Novels Of Everyday Life The Series In English Fiction 1850 1930:

Novels of Everyday Life Laurie Langbauer, 2019-05-15 Laurie Langbauer argues that our worldview is shaped not just by great public events but also by the most overlooked and familiar aspects of common life the everyday This sphere of the everyday has always been a crucial component of the novel but has been ignored by many writers and critics and long associated with the writing of women Focusing on the linked series of novels characteristic of later Victorian and early modern fiction such as Margaret Oliphant's Carlingford Chronicles or the Sherlock Holmes stories she investigates how authors make use of the everyday as a foundation to support their versions of realism What happens when in the series novel or in contemporary theory the everyday becomes a site of contestation and debate Langbauer pursues this question through the novels of Margaret Oliphant Charlotte Yonge Anthony Trollope and Arthur Conan Doyle and in the writings of Dorothy Richardson Virginia Woolf and John Galsworthy as they reflect on their Victorian predecessors She also explores accounts of the everyday in the works of such theorists as Henri Lefebvre Michel de Certeau and Sigmund Freud as well as materialist critics including George Lukacs Max Horkheimer and Theodor Adorno Her work shows how these writers link the series and the everyday in ways that reveal different approaches to comprehending the obscurity that makes up daily life [The Victorian Novel On File](#) Priyanka Anne Jacob, 2024-09-16 The Victorian Novel On File argues that the nineteenth century information explosion shapes the novel form In a world teeming with data the novel is a storage medium cluttered with detail and accumulating more than it can use The fictional things that have been read as insignificant should be seen instead as vessels of information embedding the text with potential This study weaves together a formal account of the novel with media and information studies as well as new materialist approaches to objects Information took material form in the nineteenth century in Victorian literature data can be located in bric a brac folded up papers semi precious stones and rubbish heaps Yet this information may never be transmitted as knowledge Instead the novel offers indefinite storage gesturing toward the future while holding action and accountability in abeyance Fallen by the wayside of plot are documents left on file containers left unopened stock left on the shelf and secrets left untold enacting this study argues the Victorian novel's aesthetics of deferral In readings of works by Charles Dickens George Eliot Mary Elizabeth Braddon Wilkie Collins and Rudyard Kipling this study illustrates the formal effects of cultural questions about value and meaning longevity and history abundance and overwhelm and keeping and discarding It closes by showing how these same questions animate the twenty first century's information culture as well **Troubled Legacies** Allan Hepburn, 2007-01-01 Last wills and testaments create tensions between those who inherit and those who imagine that they should inherit As Victorian modern and contemporary novels amply demonstrate seldom is more energy expended than at the reading of a will Whether inheritances bring disappointment or jubilation they create a pattern for the telling of stories stories that involve the transmission of legacies cultural political and monetary from one generation to the next Troubled Legacies examines these narratives of inheritance in British and Irish

fiction from 1800 to the present The essays in this collection set out to juxtapose legal and novelistic discourse This reading of literature against law produces intriguing and often provocative assertions about the specific relationship between novels and inheritance As the contributors argue novels reinforce property law an argument bolstered by the examples of women workers Jews and Irishmen dispossessed of their rights and unable to claim their cultural inheritances *Troubled Legacies* thoroughly examines the connection between narrative and claims to legal entitlement a topic that has not to date been comprehensively broached in literary studies *Edinburgh Companion to Anthony Trollope* Frederik Van Dam, 2018-11-14 By bringing together leading Victorianists with a wide range of interests this innovative collection of essays involves the reader in new approaches to Trollope's work *The Selected Works of Margaret Oliphant, Part IV Volume 15* Muireann O'Cinneide, 2024-08-01 Part IV offers the first critical edition of the four full length novels and three stories that comprise the *Chronicles of Carlingford* Each of the five volumes contains a full scholarly apparatus including the important variations between the serial versions and the first publication in volume format *The Routledge Research Companion to Anthony Trollope* Deborah Denenholz Morse, Margaret Markwick, Mark W. Wider Boundaries of Daring Di Brandt, Barbara Godard, 2011-09-08 Wider Boundaries of Daring The Modernist Impulse in Canadian Women's Poetry announces a bold revision of the genealogy of Canadian literary modernism by foregrounding the originary and exemplary contribution of women poets critics cultural activists and experimental prose writers Dorothy Livesay P K Page Miriam Waddington Phyllis Webb Elizabeth Brewster Jay Macpherson Anne Wilkinson Anne Marriott and Elizabeth Smart In the introduction editor Di Brandt champions particularly the achievements of Livesay Page and Webb in setting the visionary parameters of Canadian and international literary modernism The writers profiled in Wider Boundaries of Daring are the real founders of Canadian modernism the contributors of this volume argue both for their innovative aesthetic and literary experiments and for their extensive cultural activism They founded literary magazines and writers groups wrote newspaper columns and created a new forum for intellectual debate on public radio At the same time they led busy lives as wives and mothers social workers and teachers editors and critics and competed successfully with their male contemporaries in the public arena in an era when women were not generally encouraged to hold professional positions or pursue public careers The acknowledgement of these writers formidable contribution to the development of modernism in Canada and along with it wider boundaries of daring for women and other people previously disadvantaged by racial ethnic or religious identifications has profound implications for the way we read and understand Canadian literary and cultural history and for the shape of both national and international modernisms

