Hermann, New York Press Photographers Association, 2015-08-24 New York City has earned its place as the media capital of the world and its newspapers have chronicled life death triumph and tragedy While people like Damon Runyon Walter Winchell and Jimmy Breslin are remembered for how they wrote about the news the people who documented it visually are mostly forgotten For many decades photographers who captured iconic images for New York's newspapers did so anonymously picture credit lines were a rarity This is the story of the people behind the pictures a history of the historians In 1915 a group of lensmen formed a fraternal organization to promote their craft and support one another through hardship A century later the New York Press Photographers Association NYPPA is regarded as the oldest press association in America and it still advocates for its members in an ever changing field At work or at play New York's photojournalists are hardly the nameless faceless bunch history would have us believe them to be      **Popular Photography - ND**, 1951-02      Sensationalism David B. Sachsman, 2017-07-05 David B Sachsman and David W Bulla have gathered a colourful collection of essays exploring sensationalism in nineteenth century newspaper reporting The contributors analyse the role of sensationalism and tell the story of both the rise of the penny press in the 1830s and the careers of specific editors and reporters dedicated to this particular journalistic style Divided into four sections the first titled The Many Faces of Sensationalism provides an eloquent Defense of yellow journalism analyses the place of sensational pictures and provides a detailed examination of the changes in reporting over a twenty year span The second part Mudslinging Muckraking Scandals and Yellow Journalism focuses on sensationalism and the American presidency as well as why journalistic muckraking came to fruition in the Progressive Era The third section Murder Mayhem Stunts Hoaxes and Disasters features a ground breaking discussion of the place of religion and death in nineteenth century newspapers The final section explains the connection between sensationalism and hatred This is a must read book for any historian journalist or person interested in American culture      **Popular Photography - ND**, 1946-10      **Popular Photography - ND**, 1949-09      *Photography and Doubt* Sabine T. Kriebel, Andrés Zervigón, 2016-11-25 Recent decades have seen photography's privileged relationship to the real come under question Spurred by the postmodern critique of photography in the 1980s and the rise of digital technologies soon thereafter scholars have been asking who and what built this understanding of the medium in the first place Photography and Doubt reflects on this interest in photography's referential power by discussing it in rigorously historical terms How was the understanding of photographic realism cultivated in the first place What do cases of staged and manipulated photography reveal about that realism's hold on audiences across the medium's history Have doubts about photography's testimonial power stimulated as much knowledge as its realism Edited by Sabine T Kriebel and Andrés Mario Zervigón Photography and Doubt is the first

multi authored collection specifically designed to explore these questions Its 13 original essays illustrated with 73 color images explore cases when the link between the photographic image and its referent was placed under stress and when photography was as attuned to its myth making capabilities as to its claims to authenticity Photography and Doubt will serve as a valuable resource for students and scholars in art history visual and media studies philosophy and the history of science and technology     **Popular Photography - ND** ,1951-02     Press Photography Robert B.
