Race And Ethnicity In Chicago Politics A Reexamination Of Pluralist Theory:

Race and Ethnicity in Chicago Politics Dianne Marie Pinderhughes, 1987 Black and Multiracial Politics in America Yvette Marie Alex-Assensoh, Lawrence J. Hanks, 2000-11-01 America is currently in the midst of a major racial and ethnic demographic shift By the twenty first century the population of Hispanics and Asians will increase significantly while the black population is expected to remain relatively stable Non Hispanic Whites will decrease to just over half of the nation s population How will the changing ethnic and racial composition of American society affect the long struggle for black political power and inclusion To what extent will these racial and ethnic shifts affect the already tenuous nature of racial politics in American society Using the literature on black politics as an analytical springboard Black and Multiracial Politics in America brings together a broad demography of scholars from various racial and ethnic groups to assess how urban political institutions political coalitions group identity media portrayal of minorities racial consciousness support for affirmative action policy political behavior partisanship and other crucial issues are impacted by America s multiracial landscape Contributors include Dianne Pinderhughes M Margaret Conway Pei te Lein Susan Howell Mack Jones Brigitte L Nacos Natasha Hritzuk Marion Orr Michael Jones Correa A B Assensoh Joseph McCormick Sekou Franklin Jose Cruz Erroll Henderson Mamie Locke Reuel Rogers James Endersby Charles Menifield and Lawrence J Hanks Racial and Ethnic Politics in American Suburbs Lorrie Frasure-Yokley, 2015-12-11 Racial and Ethnic Politics in American Suburbs examines racial and ethnic politics outside traditional urban contexts and questions the standard theories we use to understand mobility and government responses to rapid demographic change and political demands This study moves beyond traditional scholarship in urban politics departing from the persistent treatment of racial dynamics in terms of a simple black white binary Combining an interdisciplinary multi method and multiracial approach with a well integrated analysis of multiple forms of data including focus groups in depth interviews and census data Racial and Ethnic Politics in American Suburbs explains how redistributive policies and programs are developed and implemented at the local level to assist immigrants racial ethnic minorities and low income groups something that given earlier knowledge and theorizing should rarely happen Lorrie Frasure Yokley relies on the framework of suburban institutional interdependency SII which presents a new way of thinking systematically about local politics within the context of suburban political institutions in the United States today

The Politics of Black Empowerment James Jennings, 2000-01-08 The Politics of Black Empowerment uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics While traditional Black political activists seek access or political incorporation

another group aims for power sharing The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks but the progressive constituency focuses on fundamentally changing the whole economic and political pie Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country The Politics of Black Empowerment describes the characteristics of Black empowerment activism in America

John F. Kennedy, Barack Obama, and the Politics of Ethnic Incorporation and Avoidance

Robert C. Smith, 2013-02-19 Political analysts and journalists often draw analogies between John F Kennedy the first Catholic Irish president and Barack Obama the first African American president Their election to the nation's highest office was historic but for reasons not fully appreciated In John F Kennedy Barack Obama and the Politics of Ethnic Incorporation and Avoidance Robert C Smith provides a fascinating comparison of the challenges both men faced in their bid for the presidency while at the same time providing comparative histories of the Catholic Irish and African American struggles to overcome racial and religious subordination in America Kennedy's Catholicism was an explicit issue in the 1960 election and once elected he was extremely careful to avoid appearing either too Irish or too Catholic While Obama's race was not an explicit issue in the 2008 election he was just as careful to avoid appearing too black Paradoxically religion thanks to rumors and lies about whether Obama was a Muslim became a substitute for race allowing Republican strategists to otherize Obama by raising the issue of religion in the context of national security and terrorism

Closed for Democracy Sally A.

Nuamah, 2022-12-22 This book analyzes how public school closures and the costly battles waged to stop them undermine the citizenship of Black Americans

Something Within Fredrick C.

