Methods and Glycerin Glycerin Assembling Your Flowers Dried Flower Projects Flower Frame Flower and Herb Leaf Ideas Appendix Conclusion How to Make a Rose Potpourri Crystallized Violets Author Bio Publisher Introduction The art of floral preservation has been en vogue for millenniums all over the world in some form or the other You may have heard of dried flowers dried herbs dried seeds bark roots and even potpourri The only reason why I would want to live in the age of Cleopatra is that the ancient Egyptians knew all about a flower preservation method with which flowers kept their original color shape and looks for more than 6 months after they had been cut Cleopatra s rooms were full of these flowers Unfortunately we have lost this method of preserving flowers with the burning of the library at Alexandria However even up to 1638 Signor Ferrari living in Siena Italy described how flowers could be preserved and kept everlasting and alive Nevertheless the flowers that we dry today do not have their original color not do they have the rich feel of a thing alive What we have is something mummified because it has been dried in sand and silica gel When I was a child I asked my science teacher to give me a little bit of silica gel because I wanted to preserve all the flowers in our garden in all their colors and that nice gentleman told me that the colors changed and turn brown when the water content was removed from that particular plant I believe that was the first disappointment in my young life because I wanted all of those colors and their shapes to last forever But well that secret has gone with the ancient Egyptians Nevertheless today we are drying flowers through air drying processes and this book is going to tell you all about how you can create things of beauty from dried flowers and anything natural which you can dry and turn into a thing of beauty and a joy forever **The Country Diary Book of Flowers** Carol Petelin, 2015-03-17 One of the most appealing as well as one of the easiest ways of bringing a breath of summer in to the home is to use dried and pressed flowers to make an almost endless variety of attractive arrangements and designs Pot pourri made with colorful fragrant plants and carefully selected herbs and spices recreate evocative scents to remind us of Nature s fragrance Carol Petelin author of the successful The Creative Guide to Dried Flowers has drawn on her wealth of experience to provide the ultimate guide to drying and using flowers plants and herbs in a myriad of creative ways First she describes plants that can be most successfully grown even by those with limited garden space and explains how to best harvest and dry them The next section covers the art of dried flower arranging There is advice on working with different combinations of color and form to create arrangements in containers bouquets posies garlands and swags She tells how to gather and press flowers and herbs and offers a variety of imaginative projects for them The final section is devoted to pot pourri The author includes recipes for deliciously fragrant mixtures and describes how pot pourri scented flowers and spices can be used to make many delightfully fragranced items There is a list of sources for herbs and essential oils Lavishly illustrated throughout with Simon McBride s color photographs and decorated with some of Edith Holden s own drawings from The Country Diary of an Edwardian Lady and The Nature Notes of an Edwardian Lady The Country Diary Book of Flowers will inspire all those who wish to practice the art of dried flower arranging and to make unusual and attractive gifts
