The New Politics of Crime and Punishment Roger Matthews, Jock Young, 2013-01-11 This book provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s Although crime has stabilised imprisonment rates continue to climb there is a new mood of punitiveness and crime has become a central policy issue for the government no longer just a technical matter of law enforcement At the same time the politics of crime control have taken on a pronounced gender race and age preoccupation This book will be essential reading for anybody seeking an understanding of why crime and criminal justice policy have risen to the top of the political agenda

Handbook of Policing, Ethics, and Professional Standards Allyson MacVean, Peter Spindler, Charlotte Solf, 2012 Low confidence in the police and the increasing crime rates during the 1990s led to a series of government initiatives directed at changing both the structure and management of the police service In 2006 in an attempt to define what a principled police service should resemble the Home Office Minister Hazel Blears announced the development of new Code of Professional Standards for the police service informed by the Taylor Review of 2005 While there has been a growing awareness of the role of Professional Standards within law enforcement activity to date there has been little scholarly debate on the understanding of ethics and how that is applied to practical policing This book provides a single text of different perspectives on how professional standards and ethics has been conceptualised and developed into practical policing processes for the purposes of policing not only by the police but also by the partner agencies Leading academics and practitioners consider the moral minefield of policing through examinations of undercover operatives MI5 and deaths in police custody as well as looking forward to the future considerations and practices in professional conduct It will be of interest to those working within the field of policing as well as students and academics focussed on policing and criminal justice
