Preventing Famine Policies And Prospects For Africa:

Preventing Famine Donald Curtis, Michael Hubbard, Andrew Shepherd, 2008-03-07 Some urgent new thinking is needed if any lessons are to be learnt from the recent disasters This book brings together the experience of a number of writers who have worked on or studied poverty alleviation programmes in Asia and Africa Famine in Africa von Braun, Joachim, Teklu, Tesfaye, Webb, Patrick, 1999-01-01 Though famine has affected many parts of the world in the twentieth century the conditions that produce famine extreme poverty armed conflict economic and political turmoil and climate shocks are now most prevalent in Africa Researchers differ on how to address this problem effectively but their arguments are often not informed by empirical analysis from a famine context Broadening current theories and models of development for conquering famine Famine in Africa grounds its findings in long term empirical research especially on the impact of famine on households and markets The authors present the results of field work and other research from numerous parts of Africa with a particular focus on Botswana Ethiopia Niger Rwanda Sudan and Zimbabwe With these data the authors explain the factors that cause famines and assess efforts to mitigate and prevent them Famine in Africa is an important resource for international development specialists students and policymakers **Starvation and India's Democracy** Dan Banik, 2007-05-07 Building on Amartya Sen's famous claim that no famine has ever occurred in a democratic country this volume examines the relationship between democracy public action and famine prevention in India *Managing Development* Kathleen Staudt, 1991-04-01 The text is illustrated with many development cases hypothetical situations examples and role playing exercises The book is well researched and well written It will be useful to students and teachers of development administration RISA Staudt's very readable text is peppered with numerous illustrative examples from throughout the world including the United States and other developed countries that bring potentially esoteric issues to life Also included are brief case studies role playing exercises and staggered assignments for individual projects that can be used by imaginative instructors to promote hands on involvement An appendix lists other useful sources for case materials and the book contains numerous valuable references to the recent literature on development Gregory D Schmidt Northern Illinois University This book offers interesting features at both the pedagogical and analytical levels The author's interdisciplinary approach as well as her macro and micro perspectives give valuable insight into the highly complex world of the management of development International Review of Administrative Sciences This is a superb text one that will be required reading by all scholars in the field of development It is particularly important for its contribution to recent scholarship and its use of new innovative approaches to development This book is a breath of fresh air in a field full of platitudes and old ideas It will improve both thinking and teaching about development management Jane L Parpart Dalhousie University Nova Scotia Canada Long overdue This text is not only gender sensitive but interdisciplinary theoretically grounded policy relevant and best of all interesting to read Sue Ellen Charlton Colorado State University While theoretically aware and non aligned to any

official agency Staudt's approach to development management is essentially practical and pragmatic. Her concern for grassroots participation is combined with a full appreciation of the significance of national and international levels of decision making and implementation and of the roles of both governmental and non governmental organizations. In a style that is both direct and clear she informs but does not prescribe about the contexts, the techniques, the institutions and the sectors in which and with which management operates, providing in the process a variety of challenging and realistic case studies. She also succeeds admirably in integrating gender as a matter of common sense into the mainstream of international development management concerns.

David Hirschmann, The American University, Washington D C

This text provides a brilliant juxtaposition of interrelated but hitherto isolated fields in the complex and controversial political economy of development. The author brings unique, timely insights and formats to bear, especially from indigenous Third World activists, authors and scholars as well as practitioners. She bridges the local and global, the political and the technical. Her book is particularly welcome at the start of the 1990s as a truly radical departure from the diversions and disappointments of orthodox development administration and structural adjustment. Hopefully public policy will not be the same once this text is distributed, digested and debated.

Timothy W Shaw, Dalhousie University, Nova Scotia, Canada

Staudt presents a multifaceted, comprehensive analysis with illustrative examples drawn from a wide range of countries, a worthwhile contribution to recent literature reporting on and assessing the record of governmentally sponsored developmental efforts with a focus on issues of management and administration. Woven throughout the text are commendable references to persistent deficiencies such as the dearth of participation by women in development activities and the frequency of a feeling of alienation and distance between institutional staff members and the people they should be serving. Another praiseworthy feature is inclusion of many teaching aids such as cases, role playing sessions and staggered assignments related to the preparation of individual projects.

outstanding source for bibliographical information about recent literature on development.

