**Contemporary Controversies and the American Racial Divide** Robert C. Smith, Richard Seltzer, 2000-05-30

Contemporary Controversies and the American Racial Divide is a detailed study of some of the most racially divisive issues America has encountered in the past decade. Smith and Seltzer employ more than forty surveys to explore race based public opinion differences on high profile controversies including the Rodney King and O J Simpson cases, the arrest, trial, jailing, and subsequent reelection of Washington D C Mayor Marion Barry, the Million Man March, and Louis Farrakhan, and the Clarence Thomas Anita Hill controversy. The authors also look at race based opinion differences on the inner city crack cocaine epidemic and the spread of AIDS among the American populace. The divisions in opinion between blacks and whites on these controversies are explained in terms of the distinctive historical and cultural experiences of the different races and the gaps, gulfs, and chasms in their contemporary social and economic conditions. While also noting significant commonalities in opinion across the color line, the book focuses on racial differences and their sources, and in a concluding chapter advances suggestions as to how the nation might overcome its racial divisions. This innovative study is a unique, rich, contextualized, dynamic analysis of race opinion, unlike anything else in literature.

Controversial Issues in Health Care Policy Jennie J. Kronenfeld, 1993. In the last 35 years, health care in the US has grown into a multi billion dollar industry. Americans view access to health care as important and take pride in their excellent medical care technology. However, there is growing consensus that the US health care system is in crisis, but there is far less agreement on what to do about it. This book examines the major controversies confronting American society: health care professionals and policy makers, access to health care, costs and financing health care, and the quality of health care. Kronenfeld discusses whether the system can solve these problems or whether there is a health care system at all.
