Presumed Dead The Survival Of A Bomb Group Commander:

Presumed Dead Beirne Lay, 1945 **United States Air Force and Its Antecedents** James T. Controvich, Martin Gordon, 2004-06-24 This bibliography lists published and printed unit histories for the United States Air Force and Its Antecedents including Air Divisions Wings Groups Squadrons Aviation Engineers and the Women s Army Corps *Presumed Dead* Beirne Lay (Jr.), 1980 **The Ones Who Got Away** Bill Yenne, 2024-01-04 A remarkable collection of accounts of intrepid American aircrew shot down over enemy lines during World War II and how they got away To be an airman in the Eighth Air Force flying over the war torn skies of Europe required skill tenacity and luck Those who were shot down and evaded capture needed all of that and more if they were to make it back to friendly lines These are their stories Each is compiled from the original intelligence debrief written by the pilots or aircrew themselves Bill Yenne details how a spider web of escape routes sprang up created by the local Resistance Downed airmen were clothed given false papers and hidden so they could be smuggled back to England These efforts were then supplemented by Allied intelligence agents But the risks remained the same Capture could mean death Their accounts are sometimes funny often heartbreaking P 47 pilot Joel McPherson feigned appendicitis and was able to escape from the local German military hospital after he had his appendix removed He spent weeks operating as a getaway driver for a Maquis bank robber gang before making it into neutral Spain Bomber crewmen Fred Hartung and Norman Therrien found refuge at a French chateau but later nearly froze to death crossing the icy Pyrenees with the Gestapo on their trail The accounts of these men and others from the Mighty Eighth make this a story of defiance foolhardiness and bravery against the odds [Flying against Fate](#) S. P. MacKenzie, 2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of

buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers Flying against Fate expands our understanding of a major aspect of the psychology of war in the air and of World War II **Encyclopedia of War and American Society** Peter Karsten,2006 Publisher description

ACTOR IN AN Art Business Martin Keith Sopocy,2024-12-02 The author of this manuscript is dyslexic I suppose that means that I see things backwards Also I tend to skip steps in the chain of logic and replace them with powerful intuitive responses Through my writing I have achieved originality I have functioned with dyslexia all my life but I have learned to make an asset of it My dyslexia diagnosis is fundamental to my work as a writer My dyslexia is not something to be suppressed as my goal is to use this manuscript to encourage others with the same disability I was able to obtain a Bachelor s degree from the University of Chicago work successfully as a play reader for the National Broadcasting Company NBC and finally as an employment interviewer for the Labor Department of the State of New York Looking back on life at 80 years of age I have never had a job that I didn t like or was not able to excel in I am sharing my life long history with dyslexia as encouragement to others with similar disabilities By sharing this information my desire is to encourage others with the same or similar disabilities I have authored a manuscript that has the viewpoint that is a product of a singular mode of perception and has a distinct value in its presentation My work is no less valid due to my penchant for skipping steps in the expected chain of logic in didactic writing I have presented a valid depiction of my subject William Holden Overall this is an ambitious undertaking As an author I have endeavored consistently to create a work that is based on good scholarship and depicts the career of William Holden honestly and with admiration **Selling Air Power** Steve Call,2009 In Selling Air Power Steve Call provides the first comprehensive study of the efforts of post war air power advocates to harness popular culture in support of their agenda In the 1940s and much of the 1950s hardly a month went by without at least one blatantly pro air power article appearing in general interest magazines Public fascination with flight helped create and sustain exaggerated expectations for air power in the minds of both its official proponents and the American public Articles in the Saturday Evening Post Reader s Digest and Life trumpeted the secure future assured by American air superiority Military figures like Henry H Hap Arnold and Curtis E LeMay radio television personalities such as Arthur Godfrey cartoon figures like Steve Canyon and actors like Jimmy Stewart played key roles in the unfolding campaign Movies like Twelve O Clock High The Court Martial of Billy Mitchell and A Gathering of Eagles projected onto the public imagination vivid images confirming what was coming to be the accepted wisdom that America s safety against the Soviet threat could best be guaranteed by air power coupled with nuclear capability But as the Cold War continued and the specter of the mushroom cloud grew more prominent in American minds another more sinister interpretation began to take hold Call chronicles the shift away from the heroic patriotic posture of the years just after World War II toward the threatening even bizarre imagery of books and movies like Catch 22 On the Beach and Dr Strangelove Call s careful analysis goes beyond the public relations campaigns to probe the

