Preventing The Spread Of Nuclear Weapons Pugwash Monograph:

Preventing the Spread of Nuclear Weapons Frank Barnaby, 1969 *India's Nuclear Development Plans and Policies* Prashant Agarwal, 1996 An attempt to go into both the policy and programme aspects of India's nuclear development and factors influencing them Examines the various national choices of nuclear policies involving consideration of diverse and often mutually conflicting objectives It also analyses the growth and development of institutional infrastructure for the development of nuclear energy in India and also deals in some details nuclear technology development for peaceful purposes and economics of nuclear technology for power production in the context of energy crisis Finally it analyses the responses of the successive Indian governments to various international pressures on nuclear issues An attempt is made to perceive the potentialities of the nuclear policy with regard to economic growth and its implications for the international security system

Nuclear Authority Robert L. Brown, 2015-03-03 Once dismissed as ineffectual the International Atomic Energy Agency IAEA has in the past twenty years emerged as a powerful international organization Member states allow the IAEA to render judgment on matters vital to peace and security while nations around the globe comply with its rules and commands on proliferation safety and a range of other issues Robert L Brown details the IAEA's role in facilitating both control of nuclear weapons and the safe exploitation of nuclear power As he shows the IAEA has acquired a surprising amount of power as states for political and technological reasons turn to it to supply policy cooperation and to act as an agent for their security and safety The agency's success in gaining and holding authority rests in part on its ability to apply politically neutral expertise that produces beneficial policy outcomes But Brown also delves into the puzzle of how an agency created by states to aid cooperation has acquired power over them

Science, Technology, and Public Policy: Books, monographs, documents, and articles in journals, 1968 through 1970 Lynton Keith Caldwell, William B. DeVille, Hedvah L. Shuchman, 1968 **Nuclear Science Abstracts**, 1970 **Power in the 21st Century** Enrico Fels, Jan-Frederik Kremer, Katharina Kronenberg, 2012-04-10 The study of power is the nucleus of political science and international relations As a shift of power from traditional industrial countries to emerging powers has been perceived since the turn of the century this book aims to present innovative theoretical and empirical approaches that can increase our understanding of this transition Scholars from the fields of international relations international political economy economics and security studies not only explore current theoretical debates on power and power shifts among entities but also provide fresh insights into relevant aspects of international power in the 21st century With a particular focus on aspects of international security trade and production new methods of identifying power and its sources are presented and their potential implications and challenges are discussed *Political Science, Government & Public Policy Series* Universal Reference System, 1969

Atoms, Bytes and Genes Martin W. Bauer, 2015-02-11 Atom byte and gene are metonymies for techno scientific developments of the 20th century nuclear power computing and genetic engineering Resistance continues to challenge these

developments in public opinion This book traces historical debates over atoms bytes and genes which raised controversy with consequences and argues that public opinion is a factor of the development of modern techno science The level and scope of public controversy is an index of resistance examined here with a pain analogy which shows that just as pain impacts movement resistance impacts techno scientific mobilization it signals that something is wrong and this requires attention elaboration and a response to the challenge This analysis shows how different fields of enquiry deal with the resistance of social psychological mentalities in the face of industrial scientific and political activities inspired by projected futures **US Uranium Enrichment Capacity Expansion**, 1976 *The Treaty on the Non-proliferation of Nuclear Weapons* Mohamed Ibrahim Shaker, 1976 Strategic Arms Limitation Agreements 1972 Treaty Between the USA and the USSR on the Limitation of Anti Ballistic Missile Systems Interim Agreement Between the USA and the USSR on Certain Measures with Respect to the Limitation of Strategic Offensive Arms Protocol to the Interim Agreement between the USA and the USSR on Certain Measures with Respect to the Limitation of Strategic Offensive Arms The Peaceful Applications of Nuclear Explosions Potential Applications and Feasibility Glossary **Keeper of the Nuclear Conscience** Andrew Brown, 2012-02-09 Joseph Rotblat was the Jewish nuclear scientist whose disillusionment with nuclear weapons encouraged him to become one of the prime architects of the anti nuclear movement and resulted in his lifelong efforts to promote social responsibility in science His founding of Pugwash and his humanitarian work ultimately led to his being awarded the Nobel Peace Prize Rotblat s life from his boyhood in Warsaw under siege and occupation in World War I to an active old age that brought honours and public recognition is a compelling human story in itself What gave it significance is the single minded dedication to peaceful causes particularly through his pursuit of nuclear disarmament A key member of the British team that demonstrated the feasibility of the atomic bomb he was so appalled by the use of the bombs against the Japanese that he founded the Pugwash organization to engage scientists from East and West to prohibit weapons of mass destruction The story of his life reflects his global actions and his efforts were acknowledged when he was jointly awarded with Pugwash the Nobel Peace Prize in 1995 Set against a backdrop of profound changes to the global order World War II the Cold War and the collapse of the Soviet Union we also learn of his own personal tragedy Andrew Brown s biography sets out a life whose work poses deep and important questions about science and society This compelling account draws on full access to Rotblat s archives and presents the full scope of his life his childhood overcoming poverty and anti Semitism his efforts to become a scientist in Warsaw his work on Britain s nuclear programme his lifelong dedication to peaceful causes and his determination to uphold the ethical application of science Ultimately we discover a great man whose profound conscience shaped his life and work and the legacy he leaves today *The Nuclear Non-proliferation Treaty* Mohamed Ibrahim Shaker, 1980 This three volume set contains an account of the negotiating history of the Non Proliferation Treaty of 1968 and its interpretation and implementation since its ratification *Ibss: Political Science: 1991* British Library of Political and Economic Science, 1993
