Lessons from Privilege Arthur G. Powell, 1996 In this book a renowned historian of education searches out the lessons that private schooling might offer public education as cries for school reform grow louder Arthur Powell uses the experience of private education to put the whole schooling enterprise in fresh perspective He shows how the sense of schools as special communities can help instill passion and commitment in teachers administrators and students alike and how passion and commitment are absolutely necessary for educational success The power of economic resources invested fully in schools also becomes pointedly clear here as does the value of incentives for teachers and students **Quickened Spirit** Allen

Hackett, 1957 **Designing Coherent Education Policy** Susan Fuhrman, 1993-04-30 Much of the failure of recent policy efforts to improve education can be attributed to inconsistency lack of unified purpose and an emphasis on low level skills This book offers the first in depth look at systemic school reform and shows educators at the district state and federal levels how to coordinate the various elements of policy infrastructure around a new set of ambitious common goals for what students should know and be able to do Sponsored by the Consortium for Policy Research in Education **Modern**
