Race And Family:

Race and Family Roberta L. Coles, 2016 The second edition of *Race and Family* maintains the book's distinctive feature its structural lens while featuring new material throughout *Race and Family* focuses on demographic economic and historical legal factors that impact all families though often disparately The text also includes separate chapters focusing on the histories and diversity within each major racial ethnic group

Unequal Childhoods Annette Lareau, 2003-09-11 Class does make a difference in the lives and futures of American children Drawing on in depth observations of black and white middle class working class and poor families *Unequal Childhoods* explores this fact offering a picture of childhood today Here are the frenetic families managing their children's hectic schedules of leisure activities and here are families with plenty of time but little economic security Lareau shows how middle class parents whether black or white engage in a process of concerted cultivation designed to draw out children's talents and skills while working class and poor families rely on the accomplishment of natural growth in which a child's development unfolds spontaneously as long as basic comfort food and shelter are provided Each of these approaches to childrearing brings its own benefits and its own drawbacks In identifying and analyzing differences between the two Lareau demonstrates the power and limits of social class in shaping the lives of America's children The first edition of *Unequal Childhoods* was an instant classic portraying in riveting detail the unexpected ways in which social class influences parenting in white and African American families A decade later Annette Lareau has revisited the same families and interviewed the original subjects to examine the impact of social class in the transition to adulthood

No More Kin Anne R. Roschelle, 1997-04-17 Black and Latino families are in fact highly family oriented and want to be involved in exchange networks but because they are economically disenfranchised they are prevented from participation The vitriolic debate on welfare reform currently sweeping the nation assumes that if institutional mechanisms of social support are eliminated impoverished families will simply rely on an extensive web of kinship networks for their survival The political discourse surrounding poverty and welfare reform has an increasingly racial undertone Implementation of social policy that presupposes the availability of family safety nets in minority communities could have disastrous consequences for many without extended kin networks Many scholars and political analysts assume that thriving kin and non kin social support networks continue to characterize minority family life Policy recommendations based on these underlying assumptions may lead to the implementation of harmful social policy *No More Kin* examines extended kinship networks among African American Chicano Puerto Rican and non Hispanic white families in contemporary America and seeks to provide an integrated theoretical framework for examining how the simultaneity of gender race and class oppression affects minority family organization Breaking new ground in a variety of fields *No More Kin* is sure to become a valuable resource for students and professionals in family studies gender studies and race ethnic studies

Race and Mixed Race Naomi Zack, 1993 In the first philosophical challenge to accepted racial classifications in the United States Naomi Zack uses philosophical methods to criticize their logic Tracing social and historical problems related to racial identity she discusses why race is a matter of such importance in America and examines the treatment of mixed race in law society and literature Zack argues that black and white designations are themselves racist because the concept of race does not have an adequate scientific foundation The one drop rule originally a rationalization for slavery persists today even though there have never been pure races and most American blacks have white genes Exploring the existential problems of mixed race identity she points out how the bi racial system in this country generates a special racial alienation for many Americans Ironically suggesting that we include gray in our racial vocabulary Zack concludes that any racial identity is an expression of bad faith Author note Naomi Zack is Assistant Professor in the Department of Philosophy at the State University of New York at Albany She herself is of mixed race Jewish African American and Native American
