Quintus Sertorius And The Legacy Of Sulla:

Quintus Sertorius and the Legacy of Sulla Philip O. Spann, 1987 **Contested Pasts** Jennifer Finn, 2022-04-18 Taking as a key turning point the self-fashioning of the first Roman emperor Augustus author Jennifer Finn revisits the idea of universal history in Polybius Justin and Diodorus combined with the Stoic philosophy of determinism present in authors like Plutarch and Arrian Finn endeavors to determine the ways in which Roman authors manipulated narratives about Alexander's campaigns and even other significant events in Mediterranean history to artificially construct a past to which the Romans could attach themselves as a natural teleological culmination In doing so *Contested Pasts* uses five case studies to reexamine aspects of Alexander's campaigns that have received much attention in modern scholarship providing new interpretations of issues such as his connections to the Trojan and Persian wars the Great Weddings at Susa the battles of Thermopylae in 480 BCE and 191 BCE and Alexander's conflict at the Persian Gates the context of his Last Plans the role of his memory in imagining the Roman Civil Wars and his fictitious visit to the city of Jerusalem While Finn demonstrates throughout the book that the influence for many of these narratives likely originated in the reign of Alexander or his Successors nevertheless these retroactive authorial manipulations force us to confront the fact that we may have an even more opaque understanding of Alexander than has previously been acknowledged Through the application of a mnemohistorical approach the book seeks to provide a new understanding of the ways in which the Romans and people in the purview of the Romans conceptualized their own world with reference to Alexander the Great **The Black Abolitionist Papers** C. Peter Ripley, Roy E.

Finkenbine, 2000-11-09 This five volume documentary collection culled from an international archival search that turned up over 14 000 letters speeches pamphlets essays and newspaper editorials reveals how black abolitionists represented the core of the antislavery movement While the first two volumes consider black abolitionists in the British Isles and Canada the home of some 60 000 black Americans on the eve of the Civil War the remaining volumes examine the activities and opinions of black abolitionists in the United States from 1830 until the end of the Civil War In particular these volumes focus on their reactions to African colonization and the idea of gradual emancipation the Fugitive Slave Law and the promise brought by emancipation during the war **The World of Juba II and Kleopatra Selene** Duane W Roller, 2004-02-24 First Published in 2004 Routledge is an imprint of Taylor Francis an informal company

Urbanisation in Roman Spain and Portugal Pieter Houten, 2021-03-03 The principal aims of *Urbanisation in Roman Spain and Portugal* *Civitates Hispaniae* in the Early Empire are to provide a comprehensive reconstruction of the urban systems of the Iberian Peninsula during the Early Empire and to explain why these systems looked the way they did While some chapters focus on settlements that were cities or towns from a juridical point of view the implications of using a purely functional definition of towns are also explored Key themes include continuities and discontinuities between pre Roman and Roman settlement patterns the geographical distribution of cities belonging to various size brackets economic relationships between self governing cities and their territories and the

