## **Prescription For Longevity:**

**A Doctor'S Prescription for Longevity and Survival** Vincent N. Cefalu Sr. M.D.,2015-03-28 This book offers advice to people who would like to hopefully increase their longevity and have as much enjoyment and fulfillment out of life as possible I present an honest and commonsense approach on how to remain as healthy as theoretically possible while keeping some credibility and satisfaction in life I provide many recommendations that deal with real life situations instead of fantasies and present conclusions based on my having personally performed over 1 500 autopsies and my own deleterious consequences of having developed atherosclerotic disease from being over four hundred pounds for over thirty years In this book I detail a very strict diet plan the perfect diet which I created that resulted in my losing 272 pounds over a ten month period and whereby my continued adherence has allowed me to be able to maintain this weight However I relate the many problems that I developed in following such a rigorous diet program and offer prophylactic advice to people electing to lose weight extremely fast so that they won't encounter the same problems I also provide some very inexpensive and easy to prepare low calorie recipes that I concocted which are good appetizers and filler uppers In my usual witty satiric manner I discuss many dangerous drugs that should be avoided and mention several foods that should be eliminated from a person's diet along with furnishing some of my own little homemade poems along the way Through my experiences as having served as coroner I disclose many hazards that exist in our environment mention some simple things that people tend to forget that too often result in fatalities and present my views of many of the over the counter products By making overweight and diabetic individuals aware of certain physiological processes that are continuously occurring in our bodies hopefully they would be in a better position to understand and interpret my suggestions In brief I have something to offer all my readers from the most radical my diet plan to the most realistic and conservative In a nutshell I lived through what I now advocate against since I discovered too late what obesity could do to the human body      *Prescription for Longevity* James Scala,1992 Offers the most recent scientific findings that show exactly how nutrients and a variety of foods work to protect against such diseases as cancer cataracts arthritis and inflammatory bowel disease      *The Memory Prescription* Gary Small,2004-06-09 In his bestselling book *The Memory Bible* Dr Gary Small showed us how to improve our memory by changing our diet and lifestyle and by incorporating physical and mental exercise Now in response to readers requests Dr Small offers *The Memory Prescription* a simple effective two week program to improve memory quickly Based on years of medical research at one of the country's leading memory loss institutions Dr Small focuses on the Big 4 mental activity healthy brain and body diet stress reduction and physical fitness and he offers a step by step regimen that can be customized to each reader's specific needs      *Women Restore Your Health* Therlee Gipson,2018-12-27 This book titled *Women Restore Your Health* should be in every household in the United States The intention of this book is to educate our young people about the many consequences to lose their virginity male or female This may not be that consequential to a lot of people but if you only knew what you were

giving up and might catch you would think twice You re giving a piece of your heart and your body to someone that you may not even marry Every time you sleep around you is losing less and less of yourself to different people The odds of catching an STD really goes up

Stossel,2015-04-23 For millennia human survival depended on our innate abilities to fight pathogens and repair injuries Only recently has medical science prolonged longevity and improved quality of life Physicians and academic researchers contribute to such progress but the principal contributor is private industry that produces the tools drugs and medical devices enabling doctors to prevent and cure disease Heavy regulation and biology s complexity and unpredictability make medical innovation extremely difficult and expensive Pharmaphobia describes how an ideological crusade stretching over the last quarter century has used distortion and flawed logic to make medical innovation even harder in a misguided pursuit of theoretical professional purity Bureaucrats reporters politicians and predatory lawyers have built careers attacking the medical products industry belittling its critical contributions to medical innovation and accusing it of non existent malfeasance overselling product value flaunting safety and corrupting physicians and academics who partner with it The mania has imposed conflict of interest regulations limiting or banning valuable interactions between industry and physicians and researchers and diverting scarce resources from innovation to compliance The victims are patients suffering from cancer dementia and other serious diseases for which new treatments are delayed reduced or eliminated as a result of these pointless regulations With breathtaking detail Thomas Stossel shows how this attack on doctors who work with industry limits medical innovation and inhibits the process of bringing new products into medical care **Medical Art and Indianapolis Medical Journal** ,1919 **Look Younger, Live Longer** Francisco Contreras,2016-06-07 Are you a baby boomer facing the hard facts of aging in your own life Or are you young and determined to stay that way for as long as possible Genesis 6 3 suggests that God set the human life span at one hundred twenty years Breakthrough scientific research has unlocked many of the secrets of aging proving the biblical age limitation to be correct Dr Francisco Contreras offers proven research that will improve your health and perhaps reverse any illness or disease once and for all According to Dr Contreras you have the power right now to greatly increase your life span and to feel better and look younger *New York Journal of Homœopathy* ,1910 **The Longevity Revolution** Robert N.