intellectual climate that shaped them and gave them power *Selling Air Power* adds a critical layer of understanding to studies in military and aviation history as well as American popular culture **AAHS Journal** American Aviation Historical Society, 2009 **Monographic Series** Library of Congress, **Library of Congress Catalogs** Library of Congress, 1982 *National Union Catalog, 1981*, 1982 *National Union Catalog*, 1981 Includes entries for maps and atlases **A Subject Bibliography of the Second World War, and Aftermath** A. G. S. Enser, 1985 Bibliografi over 2 Verdenskrig **Escape, Survive - or Die** Bryn Evans, 2025-08-30 During the Second World War countless millions of men and women both in the armed forces and civilian life found themselves in life or death situations with the odds stacked against them Inevitably in the vast majority of cases their experiences and the outcomes will never come to light but when they do we can only feel inspired In this thought provoking book the author has unearthed numerous diverse accounts which make fascinating reading It covers individuals fighting in jungles deserts on and below the seas in mountains valleys and plains prison camps in battles in the sky or as fugitives hunted in enemy territory In almost every corner of the world in innumerable conditions of extreme adversity our forbears confronted an unavoidable choice escape survive or die This superb collection of stories shows us the resilience and stoicism that we need to face the ultimate challenge The most powerful force of democratic countries is the determination and self sacrifice of ordinary individuals to endure and fight for their families their country and freedom Survivors personal accounts in *Escape Survive or Die* have the power to inspire and sustain us in the never ending struggle for liberty just as the Ukrainians fighting the Russian invasion are doing so gallantly today **The Leader: Psychohistorical Essays** Charles B. Strozier, Daniel Offer, 2013-11-11 PETER GAY The syllabus of errors rehearsing the offenses of psychohistory looks devastating and seems irrefutable crimes against the English language crimes against scientific procedures crimes against common sense itself These objects are real enough but their contours and their gravity mysteriously change with the perspective of the critic From the outside psychohistorians are to academic history what psychoanalysts are to academic psychology a monolithic band of fanatics making the same errors committing the same offenses aH in the same way But seen close up psychohistorians just like psychoanalysts turn out to be a highly differentiated even a cheerful contentious lot Disciples of Hartmann jostle discoverers of Kohut imperialists claiming the whole domain of the past debate with modest isolationists orthodox Freudians who insist that psychoanalysis engrosses the arsenal of psychohistorical method find themselves beleaguered by sociological revisionists The charges that confound some psychohistorians glance off the armor of others Yet there are three potent objections aimed at the heart of psychohistory however it is conceived that the psychohistorian ignores at his peril It would be a convenient but it is a wholly unacceptable defense to dismiss them as forms of resistance The days are gone when the advocates of psychoanalysis could checkmate

reasoned criticisms by psychoanalyzing the critic To summarize these objections psychohistory is Utopian vulgar ix x

plan is simple to drive an old destroyer packed with three tons of explosives at full speed into the outer gate of the
Normandie dock The aim is to destroy the base from which the formidable battleship Tirpitz would be able to devastate the
convoys supplying Britain from the United States Operation Chariot was to be dramatically successful but at a great cost
Fewer than half the men who went on the mission returned In recognition of their valor eighty nine decorations were
awarded including five Victoria Crosses Into the Jaws of Death is the true story of how the decisive courage of a small group
