Mace,1983-11 The vast literature on family problems suggests that most researchers and professionals see these problems as inevitable and their own role as one of curing rather than preventing them The family wellness movement attempts to step back a stage with the emphasis on prevention rather than cure Citing parallels with the movement towards prevention in medicine Mace draws upon the insights of noted workers in the field who discuss their own roles in developing family enrichment programmes Their readable accounts of the philosophical and practical benefits of family wellness will make this book crucial reading for family researchers social service professionals educators clergy and students      Journal of Human Services Abstracts ,1984      *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),      *Sourcebook of Family Theories and Methods* Pauline Boss,William J. Doherty,Ralph LaRossa,Walter R. Schumm,Suzanne K. Steinmetz,1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production      A Family Perspective in Church and Society ,1998 This central document in family ministry includes techniques for implementing a family perspective into all policies programs and services of the Church      **Low-Cost Approaches to Promote Physical and Mental Health** Luciano L'Abate,2007-06-06 Most physical and mental health professionals will agree that their time space and funds are generally in short supply even under optimal conditions Their participants clients

or patients too will admit to similar deficits of time and patience even with optimal motivation Overburdened mental health facilities are trying to cope with limited budgets and overworked and underpaid personnel Low Cost Approaches to Promote Physical and Mental Health addresses both sides of this shortfall by offering either self administered or easily administered verbal and non verbal interventions designed to promote positive health behaviors while requiring little or no outside funding Editor Luciano L Abate continues his long tradition of prolific innovations by identifying major changes in today s health care systems and explaining how targeted prescriptive promotion prevention strategies can enhance traditional primary secondary and tertiary interventions in key behavioral and relational areas Nutrition weight obesity control diets meal planning vitamins and minerals herbal supplements Exercise expressive movement relaxation meditation and mindfulness Writing for mental health promotion from structured protocols workbooks to less structured focused expressive and guided writing including diaries and autobiographies Sex sexuality affection intimacy and fear of intimacy Mother child bonding as well as couple and family togetherness Spirituality and forgiveness in dealing with inevitable life hurts and disappointments Friendships and support groups Plus leading edge interventions including emotional intelligence animal companionship and computer technology Reviews of each promotional approach are engaging effective and consistent with standard psychological practice for lasting results either away from or in addition to non clinical and clinical settings schools hospitals seniorcitizen centers etc L Abate and his fifty colleagues have designed a future oriented sourcebook for mental and public health professionals who want to maximize their resources and those of their participants     The Second Handbook on Parent Education Marvin J. Fine,2014-06-28 This book should enhance the reader s understanding of the contemporary scene in parenting education including effective programming important issues and future trends     New Perspectives on Domestic Violence: From Research to Intervention Luca Rollè,Shulamit Ramon,Piera Brustia,2019-06-19     Adolescents Inger P. Davis,2012-12-06 This book deals with ways of helping families cope with the difficulty of rais ing adolescents Professional social workers along with other human ser vice professionals encounter these families in numerous settings child welfare and family service agencies hospitals schools community mental health clinics residential treatment centers juvenile halls and detention centers recreational and vocational training organizations and many others While families from all walks of life may be found in these settings families who have suffered the additional stresses of poverty discrimination and the consequences of physical and mental illness are commonly overrepresented Even under the best of circumstances the adolescent years often put the strongest family structures to the test sometimes to the breaking point A recent national study of over one thousand average middle income two parent families reviewed the strengths stresses and satisfactions of the family life cycle Olson and McCubbin 1983 As many would expect families with adolescents were found to experience more stress and lower levels of family adaptability cohesion and marital and family satisfaction than any other developmental stage The families with adolescents who fared best were those with such marital resources as good communication and