Public Administration Review

A useful book for those involved in development work, it moves beyond politics and policy making into organization for action and studies political relationships between people, their organizations and the state in development projects.

Case studies, examples and role play exercises are used to build analytic skills.

The complexities facing development managers are vast. The enormous challenges to understanding the breadth and depth of development transformation are apparent in each level of this process and demand attention.

Answering the need for a comprehensive introductory resource is *Managing Development*. This fresh perspective on development management analyzes both international and national development agencies and shows the widely differing cultural contexts in which to plan, manage and evaluate development programs.

Stressing political context and process throughout, the focus nevertheless in *Managing Development* is on bureaucratic politics and political relationships between people, their organizations and the state in development programs and projects. The chapters examine development programs in agriculture and health, particularly

reproductive health and provide hypothetical situations examples and roleplay exercises A well integrated treatment of development teaching learning and applications this volume shows that much can be learned from the analysis of both successful and unsuccessful development programs Managing Development is the essential resource for courses in development studies political science comparative politics urban studies and policy studies as well as for planners and researchers in development management

Future Survey Annual 1990 Michael Marien,1990-01-01 *Famine in Ethiopia* Patrick Webb,Joachim Von Braun,Yisehac Yohannes,1992 Concepts and research approach A record of drought and famine in Ethiopia Household responses to drought and famine Agricultural constraints conflict policy and drought Prices and markets during famine Public intervention during famine *The New Famines* Stephen Devereux,2006-11-22 The recent occurrences of famine in Ethiopia and Southern Africa have propelled this key issue back into the public arena for the first time since 1984 as once again it becomes a priority not only for lesser developed countries but also for the international community Exploring the paradox that is the persistence of famine in the contemporary world this book looks at the way the nature of famine is changing in the face of globalization and shifting geo political forces The book challenges perceived wisdom about the causes of famine and analyzes the worst cases of recent years including close analysis of food scarcity in North Korea Ethiopia Sudan and Malawi and less well known cases in Madagascar Iraq and Bosnia With fresh conceptual frameworks and analytical tools major theoretical constructs which have previously been applied to analyze famines such as the democracy ends famine argument Sen s entitlement approach and the complex political emergency framework are confronted This volume assembles an international team of contributors including Marcus Noland Alex de Waal and Dan Maxwell an impressive roster which helps make this book an important resource for those in the fields of development studies and political economics

Resettlement and Famine in Ethiopia Alula Pankhurst,1992 This book is the inside story of the Ethiopian resettlement programme carried out in the mid 1980s by the Ethiopian government amid fierce international controversy It relies on the views of the settlers themselves and is based on an in depth study carried out by an anthropologist who lived in a resettlement village Alula Pankhurst dispels current myths about resettlement while showing the importance of famine and coercion he highlights social factors in the mosaic of settlers motivation He documents the attempt to institute a collectivist model of agriculture and analyses the reasons for its failure He also examines the effects of Ethiopia s recent economic liberalisation and the impact of aid agencies The book addresses an increasing Third World phenomenon state organised relocation It is a major contribution to the literature on mass migration and on refugees By focusing on the interaction between people and the state it also reassesses a fundamental development problem the gulf between local and national priorities Accessible and thought provoking Resettlement and famine in Ethiopia will be of interest to anthropologists students of development studies and practitioners and all those concerned by famine forced migration and socialist attempts to transform societies

The Migration Experience in Africa Jonathan Baker, Tade Akin Aina, 1995
South Africa by Christian M Rogerson *The Savage Wars of Peace* A. Macfarlane, 2002-11-19 This book aims to solve the problem of how parts of mankind escaped from an apparently inevitable trap of war famine and disease in the last three hundred years Through a detailed comparative analysis of English and Japanese history it explores such matters as the destruction of war decline of famine importance of certain drinks especially tea the use of human excrement and the effects of housing clothing and bathing on human health It also shows how the English and Japanese controlled fertility through marriage and sexual patterns biological and contraceptive factors abortion and infanticide **India** Jean Drèze, Amartya Sen, 2002 This book explores the role of public action in eliminating deprivation and expanding human freedoms in India The analysis is based on a broad and integrated view of development which focuses on well being and freedom rather than the standard indicators of economic growth The authors place human agency at the centerstage and stress the complementary roles of different institutions economic social and political in enhancing effective freedoms
