Resiliency offers a comprehensive integration of art therapy and interpersonal neurobiology. It showcases the Art Therapy Relational Neuroscience (ATR N) theoretical and clinical approach and demonstrates how it can be used to help clients with autobiographical memory, reflecting and creating touch and space, meaning, making emotions, and dealing with long-term stress and trauma. The ATR N approach, first developed by Noah Hass Cohen, is comprised of six principles: Creative, Embodiment, Relational, Resonating, Expressive, Communicating, Adaptive, Responding, Transformative, Integrating, and Empathizing, and Compassion. CREATE. The chapters in this book are organized around these CREATE principles, demonstrating the dynamic interplay of brain and bodily systems during art therapy. Each chapter begins with an overview of one CREATE principle, which is then richly illustrated with therapeutic artwork and intrapersonal reflections. The subsequent discussion of the related relational neuroscience elucidates how the ATR N work is grounded in research and evidence-based theory. The last section of each chapter, which is devoted to clinical skills and applications, integrates practices and approaches across all six of the CREATE principles, demonstrating how therapeutic art making can help people decipher the functional mystery of their relational nervous system, enhance their emotive and cognitive abilities, and increase the motivation to learn novel concepts and participate in a meaningful social discourse.

The Fire And The Storm - USA Edition
Wayne Edward Clarke, 2012-01-23

Book Two of The Nexus of Kellaran Series, sequel to Blessings Of A Curse. Mark and Talia have some very unusual children and deal with the ever-accelerating pace of change on Kellaran. Mark loses his temper, and the greatest tournament ever is held for the rule of the world. Meanwhile, the demons draw ever closer.

Uses American Imperial Standard measurements. New Professionally Published Edition. Features greatly improved cover art and graphics, better maps, new appendices including a recurring character list with descriptions and first appearance notes, proofreading by six editors to eliminate every typo, and professional editing including chapter breaks.

Kellaran is a mighty world, many times larger than the Earth. Its technology is almost entirely magical, and it is home to many modern and advanced societies. The humans, unicorns, dragons, elves, dwarves, giants, gnomes, selkies, and gargoyles each have their own powerful nations. Many fantasy novels have central events that are supposed to affect the entire world, yet they are only described as affecting a part of one continent. The Nexus Of Kellaran is a story with true global scope, an epic of world-changing events all interacting in a frantic global crisis. It's a story that is cheering and emotionally uplifting. It seldom seems emotionally dark, though it sometimes deals with tragic events. The magic in the story is self-consistent and is as consistent as possible with real physics and physical constants. This novel contains adult themes and deals with issues of sexuality. It is not recommended for those under 14 years of age.

Many of the readers of this fantasy series also loved this author's science fiction series. Even many who had never read or enjoyed science fiction before were so impressed with The Nexus Of Kellaran Series that they then tried The Rational Future Series and loved it just as much. The Rational Future Series: People Of The Tiger, Hunters In The Sky, and Victory Or Extinction are available now.
