Presenting The Past Britain 1500 1750 Presenting The Past:

Britain 1500-1750 Keith Worrall, 2002 The second book of teacher s resources in a Key Stage 3 series *Echoing Events* Tina van der Vlies, 2022-12-12 *Echoing Events* questions the perpetuation actualization and canonization of national narratives in English and Dutch history textbooks wide reaching media that tendentially inspire a sense of meaning memory and thus also identity The longitudinal study begins in the 1920s when the League of Nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries The analysis shows how and why textbook authors have narrated different histories which vary in terms of context epoch and place as echoing events by using recurring plots and the same combinations of historical analogies This innovative and original study thus investigates from a new angle the resistance of national narratives to change **Outdoor Learning:**

Past And Present Joyce, Rosaleen, 2012-02-01 This book places outdoor learning in a theoretical historical and social context of constructions of children childhood and the use of the outdoors Reading Early Modern Women Helen Ostovich, Elizabeth Sauer, 2004-08-02 Much has been written about women of the English Renaissance but few examples of women s writing from that era have been readily available until now This remarkable anthology assembles for the first time 144 primary texts and documents written by women between 1550 and 1700 and reveals an unprecedented view of the intellectual and literary lives of women in early modern England The writings range from poetry to philosophical treatises addressing a wide array of subjects including law gender education motherhood medicine religion life writing and the arts Each selection is paired with a beautifully reproduced facsimile of the text s original source manuscript allowing a glimpse into the literary past that will lead the reader to truly appreciate the care and craft with which these women writers prepared their texts This essential anthology is a captivating guide to the legacy of early modern women s literature and its authors that must not be overlooked **Slang and Its Analogues Past and Present: Stra. to Z** John Stephen Farmer, 1904

Town and Countryside in Western Berkshire, C.1327-c.1600 Margaret Yates, 2007 A fresh examination of how society and economy changed at the end of the middle ages comparing urban and rural experience The traditional boundary between the medieval and early modern periods is challenged in this new study of social and economic change that bridges the fifteenth and sixteenth centuries It addresses the large historical questions what changed when and why through a detailed case study of western Berkshire and Newbury integrating the experiences of both town and countryside Newbury is of particular interest being a rising cloth manufacturing centre that had contacts with London and overseas due to its specialist production of kerseys The evidence comes from original documentary research and the data are clearly presented in tables and graphs It is a book alive with the actions of people famous men such as the clothier John Winchcombe known as Jack of Newbury but more notably by the hundreds of individuals such as William Eyston or Isabella Bullford who acquired property cultivated their lands or in the case of Isabella managed the mill complex after her husband's death MARGARET YATES is Lecturer in History at the University of Reading

Writing the Lives of the English Poor, 1750s-1830s Steven King, 2019-02-28 From the mid eighteenth century to the early nineteenth century the English Old Poor Law was waning soon to be replaced by the New Poor Law and its dreaded workhouses In Writing the Lives of the English Poor 1750s 1830s Steven King reveals colourful stories of poor people their advocates and the officials with whom they engaged during this period in British history distilled from the largest collection of parochial correspondence ever assembled Investigating the way that people experienced and shaped the English and Welsh welfare system through the use of almost 26 000 pauper letters and the correspondence of overseers in forty eight counties Writing the Lives of the English Poor 1750s 1830s reconstructs the process by which the poor claimed extended or defended their parochial allowances Challenging preconceptions about literacy power social structure and the agency of ordinary people these stories suggest that advocates officials and the poor shared a common linguistic register and an understanding of how far welfare decisions could be contested and negotiated King shifts attention away from traditional approaches to construct an unprecedented comprehensive portrait of poor law administration and popular writing at the turn of the nineteenth century At a time when the western European welfare model is under sustained threat Writing the Lives of the English Poor 1750s 1830s takes us back to its deepest roots to demonstrate that the signature of a strong welfare system is malleability

History and Material Culture Karen Harvey, 2017-09-18 Sources are the raw material of History but whereas the written word has traditionally been seen as the principal source historians now recognize the value of sources beyond text In this new edition of History and Material Culture contributors consider a range of objects from an eighteenth century bed curtain to a twenty first century shopping trolley which can help historians develop new interpretations and new knowledge about the past Containing two new chapters on healing objects in East Africa and the shopping trolley in the social world this book examines a variety of material sources from around the globe and across centuries to assess how such sources can be used to study the distant and the recent past In a revised

introduction Karen Harvey discusses some of the principal issues raised when historians use material culture particularly in the context of the material turn and suggests some initial steps for those unfamiliar with these kinds of sources While the sources are discussed from interdisciplinary perspectives the emphasis of the book is on what historians stand to gain from using material culture as well as what historians have to offer the broader study of material culture Clearly written and accessible this book is the ideal introduction to the opportunities and challenges of researching material culture and is essential reading for all students of historical theory and method

The Industrial Revolution Pat Hudson,2014-08-29 This

is an introduction to the Industrial Revolution which offers an integrated account of the economic and social aspects of change during the period Recent revisionist thinking has implied that fundamental change in economic social and political life at the time of the Industrial Revolution was minimal or non existent The author challenges this interpretation arguing that the process of revision has gone too far emphasizing continuity at the expense of change and neglecting many

historically unique features of the economy and society Elements given short shrift in many current interpretations are reassigned their central roles

Age Relations and

Scenes from Bourgeois Life Nicholas Ridout,2020-06-22 Scenes from Bourgeois Life proposes that theatre spectatorship has made a significant contribution to the historical development of a distinctive bourgeois sensibility characterized by the cultivation of distance In Nicholas Ridout s formulation this distance is produced and maintained at two different scales First is the distance of the colonial relation not just in miles between Jamaica and London but also the social economic and psychological distances involved in that relation The second is the distance of spectatorship not only of the modern theatregoer as consumer but the larger and pervasive disposition to observe comment and sit in judgment which becomes characteristic of the bourgeois relation to the rest of the world This engagingly written study of history class and spectatorship offers compelling proof of why theater matters and demonstrates the importance of examining the question historically

Crime and Punishment in Eighteenth-century England

Frank McLynn,1989 Why was the era of Augustan elegance also that of Hogarthian squalor How far was the Industrial Revolution responsible for the rise of street gangs and highwaymen Was it a coincidence that the autocratic monarchies of Europe suffered less from violent crime Were such heroes as Dick Turpin motivated by Robin Hood impulses Why were public executions regarded as entertainment and not deterrents The author attempts to answer all these questions in this study of a society he characterizes as riddled with insecurities and governed by envies and fears The book is aimed at students graduate and undergraduate of 18th European and British history and those interested in crime the law criminality
