Gee's Bend William Arnett, 2006. In 2002, Gee's Bend burst into international prominence through the success of Tinwood's Quilts of Gee's Bend exhibition and book, which revealed an important and previously invisible art tradition from the African American South. Critics and popular audiences alike marveled at these quilts that combined the best of contemporary design with a deeply rooted ethnic heritage and compelling human stories about the women of Gee's Bend. The Architecture of the Quilt is a major book and museum exhibition that will premiere at the Museum of Fine Arts, Houston (MFAH) in June 2006, before traveling to seven American museums through 2008. The book's 330 color illustrations and insightful text bring home the exciting experience to readers while displaying all the cultural heritage and craftsmanship that have gone into these remarkable quilts.

The Expressive Lives of Elders Jon Kay, 2018-09-20. Essays examining the power of traditional arts and folklore in the lives of the elderly in the United States. Can traditional arts improve an older adult's quality of life? Are arts interventions more effective when they align with an elder's cultural identity? In *The Expressive Lives of Elders*, Jon Kay and contributors from a diverse range of public institutions argue that such mediations work best when they are culturally, socially, and personally relevant to the participants. From quilting and canning to weaving and woodworking, this book explores the role of traditional arts and folklore in the lives of older adults in the United States, highlighting the critical importance of ethnographic studies of creative aging for both understanding the expressive lives of elders and for designing effective arts therapies and programs. Each case study in this volume demonstrates how folklore and traditional practices help elders maintain their health and wellness, providing a road map for initiatives to improve the lives and well-being of America's aging population.