Harris, 1999-08-26 One of the first book length studies in decades solely devoted to religion and African American political activism *Something Within* explores how Afro Christianity encourages political activism among African Americans Combining

ethnography history contextual analysis and survey research this book illustrates the participatory effects of Afro Christianity by examining its institutional psychological and cultural influences Moving beyond the current debates on the subject Fredrick C Harris advances a new theory of religion as a political resource for a civic culture in opposition **Liberalism, Black Power, and the Making of American Politics, 1965-1980** Devin Fergus, 2009 In this pioneering exploration of the interplay between liberalism and black nationalism Devin Fergus returns to the tumultuous era of Johnson Nixon Carter and Helms and challenges us to see familiar political developments through a new lens What if the liberal coalition instead of being torn apart by the demands of Black Power actually engaged in a productive relationship with radical upstarts absorbing black separatists into the political mainstream and keeping them from a more violent path What if the New Right arose not only in response to Great Society Democrats but as significantly in reaction to Republican moderates who sought compromise with black nationalists through conduits like the Blacks for Nixon movement Focusing especially on North Carolina a progressive southern state and a national center of Black Power activism Fergus reveals how liberal engagement helped to bring a radical civic ideology back from the brink of political violence and social nihilism He covers Malcolm X Liberation University and Soul City two largely forgotten federally funded black nationalist experiments the political scene in Winston Salem where Black Panthers were elected to office in surprising numbers and the liberal nationalist coalition that formed in 1974 to defend Joan Little a black prisoner who killed a guard she accused of raping her Throughout Fergus charts new territory in the study of America s recent past taking up largely unexplored topics such as the expanding political role of institutions like the ACLU and the Ford Foundation and the emergence of sexual violence as a political issue He also urges American historians to think globally by drawing comparisons between black nationalism in the United States and other separatist movements around the world By 1980 Fergus writes black radicals and their offspring were more likely to petition Congress than blow it up That liberals engaged black radicalism at all however was enough for New Right insurgents to paint liberalism as an effete anti American ideology a sentiment that has had lasting appeal to significant numbers of voters

The Depression Comes to the South Side Christopher Robert Reed, 2021-12-22 Incorporate s microhistories and multiple biographies into a broader understanding of a community as complex and iconic as black Chicago Journal of American Studies In the 1920s the South Side of Chicago was looked on as the new Black Metropolis but by the turn of the decade that vision was already in decline a victim of the Depression In this timely book Christopher Robert Reed explores early Depression era politics on the city s South Side The economic crisis caused diverse responses from groups in the black community distinguished by their political ideologies and stated goals Some favored government intervention others reform of social services Some found expression in mass street demonstrations militant advocacy of expanded civil rights or revolutionary calls for a complete overhaul of the capitalist economic system Reed examines the complex interactions among these various groups as they played out within the community as it sought to find common ground to address the economic

stresses that threatened to tear the Black Metropolis apart **The Oxford Handbook of African American Citizenship, 1865-Present** Henry Louis Gates Jr., Claude Steele, Lawrence D. Bobo, Michael Dawson, Gerald Jaynes, Lisa Crooms-Robinson, Linda Darling-Hammond, 2011-03-11 When newly liberated African American slaves attempted to enter the marketplace and exercise their rights as citizens of the United States in 1865 few if any Americans expected that a century and a half later the class divide between black and white Americans would be as wide as it is today The United States has faced several potential key turning points in the status of African Americans over the course of its history yet at each of these points the prevailing understanding of African Americans and their place in the economic and political fabric of the country was at best contested and resolved on the side of second class citizenship The Oxford Handbook of African American Citizenship 1865 Present seeks to answer the question of what the United States would look like today if at the end of the Civil War freed slaves had been granted full political social and economic rights It does so by tracing the historical evolution of African American experiences from the dawn of Reconstruction onward through the perspectives of sociology political science law economics education and psychology As a whole the book is the first systematic study of the gap between promise and performance of African Americans since 1865 Over the course of thirty four chapters written by some of the most eminent scholars of African American studies and across every major social discipline this handbook presents a full and powerful portrait of the particular hurdles faced by African Americans and the distinctive contributions African Americans have made to the development of U S institutions and culture As such it tracks where African Americans have been in order to better illuminate the path ahead Multiethnic Moments Susan E. Clarke, Rodney Hero, 2006 Is anyone listening to minority voices in reforming American schools **Newcomers, Outsiders, and Insiders** Rodney E. Hero, Sr., Ronald Schmidt, Sr., Andrew L. Aoki, Yvette M Alex-Assensoh, 2009-12-21 How has the arrival of new racial and ethnic groups affected the political gains of long standing minorities in the United States **The Oxford Handbook of Political Institutions** R. A. W. Rhodes, Sarah A. Binder, Bert A. Rockman, 2008-06-12 This one volume distillation provides a comprehensive overview of the main branches of contemporary political science It will serve as the reference book for political scientists and those following their work for years to come **Racism in the United States** Meyer Weinberg, 1990-05-21 This volume represents the most comprehensive book length bibliography on the subject of racism available in the United States Compiler Meyer Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles books congressional hearings and reports theses and dissertations research reports and investigative journalism Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color Weinberg includes references dealing with sexism antisemitism economic exploitation and similar forms of dehumanization References are grouped under a series of subject headings that

