

# Easy Steps to Prevent Food Waste

Everyone is shopping smarter these days. It is important for the environment to keep food waste out of landfills where it produces methane, a powerful greenhouse gas.

**Use these tips to save on groceries and help the environment.**

## 1. Plan ahead

Before you go to the grocery store or order online, make a list so you don't buy more than you need.

## 2. Serve smart

Portion control is good for your waistline, and good for reducing plate waste.

## 3. Love your leftovers

Pack leftovers in small portions in shallow containers, mark the contents and date, refrigerate and use within 3 to 4 days or freeze immediately.

## 4. Compost, don't trash

Food scraps can be recycled into compost, an organic material that can be added to soil to help plants grow. Set up a home compost bin or drop your food waste at a local compost center.