role of cities as nodes in road systems and maritime networks In addition it is argued that a considerable number of self governing communities in Roman Spain and Portugal were poly centric rather than based on a single urban centre The volume will be of interest to anyone working on Roman urbanism as well as those interested in the Iberian Peninsula in the Roman period *Conflict in Ancient Greece and Rome* Sara Elise Phang,Iain Spence Ph.D.,Douglas Kelly Ph.D.,Peter Londey Ph.D.,2016-06-27 The complex role warfare played in ancient Greek and Roman civilizations is examined through coverage of key wars and battles important leaders armies organizations and weapons and other noteworthy aspects of conflict Conflict in Ancient Greece and Rome The Definitive Political Social and Military Encyclopedia is an outstandingly comprehensive reference work on its subject Covering wars battles places individuals and themes this thoroughly cross referenced three volume set provides essential support to any student or general reader investigating ancient Greek history and conflicts as well as the social and political institutions of the Roman Republic and Empire The set covers ancient Greek history from archaic times to the Roman conquest and ancient Roman history from early Rome to the fall of the Western Roman Empire in 476 CE It features a general foreword prefaces to both sections on Greek history and Roman history and maps and chronologies of events that precede each entry section Each section contains alphabetically ordered articles including ones addressing topics not traditionally considered part of military history such as noncombatants and war and gender followed by cross references to related articles and suggested further reading Also included are glossaries of Greek and Latin terms topically organized bibliographies and selected primary documents in translation *The Cimbrian War 113-101 BC* Nic Fields,2023-08-17 A gripping illustrated narrative of the Cimbrian or Cimbric War in which the armies of the Roman Republic finally defeated the Germanic tribes of the Cimbri Teutons Ambrons and Tigurini Rome s victory in the Cimbrian War was born of a number of huge and devastating defeats at the hands of the Germanic tribes chiefly the Cimbri and Teutones who had migrated en masse southwards in the late 2nd century BC These included the defeat in 113 BC of the consul Cnaeus Papirius Carbo at Noreia the smashing of Marcus Iunius Silanus army near Burdigala Bourdeaux in 109 BC and the humiliating destruction of two consular armies at Arausio Orange four years later This work explores how in the autumn of 105 BC Caius Marius managed to contain the Germanic threat in the north before crushing it in two successful battles at Aquae Sextiae Aix en Provence in Gallia Transalpina in 102 BC and at Vercellae Vercelli in Gallia Cisalpina in 101 BC Packed with stunning illustrations covering the major clashes of this epic and drawn out war of the late Republic this work brings to life for the first time Rome s vital quashing of the Germanic threat to its very existence It also documents the rise of Marius one of Rome s most important martial figures who was highly significant in the transformation of its armed forces **Rome and the Making of a World State, 150 BCE-20 CE** Josiah Osgood,2018-04-12 In the century following 150 BCE the Romans developed a coherent vision of empire and a more systematic provincial administration The city of Rome itself became a cultural and intellectual center that eclipsed other Mediterranean cities while ideas and practices of citizenship

underwent radical change In this book Josiah Osgood offers a new survey of this most vivid period of Roman history the Late Republic While many discussions focus on politics in the city of Rome itself his account examines developments throughout the Mediterranean and ties political events more firmly to the growth of overseas empire The volume includes a broad overview of economic and cultural developments By extending the story well beyond the conventional stopping date of Julius Caesar s assassination in 44 BCE Osgood ultimately moves away from the old paradigm of the fall of the Republic The Romans of the Late Republic emerge less as the disreputable gangsters of popular imagination and more as inspired innovators

The Fragments of the Roman Historians Tim Cornell,Edward Bispham,John Rich,Christopher John Smith,2013 This title is a definitive and comprehensive edition of the fragmentary texts of all the Roman historians whose works are lost Historical writing was an important part of the literary culture of ancient Rome and its best known exponents including Sallust Livy Tacitus and Suetonius provide much of our knowledge of Roman history However these authors constitute only a small minority of the Romans who wrote historical works from around 200 BC to AD 250 In this period we know of more than 100 writers of history biography and memoirs whose works no longer survive for us to read They include well known figures such as Cato the Elder Sulla Cicero and the emperors Augustus Tiberius Claudius Hadrian and Septimius Severus Page 4 of cover

Crassus Peter Stothard,2022-11-15 The story of Rome s richest man who died a humiliating desert death in search of military glory Marcus Licinius Crassus 115 53 BCE was a modern man in an ancient world a pioneer disrupter of finance and politics and the richest man of the last years of the Roman republic Without his catastrophic ambition this trailblazing tycoon might have quietly entered history as Rome s first modern political financier Instead Crassus and his son led an army on an unprovoked campaign against Parthia into what are now the borderlands of Turkey Syria and Iraq losing a battle at Carrhae which scarred Roman minds for generations After Crassus was killed historians told many stories of his demise Some said that his open mouth shriveled by desert air had been filled with molten

gold as testament to his lifetime of greed His story poses both immediate and lasting questions about the intertwining of money ambition and power

The Army in the Roman Revolution Arthur Keaveney,2007-05-16 This book studies the way the Roman army changed in the last eighty years of the Republic so that an army of imperial conquest became transformed into a set of rival personal armies under the control of the triumvirs