include Civil Rights Desegregation Housing Socialism and Racism Unemployment and Violence against Minorities Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced Also included is one section of carefully selected references on racism in countries other than the United States Unlike the remainder of the book this section is not comprehensive but rather provides an opportunity to view racism comparatively The volume concludes with an author index This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism sociology and black history **Uneven Roads** Todd Shaw, Louis

DeSipio, Dianne Pinderhughes, Lorrie Frasure, Toni-Michelle C. Travis, 2024-01-12 Uneven Roads helps students grasp how when and why race and ethnicity matter in U S politics Using the metaphor of a road with twists turns and dead ends this incisive text takes students on a journey to understanding political racialization and the roots of modern interpretations of race and ethnicity The book s structure and narrative are designed to encourage comparison and reflection Students critically analyze the history and context of U S racial and ethnic politics to build the skills needed to draw their own conclusions In the Third Edition of this groundbreaking text authors Shaw DeSipio Pinderhughes Frasure and Travis bring the historical narrative to life by addressing the most contemporary debates and challenges affecting U S racial and ethnic politics Students will explore important issues regarding voting rights political representation education and criminal justice policies and the immigrant experience **Beyond the Boundaries** Georgia A. Persons, 2017-09-29 In the past African

American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African

American candidates **Contested Transformation** Carol Hardy-Fanta, Pei-te Lien, Dianne Pinderhughes, Christine Marie Sierra, 2016-10-25 Contested Transformation constitutes the first comprehensive study of racial and ethnic minorities holding elective office in the United States at the beginning of the twenty first century Building on data from the Gender and Multicultural Leadership GMCL National Database and Survey it provides a baseline portrait of Black Latino Asian American and American Indian elected officials the women and men holding public office at national state and local levels of government Analysis reveals commonalities and differences across race and gender groups on their backgrounds paths to public office leadership roles and policy positions Challenging mainstream political science theories in their applicability to elected officials of color the book offers new understandings of the experiences of those holding public office today Gains in political leadership and influence by people of color are transforming the American political landscape but they have occurred within a contested political context one where struggles for racial and gender equality continue **Encyclopedia of African American Politics** Robert C. Smith, 2003 An A to Z presentation of over 400 articles on African American politics and notable people from the abolitionist movement to Whitney Young What Has This Got to Do with the Liberation of Black People? Robert C. Smith, Cedric Johnson, Robert G. Newby, 2014-03-01 A compelling intellectual and political study of a leading post civil rights era African American political theorist and strategist It is rare that a major leader of a protest movement also becomes an accomplished scholar who provides valuable insight into the movement in which he participated Yet this was precisely what Ronald W Walters 1938 2010 did Born in Wichita Kansas the young Walters led the first modern sit in protest during the summer of 1958 nearly two years before the more famous Greensboro sit in of 1960 After receiving a doctorate from American University Walters embarked on an extraordinary career of scholarship and activism Shaped by the civil rights and black power movements and the African and Caribbean liberation struggles Walters was a pioneer in the development of black studies and black science in political science A public intellectual as well as advisor and strategist to African American leaders Walters founded numerous organizations that shaped the post civil rights era A must read for scholars students pundits political leaders and activists What Has This Got to Do with the Liberation of Black People is a major contribution to the historiography of the civil rights and black power movements African American intellectual history political science and black studies
