Craig Smith, 2014-11-13 Can businesses abandon the axiom that the customer is always right when consumers start questioning the ethics of business practices Professor Craig Smith examines the theory and practice of ethical purchase behaviour a crucial mechanism for ensuring social responsibility in business He explains how and why consumers have used their purchasing power to influence corporate policies and practices He argues the case for the social control of business drawing on perspectives from marketing economics politics sociology and business policy He concludes that the market may act as an arbiter of good and bad business practice Dr Smith considers the practical aspects of ethical purchase behaviour focusing on consumer boycotts as a specific form of this consumer behaviour and explains how boycotted businesses should respond This title first published in 1990 is ideal for both business students and those who have a business of their own

NGOs in Contemporary Britain N. Crowson, M. Hilton, J. McKay, 2009-04-22 Examining the history of social movements and non state socio political action this volume shows how Non Governmental Organisations NGOs have proliferated in Britain since 1945 and how they have raised new political agendas revived associational life and arguably re politicized generations disillusioned with the politics of the ballot box **The Politics of the Rope** Neville Twitchell, 2012 The

campaign to abolish capital punishment 1955 1969 *Whitehouse* Michael Tracey, David Morrison, 1979-11-08 **Outside Lobbying** Kenneth Kollman, 2020-11-10 In *Outside Lobbying* Ken Kollman explores why and when interest group leaders in Washington seek to mobilize the public in order to influence policy decisions in Congress In the past political scientists have argued that lobbying groups make outside appeals primarily because of their own internal dynamics to recruit new members for example Kollman however grants a more important role to the need for interest group leaders to demonstrate popular support on particular issues He interviewed more than ninety interest group leaders and policy makers active on issues ranging from NAFTA to housing for the poor While he concludes that group leaders most often appeal to the public when they perceive that their stand has widespread popular support he also shows that there are many important and revealing exceptions to this pattern Kollman develops his theory of outside lobbying through a combination of rational choice modeling and statistical tests that compare public opinion data with data from his interviews about interest groups policy positions and activities The tests reveal that group leaders use outside lobbying to take advantage of pre existing public preferences not to

recruit members or to try to generate the mere appearance of grass roots support Kollman's innovative book will clarify the complex relationship among lobbying public opinion and public policy and will set a new standard for interest group research

conducted that Sir Louis has found the most important outlet for his abundant talents His creativity his powers of analysis his understanding and ability to relate to the public have again and again been called on by the government of the day and other institutions both in this country and abroad when matters of great public concern have arisen All the distinguished contributors to this Festschrift have known and esteemed Sir Louis in one or more of his multifarious capacities They and the editors dedicate this volume to this remarkable man with their admiration and warm affection
