Preparing To Make War The Battle Lines Are Drawn:

Preparing to Make War Richard Tallent, Sr., 1994-05-05 If military science is indeed a true science then its rules and strategies are repeatable and are universal laws As such they are also the IMMUTABLE Laws of God In this book the author draws parallels between natural warfare and spiritual warfare in a unique and powerful manner that brings the reader or student into a new understanding of the battles we face why we face them and how to attack and counter attack the enemy of our souls The book was first released in 1994 and has become a favorite among pastors and Bible teachers with one prominent mega church pastor calling it easily THE TEXTBOOK on Spiritual Warfare This book addresses the current militant spiritual climate with answers to why the physical manifestations of the spiritual battle have permeated every sector of society why the division and racial strife and why false religions are dominating the news the streets and society The Reformatory Press Iowa. The March on Washington: Jobs, Freedom, and the Forgotten History of Civil Rights William P. Jones, 2013-07-29 A history professor describes the impact and history of the opening speech made during the March on Washington by the trade unionist Philip Randolph whose vision and fight for equal economic and social citizenship began in 1941

SHARED HISTORIES Paul Scham, Walid Salem, Benjamin Pogrud, 2005-10-15 This volume attempts to present a dialogue between Israeli and Palestinian scholars over competing narratives in the 19th and 20th century history of the Middle East to 1948 in the hopes of creating an appreciation understanding and respect for the other

The Modern Social Conflict Ralf Dahrendorf, 2011-12-31 Revolutions are melancholy moments in history brief gasps of hope that emerges from misery and disillusionment This is true for great revolutions like 1789 in France or 1917 in Russia but applies to lesser political upheavals as well Conflict builds into a state of tense confrontation like a powder keg When a spark is thrown an explosion takes place and the old edifice begins to crumble People are caught up in an initial mood of elation but it does not last Normality catches up Why do revolutions occur In this completely revised edition of *The Modern Social Conflict* Ralf Dahrendorf explores the basis and substance of social and class conflict Ultimately he finds that conflicts are about enhancing life chances that is they concern the options people have within a framework of social linkages the ties that bind a society which Dahrendorf calls ligatures The book offers a concise and accessible account of conflict's contribution to democracies and how democracies must change if they are to retain their political and social freedom This new edition takes conflict theory past the fall of the Berlin Wall in 1989 and into the present day Upon publication of the original 1988 edition Stanley Hoffmann stated Ralf Dahrendorf is one of the most original and experienced social and political writers of our time this book is both a survey of social and political conflict in Western societies from the eighteenth century to the present and a tract for a new radical liberalism And Saul Friedlander wrote Ralf Dahrendorf has written a compelling book the brilliant contribution of a convinced liberal to the study of conflict within contemporary democratic society

Manpower and the Armies of the British Empire in the Two World Wars Andrew L. Brown, Douglas E. Delaney, Mark Frost, 2021-06-15 In the first and only examination of how the British Empire and Commonwealth sustained its soldiers before during and after both world wars a cast of leading military historians explores how the empire mobilized manpower to recruit workers care for veterans and transform factory workers and farmers into riflemen Raising armies is more than counting people putting them in uniform and assigning them to formations It demands efficient measures for recruitment registration and assignment It requires processes for transforming common people into soldiers and then producing officers staffs and commanders to lead them It necessitates balancing the needs of the armed services with industry and agriculture And often overlooked but illuminated incisively here raising armies relies on medical services for mending wounded soldiers and programs and pensions to look after them when demobilized Manpower and the Armies of the British Empire in the Two World Wars is a transnational look at how the empire did not always get these things right But through trial error analysis and introspection it levied the large armies needed to prosecute both wars Contributors Paul R Bartrop Charles Booth Jean Bou Daniel Byers Kent Fedorowich Jonathan Fennell Meghan Fitzpatrick Richard S Grayson Ian McGibbon Jessica Meyer Emma Newlands Kaushik Roy Roger Sarty Gary Sheffield Ian van der Waag