The Bigamy Plot Maia McLeavey, 2015-05-18 This study explores the prevalence of bigamy in Victorian fiction to challenge traditional understanding of the period's social and narrative conventions

The Pleasures of Memory Sarah Winter, 2015-08-03 How did this nineteenth century novelist change the way we think A fine contribution to the sociology of literature Highly recommended Choice What are the sources of the commonly held presumption that reading literature should make people more just humane and sophisticated Looking at literary history in relation to the cultural histories of reading publishing and education The Pleasures of Memory illuminates the ways in which Dickens's serial fiction shaped not only the popular practice of reading for pleasure and instruction but also the school subject we now know as

English Sarah Winter shows how Dickens's serial fiction instigated specific reading practices by reworking the conventions of religious didactic tracts from which most Victorians learned to read Incorporating an influential associationist psychology of learning founded on the cumulative functioning of memory Dickens's serial novels consistently led readers to reflect on their reading as a form of shared experience Dickens's celebrity authorship Winter argues represented both a successful marketing program for popular fiction and a cultural politics addressed to a politically unaffiliated social activist Victorian readership As late nineteenth century educational reforms consolidated British and American readers into mass populations served by state school systems Dickens's beloved novels came to embody the socially inclusive and humanizing goals of democratic education

Formal Investigations Paul Fox, Koray Melikoglu, 2012-02-10 The essays in this volume explore a variety of structuring taxonomies the relationships between the aesthetic forms styles and methodologies of detective and crime fiction in the late Victorian and Edwardian period The influences on the artists in the genre are as varied as the interests of the period in scientific method forensics archaeology aesthetics medicine and the paranormal But the formalizing tendencies of investigative process remain and it is this adherence in artist and detective alike to seeing crime and its resolution as a stylistic imposition of structure on disorder that is under examination

Charlotte Mary Yonge Clare Walker Gore, Clemence Schultze, Julia Courtney, 2022-11-28 This interdisciplinary collection of essays explores the life and work of Charlotte M Yonge a highly influential and popular nineteenth century writer who is emerging from a long period of critical neglect Its wide ranging chapters capture the scope and quality of current work in Yonge studies addressing the full range of her prolific literary output from her best selling novels to her nature writing biographies and letters Considering themes from gender disability and empire to Tractarianism secularism and the idea of progress these essays consider how Yonge reflected and shaped the tastes ideas and anxieties of her readers and contemporaries Exploring her key role in the Anglican revival her importance as a test case in the development of feminist criticism and her formal innovativeness as a novelist this collection places Yonge centrally in the nineteenth century literary landscape and demonstrates her ongoing relevance to scholars and students of the period

The Victorian Baby in Print Tamara S. Wagner, 2020-10-15 *The Victorian Baby in Print* Infancy Infant Care and Nineteenth Century Popular Culture explores the representation of babyhood in Victorian Britain The first study to focus exclusively on the baby in nineteenth century literature and culture this critical analysis discusses the changing roles of an iconic figure A close look at the wide ranging portrayal of infants and infant care not only reveals how divergent and often contradictory Victorian attitudes to infancy really were but also challenges persistent clichés surrounding the literary baby that emerged or were consolidated at the time and which are largely still with us Drawing on a variety of

texts including novels by Charles Dickens Wilkie Collins Mary Elizabeth Braddon Mrs Henry Wood and Charlotte Yonge as well as parenting magazines of the time childrearing manuals and advertisements this study analyses how their representations of infancy and infant care utilised and shaped an iconography that has become definitional of the Victorian age itself The familiar clichés surrounding the Victorian baby have had a lasting impact on the way we see both the Victorians and babies and a critical reconsideration might also prompt a self critical reconsideration of the still burgeoning market for infant care advice today

