Preventive Action for Refugee Producing Situations Luise Drücke, 1993 Originally presented as the author's thesis Ph D Universiteat Hannover 1989

The Prevention of Human Rights Violations Christiane Bourloyannis-Vrailas, Linos-Alexander Sicilianos, 2021-10-18 The persistence of human rights violations around the world clearly demonstrates the need to focus more attention on preventive action Consequently international organizations are increasingly strengthening the preventive dimension of their human rights activities Preventive mechanisms have also emerged and continue to gain ground at the national level These new realities however seem to have received little attention by the academic community Yet they raise many important issues which need to be further explored The above considerations prompted the Marangopoulos Foundation for Human Rights to mark its twentieth anniversary by organizing an International Colloquy on the topic of the prevention of human rights violations The present Volume contains contributions by the participants based on the reports they presented at the Colloquy substantially revised and updated It constitutes the first attempt at a systematic analysis of the subject of the prevention of human rights violations focusing on the following five aspects conventional regimes non conventional monitoring mechanisms international commissioners and Ombudsmen national Ombudsmen and human rights institutions and the development of a human rights culture It closes with a theoretical synthesis of the various approaches to the prevention of human rights violations focusing on the context the concept and function as well as methods and techniques of prevention

Regional Approaches to the Protection of Asylum Seekers Ademola Abass, 2016-04-08 This book presents a comprehensive assessment of regional responses to the crisis in the asylum refugee system and critically examines how different regions tackle the problem The chapters consider the fundamental challenges which undermine an effective asylum process as well as regional difficulties with the various circumstances surrounding asylum seekers With contributions on Africa Europe Latin America South Asia and the Middle East and the Pacific the collection strives to appreciate what informs each region's approach to the asylum process and asks if there are issues common to every region and if regions can learn from one another The book seeks an understanding of the existing legal regime for the protection of asylum seekers and how regional institutions such as human rights commissions and regional courts enforce and adjudicate the law The volume will be valuable to those interested in international law migration and human rights

Preventive Diplomacy at the UN Bertrand G. Ramcharan, 2008-05-07 The concept of preventive diplomacy has captivated the United Nations since it was first articulated by Secretary General Dag Hammarskjöld a half century ago Successive generations of diplomats and statesmen have invested in the idea that diplomatic efforts might be able to head off international conflicts and disasters Dramatic successes such as the Cuban Missile Crisis of 1962 contrast with dramatic failures such as the inability of UN efforts to halt the invasion of Iraq in 2003 In this careful study distinguished former UN civil servant Bertrand G Ramcharan traces the history of the practice of preventive diplomacy by

UN Secretaries General the Security Council and other UN organizations and assesses the record of preventive diplomacy and examines its prospects in an age of genocide and terrorism The Refugee in International Law Guy S.

Goodwin-Gill, Jane McAdam, 2007-03-22 Millions of people today are forced to flee their homes as a result of conflict systemic discrimination persecution and other violations of their human rights The core instruments on which they must rely to secure international protection are the 1951 Convention relating to the Status of Refugees and its 1967 Protocol now complemented by international and regional human rights treaties This book the leading text in a field where refugee law is now a subject of global importance examines key challenges to system of international protection including those arising from within the asylum process increased controls over the movements of people and the new concern with security The situation of refugees is one of the most pressing and urgent problems facing the international community and refugee law has grown in recent years to a subject of global importance In this long awaited third edition each chapter has been thoroughly revised and updated every issue old and new has received fresh analysis and complementary or human rights based protection is given special attention Features include analysis and assessment of developments in interpreting the refugee definition with particular reference to social group exclusion procedures and the impact of European Union harmonization initiatives In addition this book reviews the situation of refugee women and children the plight of Palestinian refugees the protection of internally displaced persons the role and responsibilities of the UNHCR including in the administration of camps and settlements the current status in general international law of the fundamental principles of non refoulement asylum and the right to seek asylum and the extent of protection possibilities in human rights treaties particularly the European Convention on Human Rights The International Law and Practice of Early-Warning and Preventive Diplomacy: The Emerging Global Watch B. G. Ramcharan, 2023-11-27

