J. Lang,2014-05-16 This useful volume presents the major works of the five leading Pre Raphaelite poets Foremost in the collection and included in their entirety are D G Rossetti s The House of Life C G Rossetti s Monna Innominata William Morris s Defence of Guenevere Swinburne s Atalanta in Calydon and Meredith s Modern Love Complementing these major poems is a fine generous selection of the poets shorter pieces that are typical of their work as a whole For this second edition Cecil Lang has substituted two early Swinburne poems The Leper and

Anactoria for Fitzgerald's The Rubiyat of Omar Khayyam These poems which the editor describes as shocking show a new aspect of Swinburne not discussed previously Lang's Introduction describes briefly the founding of the Pre-Raphaelite Brotherhood discusses each of the Pre-Raphaelite poets both individually and in relation to the others and grapples with the questions of definition of Pre-Raphaelitism and the similarities between its painting and poetry The book is appropriately illustrated with thirty-two works by D.G. Rossetti John Ruskin William H. Hunt and other Pre-Raphaelite artists This is the only anthology available that provides a representative selection of the work of these important poets It will be indispensable to students of Victorian poetry and appreciated by readers interested in the Pre-Raphaelites

**Writing the Pre-Raphaelites**  
Tim Barringer, 2017-07-05 This vibrant collection of essays claims that a complex network of texts by critics biographers and diarists established the credibility and influence of the Pre-Raphaelite movement Throughout the twentieth century Modernist taste failed to acknowledge the achievement of oppositional groupings such as the Pre-Raphaelites The essays collected here however reveal that the British group anticipated later avant-gardes by using the written word to configure for itself a radical artistic identity Public and critics alike were scandalized by the radicalism of Pre-Raphaelite painting its unflinching portrayal of historical figures and of contemporary life and its irreverent attitude to artistic convention Pre-Raphaelitism's innovations were not confined to style new forms of artistic identity and behaviour were explored As the contributors interrogate the texts through which Pre-Raphaelitism was constructed they demonstrate that the movement's wide influence as a cultural phenomenon derived from the interplay between exhibited works and critical discourse Applying a range of sophisticated methodologies from the fields of literary studies art history and cultural studies these interdisciplinary essays uncover the neglected role of texts in the success of the Pre-Raphaelite rebellion and argue in favor of a new centrality for this movement in the history of nineteenth-century European culture
