Nottingham and its environs Richard Allen (of Nottingham.), 1866 Greater Medieval Houses of England and Wales, 1300-1500: Volume 2, East Anglia, Central England and Wales Anthony Emery, 1996 The second volume of a massive illustrated survey of the greater houses of medieval England and Wales first published in 1996 **History and antiquities of Nottingham** James Orange, 1840 **Castles and Landscapes** O. H. Creighton, 2005 This paperback edition of a book first published in hardback in 2002 is a fascinating and provocative study which looks at castles in a new light using the theories and methods of landscape studies Late Medieval Castles Robert Liddiard, 2016 A collection of the most significant articles in castle studies with contributions from scholars in history, archaeology, historic buildings, and landscape archaeology. The castles of the late medieval period represent some of the finest medieval monuments in Britain with an almost infinite capacity to fascinate and draw controversy. They are also a source of considerable academic debate. The contents of this volume represent key works in castle scholarship. Topics discussed include castle warfare, fortress customs, architectural design, and symbolism, spatial planning, and the depiction of castles in medieval romance. The contributions also serve to highlight the diversity of approaches to the medieval castle, ranging from the study of documentary and literary sources, analysis of fragmentary architectural remains, and the recording of field archaeology. The result is a survey that offers an in-depth analysis of castle building from the thirteenth to the fifteenth centuries and places castles within their broader social, architectural, and political contexts. Robert Liddiard is Professor of History, University of East Anglia. Contributors: Nicola Coldstream, Charles Coulson, Philip Dixon, Graham Fairclough, P. A. Faulkner, John Goodall, Beryl Lott, Charles McKean, T. E. McNeill, Richard K. Morris, Michael Prestwich, Christopher Taylor, Muriel A. Whitaker **Allen's illustrated guide to Nottingham** John Potter Briscoe, 1888 Castles of England John Paul Davis, 2021-10-30 In 1051 a monk of Canterbury Cathedral made a bizarre observation in what would eventually form part of the Anglo-Saxon Chronicle. In his chronicling of the year's events, he described the establishment of a new fortification in Herefordshire by French members of the king's party. More sophisticated than the typical Saxon burh, the word provided was alien to his vocabulary. In Latin, its builders had christened it castellum. Little did anyone at the time know this unique building would mark a drastic change in the direction of England's history. For almost a thousand years, the castles of England have stood proudly over her landscape. While many bear the scars of centuries of warfare, others continue to enjoy a far more comfortable existence. They are the sites of bloody sieges, the windswept ruin, the royal palace, the home of knights and nobility, the local museum, the posh hotel. Though we all recognise a castle when we see one, no two are ever exactly alike. By digging deep into the history of England's mighty castles, the purpose of this book

is to throw light on those who lived there For as long as there have been castles in England there have been mysteries within their walls murders that were never solved treasures that remain unfound prisoners left to rot in the ghastliest pits or executions worthy of lasting infamy From unfortunate victims to long lost legends infamous owners to ladies in grey Castles of England offers a fresh investigation into many of those tales that will forever be the cause of intrigue for visitors To understand who they were is to understand the story of the castle in England To understand the castle in England is to understand England
