Krajicek,2019-05-15 Can you predict killing sprees What do mass killers have in common Why do so many of them write manifestos online and what do these tell us These are some of the questions

David J Krajicek seeks to answer in *Mass Killings* on a topic that is becoming increasingly urgent and desperate. In recent decades, mass shootings worldwide have increased in their savagery and frequency. Nearly all mass killers are male, and many of them are bound together by misogyny, misanthropy, and racism. They do not just snap; they plan their assaults for months or years, drawing up detailed battle plans and accumulating weaponry. They document the process in journals or videos online, understanding that they are leaving evidence which will help the marquee lights of their futile crimes burn brighter and longer. Krajicek shows the commonalities between mass shooters and describes the psychopathic process that leads these troubled men to commit atrocities. Mass killers feed off each other's words and deeds, and it's crucial to be able to read the signals they give out to prevent future tragedies. *Handbook of Research on School Violence in American K-12 Education* Crews, Gordon A., 2018-10-12. In recent years, the United States has seen a vast increase in bloodshed stemming from violence within the education system. Understanding the underlying factors behind these atrocities may be the first step in preventing more brutality in the future. The *Handbook of Research on School Violence in American K-12 Education* provides emerging research exploring the theoretical and practical aspects of the phenomena of school violence through the lens of social science and humanities perspectives. Featuring coverage on a broad range of topics such as preventative measures, cyberbullying, minority issues, risk factors, and dealing with the traumatic aftermath of such events, this book is ideally designed for researchers, students, psychologists, sociologists, teachers, law enforcement, school counselors, policymakers, and administrators seeking current research on the interconnectedness between families, schools, bullying, and subsequent violence. *The Oxford Handbook of the U.S. Constitution* Mark V. Tushnet, Mark A. Graber, Sanford Levinson, 2015. This Handbook enables readers within and beyond the U.S. to develop a critical comprehension of the literature on the Constitution along with accessible and up-to-date analysis. Whether a return to the pristine constitutional institutions of the founding or a translation of these constitutional norms in the present is possible remains the central challenge of U.S. constitutionalism today. *Memorials Now* Cher Krause Knight, Harriet F.
