Prevention Practice in Primary Care
 Sherri Sheinfeld Gorin, 2014-03-03
 Amid the ongoing changes in how health care is administered and financed, prevention-oriented care is a critical and cost-effective method for improving population health through primary care. As the key figure in promoting patients' health and prevention of disease, the primary care provider can play a major role in patient engagement, self-management, and behavior change. *Prevention Practice in Primary Care* systematically explores state-of-the-art practical approaches to effective prevention in primary care. Guided by theory and evidence, the book reviews approaches to risk factor identification and modification for the major causes of mortality in adulthood, including cancer, stroke, and cardiovascular disease. Topical coverage in this book includes the practical applications of genomics and proteomics to personalizing prevention, transformative approaches to practice change, including the patient-centered medical home, academic detailing, and practice facilitation. Engaging self-management and behavior change using counseling tools, goal setting, assessing the stage of change, motivational interviewing, and the five A's. *Prevention Practice in Primary Care* is a vital practical guidebook for the implementation of evidence-based prevention to improve patient health. Brief, simple summaries and innovative content make it a valuable reference for busy practitioners and students alike.

Primary Prevention Practices
 Martin Bloom, 1996-03-26
 Intended for use by students in the helping professions as well as by practitioners and researchers in the field, *Primary Prevention Practices* offers step-by-step procedures on how to use more than 50 techniques of prevention practice.

Best Practices in Prevention
 Sally Hage, John L. Romano, 2012-12-20
 This second book in the *Prevention Practice Kit* provides counselors, psychologists, and other mental health workers with practical steps that need to be considered by prevention practitioners as they engage with others in developing and delivering prevention projects. A context for engaging in prevention practice is provided, including discussion of how prevention fits with traditional models of psychology, descriptions of theoretical models for doing prevention practice, and examples of empirically supported prevention interventions.