Despite the decrease in tension between East and West the world is still faced by many threats to international security a deteriorating environment terrorism drug trafficking humanitarian emergencies serious human rights violations and mass exoduses of populations There is a growing need to devote more attention to how these international security challenges can be dealt with piecemeal approaches and strategies no longer suffice The interaction of security issues and their global nature call for broad and integrated strategies of management and of governance States are now discovering that if they are to protect their own interests they will need to entrust to the international community through the agency of international organizations competences for the protection of the common interest and human welfare The United Nations will be called upon to operate an integrated global watch in the environmental military political economic social and humanitarian sectors a system of early warning can prevent potential political conflicts or humanitarian emergencies The present work sheds some light on the principles of international law for the conduct of early warning and preventive diplomacy and shows the urgent need for the establishment of a true Global Watch The world is now threatened by problems never experienced before in the history of the international community and partnership and cooperation will be

crucial if the international security challenges of the future are to be addressed successfully *Developing a Normative Framework for the Protection of Internally Displaced Persons* Simon Bagshaw, 2021-10-01 The author presents a systematic review of the role of treaties in international law and seeks to demonstrate that their importance is today somewhat overstated given the extent to which States and other organizations tend to resort to more flexible means of standard setting in order to promote respect for human rights As this text demonstrates the collaboration of various governmental intergovernmental and non governmental representatives can result in an instrument which may be broader in scope and more progressive in content If reinforced by suitable implementation measures it can be even more effective than a treaty in regulating States activities Published under the Transnational Publishers imprint *Global Refugee Crisis* Mark Gibney, 2010-09-16 This book documents the current global refugee crisis and examines the interrelated factors of immigration enforcement international human rights law political violence and refugee protection There are two disparate components to the global refugee crisis first there are about 46 million refugees and Internally Displaced Persons IDPs most of whom are struggling to survive in the poorest and most violent countries in the world and second our interpretation of international human rights law allows this state of affairs to worsen Refugee protection has been a longstanding policy that ostensibly protects victims of human rights violations from other countries In actuality protection is largely negated by systematic efforts by industrialized states to reduce the number of refugees arriving at the borders This book provides a comprehensive examination of this worldwide problem and rejects the idea that the majority of asylum seekers abuse the system to gain entrance into the country **Feminist Challenges in the Information Age** Christiane Floyd, Govind Kelkar, Silvie Klein-Franke, Cheris Kramarae, Cirilia Limpangog, 2013-06-29 Das englischsprachige Buch stellt Ergebnisse der Internationalen Frauenuniversität Projektbereich Information vor The book analyses the interdependence of knowledge culture and information from a feminist perspective in a world of globalisation Refugees and the Asylum Dilemma in the West Gil Loescher, 2010-11-01 **Broadening the Edges** Pirkko Kourula, 2023-12-11 This ground breaking volume brings the refugee issue out of the narrow confines of refugee law into the centre of international law and international relations It reviews the concept of the refugee and the international protection of refugees from the unconventional angle of the prospects and limitations of multilateralism in the post Cold War era This approach taking conflict prevention and resolution as its point of departure ensures that Broadening the Edges Refugee Definition and International Protection Revisited is not only novel but comprehensive and practical as well It is comprehensive because it offers a review of state practice within the United Nations and regional contexts as well as a review of the practice of the United Nations inter agency system It is practical because it is based on the personal experience of its author not on theoretical models The broadening concept of security affecting the attitudes of states towards refugees is the underlying theme of the book As a result the contemporary preoccupation with how best to provide international protection to all those in need of it is reviewed from a number of

relevant perspectives including that of peacekeeping sanctions and coordination and competence within the United Nations Pirkko Kourula worked for some twelve years in UNHCR in Asia Europe and the USA and was Deputy Director of UNHCR Liaison Office at United Nations Headquarters in New York from 1991 to 1996 She was also Director for Humanitarian Assistance and Food Aid at FINNIDA the Finnish International Development Agency Ministry of Foreign Affairs

