Pictures for Schools, 1925 *The Film Renter and Moving Picture News*, 1927 **Propaganda and Zionist**

Education Yoram Bar-Gal, 2003 A history of the Jewish National Fund and the ways it encouraged Jews around the world to buy land in Palestine in the years 1924-1947 The Jewish National Fund (JNF) is the executive body established by the Zionist movement in 1902 to buy land in Palestine for the Jewish people Very quickly however it became an international organization and soon had branches in many countries throughout the world One of the tasks of these branches was to mediate between the central office in Jerusalem and the millions of Jews who donated money to buy land The organization which is still active throughout the Jewish world concerned itself with the marketing of ideology the dissemination of symbols knowledge and ideas to the masses of the Jewish people and converted them into money and real estate property In the memories of much of World Jewry the JNF is linked with memories of their childhoods and the forming of their identities The memory was in fact fashioned by the Propaganda Department of the JNF which worked through the mass communications media in the Jewish world and made its presence massively felt in the Jewish education networks in many countries Among the most remembered items are the Blue Box the flagship of the organization and the stamps distributed to schools which were miniature posters making political declarations Up until today there has been virtually no research carried out on these aspects of Zionist propaganda which helped to fashion this collective memory and left its mark upon Jewish culture in Israel and the Jewish Diaspora Yoram Bar Gal is Professor of Geography at Haifa University in Israel

Motion Picture News, 1919 **The Routledge Companion to Consumer Behavior** Michael R. Solomon, Tina M.

Lowrey,2017-09-22 The key to marketing is understanding and satisfying consumer needs thus a knowledge of consumer behavior is essential to any organization dealing with customers users or clients This book promises to be a contemporary classic It brings together an international set of scholars many of whom are household names to examine the diverse approaches to consumer behavior topics The editors employ a micro to macro structure dividing each topic into three parts one reflecting foundational work one focused on emerging trends and one covering practical applications Each part examines the relationship between consumer behaviour and motivation including well being gender social class and more and concludes with practitioner perspectives on the challenges and opportunities that come with understanding customers Readers will gain insight into how drives that are constantly in flux relate to other aspects of human cognition and behavior allowing them to reach customers successfully and to meet their needs With contributions from leading scholars including Sidney Levy and Jagdish Sheth this volume sets the standard as the most comprehensive cutting edge resource on the subject of consumer behavior Students of consumer behaviour and marketing will find this a useful exploration of a fast moving field fundamental to the welfare of companies government non profits and consumers It will also benefit new and established academic researchers as well as practitioners who want to stay on top of current knowledge

Motion Picture Herald,1927

Psychology of Touch and Blindness Morton A. Heller,Edouard Gentaz,2013-10-08 This book reviews the considerable body of research that has been done to evaluate the touch skills of blind people With an emphasis on cognitive and neuroscientific approaches it encompasses a wide ranging discussion of the theoretical issues in the field of touch perception and blindness The volume includes chapters on sensory aspects of touch perception in blind individuals multimodal relations and their implications for instruction and development and new technology including sensory aids and virtual touch A distinctive feature of the book is the inclusion of the practical applications of research in this area A significant characteristic of research on touch and imagery in congenitally blind individuals is that it speaks to the basic

nature of spatial imagery and the importance and necessity or lack thereof of specific visual sensory experience for the acquisition of knowledge about space spatial layout and picture perception As such the book will not only appeal to researchers and professionals with an interest in touch and blindness but also to a wider audience of cognitive psychologists and cognitive neuroscientists working in the field of perception

Handbook of Research Methods in Human Memory and Cognition C. Richard Puff,2013-10-22 Handbook of Research Methods in Human Memory and Cognition is a compilation of critical examinations of major contemporary research methods in the area of human memory and cognition The book covers topics that are defined in terms of experimental tasks and materials aiming to introduce newcomers to the range of methodologies available and allow flexibility of choices for established investigators on how to attack the problem Recognition memory free recall and prose memory are discussed in detail Psychologists and researchers in allied fields will find the book a good reference material

Materials for Learning Janet Jenkins,2023-12-22 Materials for Learning 1981 examines the ability of books and broadcasts to change lives The combination of print radio television and group meetings distance teaching can transform education in developing countries Effective distance teaching requires effective teaching materials and up to now there has been a lack of guidance about how to produce such materials and how to do so for different cultures Materials for Learning aims to supply this need by suggesting guidelines for action and where evidence is mixed or lacking defining questions that still require answers It is a practical book aimed at people actively involved in nonformal education and will be particularly useful for the developing world educators The book looks first at how distance teaching can help with educational problems considers how adults learn and surveys problems of language and culture It then considers the planning of distance teaching and looks in detail at the use of different media There were also chapters on teaching numeracy and science at a distance and a discussion of the kind of support that can be provided for people studying at a distance

American Icons Benedikt Feldges,2007-12-12 Shedding light on the historicity of icons to reframe the history of the screen and dissect the visual core of a medium that is still poorly understood this book presents new ways of seeing the mechanisms at work in our modern pictorial culture

Advances in Cognitive Research, Artificial Intelligence and Neuroinformatics Boris M. Velichkovsky,Pavel M. Balaban,Vadim L. Ushakov,2021-04-17 This book reports on theoretical and experimental research answering key questions in neuroscience philosophy of mind and cognitive research It gives a special emphasis on findings achieved within the territory of the former U S S R which has remained largely unknown to an international readership The volume gathers authoritative studies on cognitive development consciousness attention and perception It covers research on eye movements language speech and semantics emotion as well as brain functional states and a variety of decision making processes It also highlights important advances in cognitive robotics and artificial intelligence discussing brain computer interfaces and other practically relevant technologies It includes studies on human subjects in both healthy and disease conditions and investigations on the molecular mechanisms

of cognition in animal models Chapters are based on invited lectures and peer reviewed contributions to the 9th International Conference on Cognitive Sciences Intercognsci 2020 held on October 10 16 2020 in Moscow The conference was organized by the Interregional Association of Cognitive Studies with the participation of the Pavlov Society for Neurophysiology and Higher Nervous Activity and supported by the Russian Academy of Sciences the Russian Foundation for Basic Research and a number of the north eastern European research institutions All in all this book provides cognitive scientists around the world with a timely snapshot of interdisciplinary research and cutting edge models and a major source of inspiration for future collaborations in the areas of artificial intelligence and cognitive neuroscience The Cambridge Handbook of Multimedia Learning Richard E. Mayer,2005-08-15 This 2005 book constitutes comprehensive coverage of research and theory in the field of multimedia learning *The Complete Editor* James Glen Stovall,Edward Mullins,2015-10-05 Filled with abundant exercises The Complete Editor provides readers with many resources actively learn about copyediting headline writing decision making relationships with writers graphic presentations photo editing and layout and design It also contains a separate chapter on legal principles that an editor needs to understand This efficient and well written text gives readers basic information about the essential topics at hand Foreign Commerce Weekly ,1951 **Foreign Commerce Weekly** United States. Department of Commerce,1951