Place and the Scene of Literary Practice Angharad Saunders, 2017-07-28 The act of writing is intimately bound up with the flow and eddy of a writer's being within the world the everyday practices encounters and networks of social life Exploring the geographies of literary practice in the period 1840-1910 this book takes as its focus the work or craft of authorship exploring novels not as objects awaiting interpretation but as spatial processes of making meaning As such it is interested in literary creation not only as something that takes place the situated nature of putting pen to paper but simultaneously as a process that escapes such placing Arguing that writing is a process of *longue durée* the book explores the influence of family and friends in the creative process it draws attention to the role that travel and movement play in writing and it explores the wider commitments of authorial life not as indicators of intertextuality but as part of the creative process In taking this seventy year period as its focus this book moves beyond the traditional periodisations that have characterised literary studies such as the Victorian or Edwardian novel the nineteenth century or early twentieth century novel or Romanticism social realism and modernism It argues that the literary environment was not one of watershed moments there were continuities between writers separated by several decades or writing in different centuries At the same time it draws attention to a seventy year period in which the value of literary work and culture were being contested and transformed *Place and the Scene of Literary Practice* will be key reading for those working in Human Geography particularly Cultural and Historical Geography Literary Studies and Literary History

Victorian Biography Reconsidered Juliette Atkinson, 2010-08-26 In 1939 Virginia Woolf called for a more inclusive form of biography which would include the failures as well as the successes the humble as well as the illustrious She did so in part as a reaction against Victorian biography deemed to have been overly preoccupied with Great Men Yet a significant number of Victorians had already broken ranks to write the lives of humble unsuccessful or neglected men and women Victorian Biography Reconsidered seeks to uncover and assess this trend The book begins with an overview of Victorian biography followed by a reflection on how the bagginess of nineteenth century hero worship enabled new subjects to emerge Biographies of hidden lives are then scrutinized through chapters on the lives of humble naturalists failed destinies minor women writers neglected Romantic poets rescued by Victorian biographers and finally the Dictionary of National Biography In its conclusion the book briefly discusses how Virginia Woolf absorbed earlier biographical trends before redirecting the representation of hidden lives Victorian Biography Reconsidered argues that often paradoxically nineteenth century biographers regarded the public sphere with intense

wariness At a time of instability for men of letters biographers embraced the role of mediators in a manner that asserted their own cultural authority Frequently they showed little interest in vouchsafing immortality for their unknown or forgotten subjects but strove instead to provoke amongst their readers a feeling of gratitude for the hidden labour that sustained the nation and an appreciation for the writers who had brought it to their attention *Counter-Archive* Paula Amad,2010-09-28 Counter Archive brilliantly reflects the visual character of philosophy geography and historiography in twentieth century France Organized hermetically and crafted meticulously this volume offers a wealth of information as it considers film theory Tom Conley Harvard University Tucked Away in a Garden on the edge of Paris is a multimedia archive like no other Albert Kahn s Archives de la Planete 1908 1931 Kahn s vast photo cinematographic experiment preserved world memory through the privileged lens of everyday life and Counter Archive situates this project in its biographic intellectual and cinematic contexts Tracing the archive s key influences such as the philosopher Henri Bergson the geographer Jean Brunhes and the biologist Jean Comandon Paula Amad maps an alternative landscape of French cultural modernity in which vitalist philosophy cross pollinated with early film theory documentary film with the avant grade cinematic models of temporality with the early Annales school of history and film s appropriation of the planet with human geography and colonial ideology At the heart of the book is an insightful meditation upon the transformed concept of the archive in the age of cinema and an innovative argument about film s counter archival challenge to history This impressive book carves out a field of interest that prior to Paula Amad s scrutiny did not exist Amad displays extraordinary erudition assembling a remarkable bibliography of primary sources She invites us to ponder her ideas in relation to our own digital counter archival image overload Antonia Lant New York University editor of *Red Velvet Seat Women s Writings on the First Fifty Years of Cinema* Paula Amad handles technical details with flourish and mastery and the research in the French archives is exhilarating Donald Crafton University of Notre Dame Paula Amad s book is far more than an unusually successful effort to recover and analyze Kahn s unique dream of archiving the planet It stages a theoretical interrogation of the terms archive everyday life and modernity arguing that the emergence of motion pictures produced a revisionist concept of the archive or what she calls the counter archive Her book ultimately mounts a highly original methodological exploration of the intersection of history and theory Richard Abel University of Michigan **Prosaic Desires** Sara Crangle,2010-07-05 Studying the work of Joyce Woolf Stein and Beckett Sara Crangle explores the everyday human longings found in Modernist writing This discussion is set within a framework of continental philosophy particularly the thinking of Emmanuel Levinas **The Selected Works of Margaret Oliphant, Part IV Volume 17** Joanne Shattock,2024-10-28 Part IV offers the first critical edition of the four full length novels and three stories that comprise the Chronicles of Carlingford Each of the five volumes contains a full scholarly apparatus including the important variations between the serial versions and the first publication in volume format
