Hollandsworth, Jr.,2008-11 In the years after Reconstruction racial tension soared as many white southerners worried about how to deal with the millions of free African Americans among them an issue they termed the negro problem In an attempt to maintain the status quo white supremacists resurrected old proslavery arguments and sought new justification in scientific theories purporting to prove people of African descent inherently inferior to whites In Portrait of a Scientific Racist James G Hollandsworth Jr reveals how the conjectures of one of the country s most prominent racial theorists Alfred Holt Stone helped justify a repressive racial order that relegated African Americans to the margins of southern society in the early 1900s In this revealing biography Hollandsworth examines the thoughts and motives of this renowned man focusing primarily on Stone s most intensive period of theorizing from 1900 to 1910 A committed and vocal white supremacist Stone believed black southern workers were inherently lazy a trait he attributed to their African genes and heritage He asserted that slavery helped improve the black race but that opportunities still existed during Reconstruction to mold the freedmen into efficient workers Stone s central yet unspoken goal was to devise a way to maintain an obedient productive labor force willing to work for low wages Writing from both Washington D C and his cotton plantation in the Mississippi Delta Stone published numerous essays and collected more than 3000 articles and pamphlets on the American Race Problem including those written by bitter racists and enthusiastic race boosters Though Stone lacked the credentials typically associated with scholarly experts of the time he became an authority on the subject of black Americans in part because of his close friendship with fellow scientific racist and statistician Walter F Willcox An early member of the American Economic Association and other academic groups Stone went on to serve as head scholar of a division for race studies within the Carnegie Foundation Interestingly Stone recruited W E B Du Bois and Booker T Washington to collaborate with him on a major study for the Foundation continuing his tendency to incorporate all perspectives into his study of race Hollandsworth uses Stone s extensive correspondence with Willcox Du Bois and Washington as well as his personal writings both published and unpublished to reveal the secrets of this misguided yet fascinating figure *Ida B.
