings **Islam and Politics (3rd edition)** Peter Mandaville, 2020-04-28 This book is an accessible and comprehensive account of political Islam in the contemporary world Providing a broad introduction to all major aspects of the interface of Islam and politics it combines an accessible style with sufficient depth for the academic classroom Drawing on insights from comparative politics and Islamic studies this book explains the complex interaction between Islam society the state and processes of globalization Preserving the previous editions strong focus on

The Muslim Brotherhood and State Repression in Egypt Ahmed Abou El Zalaf, 2022-12-15 Since the Second World War the Muslim Brotherhood in Egypt faced periods of extensive state repression between 1948 1951 and 1954 1970 and again after 2013 These mihi or ordeals as members call them were characterised by a shift from overt political activity to clandestine organising and despite their importance have remained little studied This book uses extensive archival research to uncover what took place when the organisation was forced underground and how and why it survived It combines social theory with a vast array of primary source material such as autobiographical accounts produced by members Egyptian court documents accounts by members of the Egyptian military or intelligence officers and reports by British and American diplomats and intelligence officers The result is a new bottom up perspective on the Brotherhood's structure that goes beyond the role of leaders such as Sayyid Qutb to reveal it as both an overt political organisation and a secretive one able to withstand extended and harsh periods of persecution

A Quiet Revolution Leila Ahmed, 2011-04-29 A probing study of the veil's recent return from one of the world's foremost authorities on Muslim women that reaches surprising conclusions about contemporary Islam's place in the West today In Cairo in the 1940s Leila Ahmed was raised by a generation of women who never dressed in the veils and headscarves their mothers and grandmothers had worn To them these coverings seemed irrelevant to both modern life and Islamic piety Today however the majority of Muslim women throughout the Islamic world again wear the veil Why Ahmed asks did this change take root so swiftly and what does this shift mean for women Islam and the West When she began her study Ahmed assumed that the veil's return indicated a backward step for Muslim women worldwide What she discovered however in the stories of British colonial officials young Muslim feminists Arab nationalists pious Islamic daughters American Muslim immigrants violent jihadists and peaceful Islamic activists confounded her expectations Ahmed observed that Islamism with its commitments to activism in the service of the poor and in pursuit of social justice is the strain of Islam most easily and naturally merging with western democracies own tradition of activism in the cause of justice and social change It is often Islamists even more than secular Muslims who are at the forefront of such contemporary activist struggles as civil rights and women's rights Ahmed's surprising conclusions represent a near reversal of her thinking on this topic Richly insightful intricately drawn and passionately argued this absorbing story of the veil's resurgence from Egypt through Saudi Arabia and into the West suggests a dramatically new portrait of contemporary Islam

Egypt's Political Economy Nadia Ramsis Farah, 2009-03-01 This new study deals with the unfolding of the great political and economic transformations of the modern Egyptian state from the appointment of Muhammad Ali as governor of Egypt in 1805 to the era of President Mubarak with a special focus on the period 1990-2005 which witnessed a rigorous implementation of structural adjustment policies the acceleration of economic privatization and liberalization the emergence of a group of neoliberals within the ruling National Democratic Party and the consolidation of business interests and representation in parliament and government The author asserts that the modernization process in Egypt over the last two centuries has been determined by power relations and their articulation and so she investigates in depth the impact of power relations on development strategies on political liberalization on politicized Islam as a hegemonic ideology adopted by the state since the beginning of the 1970s and on gender relations in development

The Making of the Modern Muslim State Malika Zeghal, 2024-03-26 An innovative analysis that traces the continuity of the state's custodianship of Islam as the preferred religion in the Middle East and North Africa In *The Making of the Modern Muslim State* Malika Zeghal reframes the role of Islam in modern Middle East governance Challenging other accounts that claim that Middle Eastern states turned secular in modern times Zeghal shows instead the continuity of the state's custodianship of Islam as the preferred religion Drawing on intellectual political and economic history she traces this custodianship from early forms of constitutional governance in the nineteenth century through post Arab Spring experiments in democracy Zeghal argues that the intense debates around the implementation and meaning of state support for Islam led to a political cleavage between conservatives and their opponents that long predated the polarization of the twentieth century that accompanied the emergence of mass politics and Islamist movements Examining constitutional projects public spending school enrollments and curricula Zeghal shows that although modern Muslim majority polities have imported Western techniques of governance the state has continued to protect and support the religion community and institutions of Islam She finds that even as Middle Eastern states have expanded their nonreligious undertakings they have dramatically increased their per capita supply of public religious provisions especially Islamic education further feeding the political schism between Islamists and their adversaries Zeghal illuminates the tensions

inherent in the partnerships between states and the body of Muslim scholars known as the ulama whose normative power has endured through a variety of political regimes Her detailed and groundbreaking analysis which spans Tunisia Morocco Egypt Turkey Syria and Lebanon makes clear the deep historical roots of current political divisions over Islam in governance

Routledge Handbook of the Arab Spring Larbi Sadiki, 2014-12-17 The self immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring a startling yet not unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring

The Muslim Brotherhood and its Quest for Hegemony in Egypt Annette Ranko, 2014-12-26 Annette Ranko analyses the Muslim Brotherhood's challenging of the Mubarak regime and the ensuing struggle between the two from 1981 to 2011 She furthermore traces how the group evolved throughout the process of that struggle She studies how the Brotherhood's portrayal of itself as an attractive alternative to the regime provoked the Mubarak regime to level anti Brotherhood propaganda in the state run media in order to contain the group's appeal amongst the public The author shows how the regime's portrayal of the Brotherhood and the Brotherhood's engagement with it have evolved over time and how this ideational interplay has combined with structural institutional aspects in shaping the group's behaviour and ideology

Why Alliances Fail Matt Buehler, 2018-11-23 Since 2011 the Arab world has seen a number of autocrats including leaders from Tunisia Egypt Libya and Yemen fall from power Yet in the wake of these political upheavals only one state Tunisia transitioned successfully from authoritarianism to democracy Opposition parties forged a durable and long term alliance there which supported democratization Similar pacts failed in Morocco and Mauritania however In *Why Alliances Fail* Buehler explores the circumstances under which stable enduring alliances are built to contest authoritarian regimes marshaling evidence from coalitions between North Africa's Islamists and leftists Buehler draws on nearly two years of Arabic fieldwork interviews original statistics and archival research including interviews with the first Islamist prime minister in Moroccan history Abdelilah Benkirane Introducing a theory of alliance durability Buehler explains how the nature of an opposition party's social base shapes the robustness of alliances it builds with other parties He also examines the social origins of authoritarian regimes concluding that those regimes that successfully harnessed the social forces of rural isolation and clientelism were most effective at resisting the pressure for democracy that opposition parties exerted With fresh insight

and compelling arguments Why Alliances Fail carries vital implications for understanding the mechanisms driving authoritarian persistence in the Arab world and beyond