Migrants, Refugees, and Foreign Policy Rainer Münz, Myron Weiner, 1997 Now faced with growing resistance to admitting foreigners into their countries both governments have once again been using foreign policy instruments in an effort to change the conditions in the refugees countries of origin that forced them to leave *International Migration and Global Justice* Satvinder Juss, 2016-04-22 How should international law approach the critical issue of movement of peoples in the 21st century This book presents a radical reappraisal of this controversial problem Challenging present day ideas of restrictions on freedom of movement and the international structure that controls entry to states it argues for a new blueprint for international migration policy that eliminates waste aids both developing and developed societies and brings attendant benefits to voluntary migrants and involuntary refugees alike In a world of increasing disorder it is suggested that current policy only adds to international instability and threatens the interests of a functional global community

Legitimising Rejection Sara Ellen Davies, 2008 This book examines Southeast Asia s rejection of international refugee law through extensive archival analysis and argues that this rejection was shaped by the region s response to its largest refugee crisis in the post 1945 era the Indochinese refugee crisis from 1975 1996 **Refugees, Regionalism and**

Responsibility Penelope Mathew, Tristan Harley, 2016-07-27 The ongoing refugee and migrant crisis in Europe has accelerated the need to find answers for refugee movements Refugees Regionalism and Responsibility examines regional cooperation as a potential solution Through a thorough assessment of past and present regional arrangements concerning refugees this book considers whether regionalism has resulted in protection and durable solutions for both refugees and participating states **Evaluating the Effectiveness of International Refugee Law** M. R. Alborzi, 2006 This book is an

evaluation of the international response to a major protracted humanitarian situation As such it is the first comprehensive account and assessment of the effectiveness of international law in dealing with Iraqi refugees during the regime of Saddam Hussein

Intelligence for Multilateral Decision and Action Perry L. Pickert, 1997 **The International Containment of Displaced Persons** Cecile Dubernet, 2017-07-12 This title was first published in 2001 This work examines four post Cold War interventions launched on behalf of people on the move international action in Iraq Bosnia Somalia and Rwanda Because these crises accompanied the emergence of the concept of Internationally Displaced Persons IDPs in international relations they have shaped the understandings of forced displacement issues such as ethnic cleansing need and humanitarian action The author looks at attitudes towards IDPs concluding that UN backed interventions regarding displaced civilians were primarily about deterring sometimes preventing them from escaping places of conflict Protection in this

context became a device by which international protagonists sought to contain people on the move within the confines of their collapsed states As a result levels of safety effectively granted by the international community depended less on the vulnerability of populations than on Western fears of mass border crossings

Beyond Charity: International Cooperation and the Global Refugee Crisis Gil Loescher, 1996-08-08 With more than 18 million refugees worldwide the refugee problem has fostered an intense debate regarding what political changes are necessary in the international system to provide effective solutions in the 1990s and beyond In the past refugees have been perceived largely as a problem of international charity but as the end of the Cold War triggers new refugee movements across the globe governments are being forced to develop a more systematic approach to the refugee problem Beyond Charity provides the first extensive overview of the world refugee crisis today asserting that refugees raise not only humanitarian concerns but also issues of international peace and security Gil Loescher argues persuasively that a central challenge in the post Cold War era is to develop a comprehensive refugee policy that preserves the right of asylum while promoting greater political and diplomatic efforts to address the causes of flight He presents the contemporary crisis in a historical framework and explores the changing role of the Office of the United Nations High Commissioner for Refugees Loescher suggests short term and long term reforms that address both the current refugee crisis and its underlying causes The book also details the ways governmental structures and international organizations could be strengthened to assume more effective assistance protection and political mediation functions Beyond Charity helps frame the debate on the global refugee crisis and offers directions for more effective approaches to refugee problems at present and in the future