Citizens of Discord Brian Breed,Cynthia Damon,Andreola Rossi,2010-08-26 Civil wars more than other wars sear themselves into the memory of societies that suffer them This is particularly true at Rome where in a period of 150 years the Romans fought four epochal wars against themselves The present volume brings together exciting new perspectives on the subject by an international group of distinguished contributors The basis of the investigation is broad encompassing literary texts documentary texts and material culture spanning the Greek and Roman worlds Attention is devoted not only to Rome s four major conflicts from the period between the 80s BC and AD 69 but the frame extends to engage conflicts both previous and much later as well as post classical constructions of the theme of civil war at Rome Divided into four sections the first Beginnings Endings addresses the basic questions of when civil war began in Rome and when it ended Cycles is concerned with civil war as a recurrent phenomenon without end Aftermath focuses on attempts to put civil war in the past or conversely to claim the legacy of past civil wars for better or worse Finally the section Afterlife provides views of Rome s civil wars from more distant perspectives from those found in Augustan lyric and elegy to those in much later post classical literary responses As a whole the collection sheds new light on the ways in which the Roman civil wars were perceived experienced and represented across a variety of media and historical periods

The Quaestorship in the Roman Republic Francisco Pina Polo,Alejandro Díaz Fernández,2019-09-23 The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large scale study of the office As a consequence a comprehensive study of the quaestorship has long been a desideratum this book aims to fill this gap in the scholarship The book contains a study of the quaestorship throughout the Roman Republic both in Italy particularly at Rome and in the overseas provinces It includes a history of the office an analysis of its role within the cursus honorum and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary epigraphic and numismatic evidence The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the senate Despite their youth quaestors were endowed with functions of great significance at Rome and abroad such as the control and supervision of Rome s finances As the book shows the quaestorship was a prominent and essential part of the Roman administration

Intelligence Activities in Ancient Rome Rose Mary Sheldon,2004-12-16 Professor Sheldon uses the modern concept of the intelligence cycle to trace intelligence activities in Rome whether they were done by private citizens the government or the military Examining a broad range of activities the book looks at the many types of espionage tradecraft that have left their traces in

the ancient sources intelligence and counterintelligence gathering covert action clandestine operations the use of codes and ciphers Dispelling the myth that such activities are a modern invention Professor Sheldon explores how these ancient spy stories have modern echoes as well What is the role of an intelligence service in a free republic When do the security needs of the state outweigh the rights of the citizen If we cannot trust our own security services how safe can we be Although protected by the Praetorian Guard seventy five percent of Roman emperors died by assassination or under attack by pretenders to his throne Who was guarding the guardians For students of Rome and modern social studies too this will provide a fascinating read *Lucullus* Lee Fratantuono, 2017-09-30 The military achievements of Lucius Licinius Lucullus 118 57 56 B C have been the subject of admiration and great respect throughout the history of the study of warfare Yet there have been few studies dedicated to a comprehensive examination of exactly how Lucullus conquered the Roman East and made it a more or less cohesive part of the empire Lee Frantantuono considers every aspect of Lucullus life starting with the training and education of a future Roman officer but the greatest emphasis is on his military strategy and tactics during the Third Mithridatic War and his military adventures in Armenia His most famous achievement was his victory against immense odds at the land battle of Tigranocerta We are also reminded that he one of the most formidable naval strategists of the Roman Republic Lucullus complicated relationship with Sulla and Crassus is explored and the study concludes with the retirement of the man Pliny the Elder memorably referred to as Xerxes in a Toga a patron of the arts and master of a life of horticulture and reflection **Divination, Prediction and the End of the Roman Republic** Federico

Santangelo, 2013-05-09 The first comprehensive assessment of the intersection between Roman politics culture and divination in the late Republic in the context of complex religious political and intellectual developments The book draws on a wide range of literary iconographic and archaeological evidence **Livy: the Fragments and Periochae Volume I** D. S. antiquity approximately A D 650 This collection of material provides the fullest account ever developed of the reputation of Livy in antiquity and the way he was used and read by later writers Through it Levene explores an important but under studied aspect of the intellectual life of the Roman world This first volume contains the fragments citations and testimonia which together comprise every reference to Livy in ancient sources It offers a completely reedited text of these along with a full literary textual and historical commentary The volumes s introduction provides a comprehensive synoptic study of the contexts in which Livy was read and quoted
