Report of the President of the Johns Hopkins University, Baltimore, Maryland Johns Hopkins University,1922 *Annual Report of the President of the Johns Hopkins University, Baltimore, Maryland* ,1896 Political Anxiety in Golden Age Children's Classics and Their

Contemporary Adaptations Jasmin Sültemeyer,2021-07-05 As striking counter intuitive and distasteful as the combination of children and anxiety may seem some of the most popular children s classics abound in depictions of traumatic relationships bloody wars and helpless heroes This book draws on Freudian and Lacanian anxiety models to investigate the psychological and political significance of this curious juxtaposition as it stands out in Golden Age novels from both sides of the Atlantic and their present day adaptations The stories discussed in detail so the argument goes identify specific anxieties and forms of anxiety management as integral elements of hegemonial middle class identity Apart from its audacious link between psychoanalysis and Marxist feminist as well as postcolonial ideology criticism this study provides a nuanced analysis of the ways in which allegedly trivial texts negotiate questions of individual and trans national identities In doing so it offers a fresh look at beloved tales like Alice s Adventures in Wonderland The Wizard of Oz and Peter Pan contributes to the dynamic field of adaptation studies and highlights the necessity to approach children s entertainment more seriously and more sensitively than it is generally the case

Environment: Why Read the Classics Sofia Vaz,2017-09-29 Environment Why Read the Classics presents six important essays by some of the world s leading environmental thinkers on six of the most emblematic books ever written on the environment The books Walden A Sand County Almanac Small is Beautiful Silent Spring The Limits to Growth and Our Common Future taken together have been hugely important in the development of global environmental awareness activism and policy The essayists Viriato Soromenho Marques J Baird Callicott Jos Lima Santos Tim O Riordan Satish Kumar and Marina Silva invite readers to reflect on these ground breaking works and examine their historical importance as well as what they should mean to us today and what relevance they will have to future generations More than just books about the environment these are also philosophical treatises in that they increase our understanding of the natural world and of ourselves calling us to weigh and consider as Bacon put it In particular they make us reflect on the need to constantly redefine the purposes of progress the economy and society How we relate to nature is a crucial aspect in the plans we make as a species and as individuals and every one of these books inspires a more respectful relationship both with nature and humanity and consequently with ourselves The six essays in this book are the result of a series of conferences organised in Lisbon by the Calouste Gulbenkian Foundation with the support of the American Embassy in Portugal Its raison

d tre was to revisit the ideas that have shaped the environmental movement seeking inspiration to deal with what looks like a very challenging future The significance of such timeless concepts is now more apparent than ever and these evergreen books are full of ideas that retain their spark even in our difficult times This is what makes them classics Environment Why Read the Classics is a provocative book and will be essential reading for all those concerned about the state of the world

Reports of the President and Other Officers Western Reserve University,1922 Report of the President of Harvard College and Reports of Departments Harvard University,1900 **Annual Reports [of] President and Treasurer** Wellesley College,1928 *Classical Rhetoric and Contemporary Law* Kirsten K. Davis,Brian N. Larson,Francis J. Mootz,Kristen K. Tiscione,2024-04-30 From the twin birth of western rhetoric and law in the Greek speaking world in the first millennium BCE law and rhetoric were deeply connected in the ancient world In the modern era of legal practice the clear connections between law and classical rhetoric have largely been lost to both those trained in the law and those who study rhetoric This interdisciplinary reader reestablishes those lost connections by pairing primary source materials in classical rhetoric and contemporary law The chapters in this volume show that ancient rhetorical texts can deepen or disrupt contemporary notions about principles that lie at the root of western legal traditions and return to us our past making it possible for scholars across several disciplines to build on work accomplished centuries before Broken into four parts this volume first covers the historical development of rhetoric In Part Two volume editor Mootz and scholar David A Frank look at rhetorical theorists at bookends of an era when classical rhetoric was de valued as a mode of thought Mootz discusses the hegemonic wave of Enlightenment epistemology that separated law from rhetoric and Frank shows that where Cartesian rationality fails in the modern era the humanistic tradition of rhetoric allows law to respond to the needs of justice Part Three consists of ten chapters that each 1 introduce a classical rhetorical theorist to the reader 2 provide an excerpt from a text by that theorist and then 3 demonstrate the relevance of that work to a contemporary court case Moving from the Sophists through Aristotle and Plato and their Greek contemporaries to the Roman rhetoricians Cicero and Quintilian and finally to the early medieval rhetorician St Augustine these reprinted classical texts are contextualized by leading scholars in law classics and rhetoric each with probing discussion questions for readers to engage and interact with the materials rhetorically This vital resource of primary texts demonstrates how rhetoric illuminates the operation of the legal system and reconnects law to its rhetorical roots Structured for use by scholars in critical inquiry and well suited for use in graduate or law school courses *Classical Rhetoric and Contemporary Law* will be of interest to law rhetoric English and communication scholars and as an interactive catalyst to examine the ways in which ancient rhetorical theory informs our understanding of law practice today *Human Dignity in an African Context* Motsamai Molefe,Christopher Allsobrook,2023-11-07 This book is a contribution to African philosophy by philosophers focusing specifically on the concept of human dignity in ethical theory The concept of human dignity denotes the intrinsic and superlative worth associated with human beings in virtue of which we owe them utmost

moral regard Although dignity is a foundational concept for African philosophy there remains scant literature in African philosophy dedicated to critical and systematic reflection on the concept of human dignity This volume responds to this lacuna by bringing together chapters that offer philosophical exposition defense or even rejection and application of the concept of human dignity in light of intellectual resources in African cultures such as ubuntu personhood and serithi **The Smith Alumnae Quarterly** ,1926 *The Oxford Handbook of the American Presidency* George C. Edwards,William G. Howell,2011-08-04 With engaging new contributions from major figures in the field The Oxford Handbook of the American Presidency provides the key point of reference for anyone working in American politics today African American Writers & Classical Tradition William W. Cook,James Tatum,2024-05-31 Constraints on freedom education and individual dignity have always been fundamental in determining who is able to write when and where Considering the singular experience of the African American writer William W Cook and James Tatum here argue that African American literature did not develop apart from canonical Western literary traditions but instead grew out of those literatures even as it adapted and transformed the cultural traditions and religions of Africa and the African diaspora along the way Tracing the interaction between African American writers and the literatures of ancient Greece and Rome from the time of slavery and its aftermath to the civil rights era and on into the present the authors offer a sustained and lively discussion of the life and work of Phillis Wheatley Frederick Douglass Ralph Ellison and Rita Dove among other highly acclaimed poets novelists and scholars Assembling this brilliant and diverse group of African American writers at a moment when our understanding of classical literature is ripe for change the authors paint an unforgettable portrait of our own reception of classic writing especially as it was inflected by American racial politics **The Independent** William Livingston,1922 The Independent ,1922
