Peterson, 1993 **The Races of the Old Testament** Archibald Henry Sayce, 1893 *Ashavid: Zarathustra, the Nordkind Race, and Asha/Divine Natural Law* Eric Dryden, 2017-04-27

Extending from the dawn of Creation to the present Ashavid by Eric Dryden is both a religious manifesto and an inspired scholarly narrative Ashavid focuses on the ancient Nordic Indo Europeans and the divine revelation of their prophet Zarathustra the first to proclaim the one Creator God and to reveal the spiritual and ethical path leading to both a good earthly life and eternal life It describes ancient West Asia's ethnic and cultural transformations the corruptions of Zarathustra's Ashavid doctrine and the Indo Europeans genetic and cultural adulterations resulting from their migrations into alien lands It discusses the Indo Europeans merger with Old Europe's sub races to form the Nordkind people and the threats to Nordkind's survival in our own era Ashavid is an eye opening epic for European descended men and women who seek to live in harmony with the divinely created Natural Law called Asha

Cushites in the Hebrew Bible Kevin Burrell, 2020-01-13

Cushites in the Hebrew Bible offers a reassessment of Cushite ethnographic representations

in the biblical literature as a counterpoint to misconceptions about Africa and people of African descent which are largely a feature of the modern age Whereas current interpretations have tended to emphasize unfavourable portraits of the people biblical writers called Cushites Kevin Burrell illuminates the biblical perspective through a comparative assessment of ancient and modern forms of identity construction Past and present modes of defining difference betray both similarities and differences to ethnic representations in the Hebrew Bible providing important contexts for understanding the biblical view This book contributes to a clearer understanding of the theological historical and ethnic dynamics underpinning representations of Cushites in the Hebrew Bible History in Black Yaacov Shavit,2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic Roman period to the 19th century Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history 'Race Is Everything' David Bindman,2023-07-17 A timely and revealing look at the intertwined histories of science art and racism Race Is Everything explores the spurious but influential ideas of so called racial science in the nineteenth and the first half of the twentieth centuries and how art was affected by it David Bindman looks at race in general but with particular concentration on attitudes toward and representations of people of African and Jewish descent He argues that behind all racial ideas of the period lies the belief that outward appearance and especially skull shape as studied in the pseudoscience of phrenology can be correlated with inner character and intelligence and that these could be used to create a seemingly scientific hierarchy of races The book considers many aspects of these beliefs including the skull as a racial marker ancient Egypt as a precedent for Southern slavery Darwin race and aesthetics the purported Mediterranean race the visual aspects of eugenics and the racial politics of Emil Nolde

80 Old Testament Characters of World History: Chronological, Historical and Archaeological Evidence Gerard Gertoux,2016-02-27 Despite the fact that the name of many characters mentioned in the Old Testament like David King of Israel have been recently confirmed by archaeology as well as their epoch and the events in which they were involved most archaeologists continue to deny the historicity of the Bible they view as pious fiction or a mythical account They argue that the major events in the Bible such as the victory of Abraham against Chedorlaomer an unknown king of Elam around 2000 BCE the victory of Moses against an unknown Pharaoh around 1500 BCE or the victory of Esther an unknown Persian Queen against an unknown vizier of Xerxes never existed because they left absolutely no evidence They also explain that according to what we know today these events could not have occurred These logical arguments are impressive but a precise chronological analysis based on absolute dates coupled with a rigorous historical investigation shows that all those major events really took place at the dates and places indicated **A Companion to Ancient Egyptian Art** Melinda K. Adamo, 2001-06-06 [The Archaeology of Race](#) Debbie Challis, 2013-03-14 How much was archaeology founded on prejudice The Archaeology of Race explores the application of racial theory to interpret the past in Britain during the late Victorian and Edwardian period It investigates how material culture from ancient Egypt and Greece was used to validate the construction of racial hierarchies Specifically focusing on Francis Galton's ideas around inheritance and race it explores how the Egyptologist Flinders Petrie applied these in his work in Egypt and in his political beliefs It examines the professional networks formed by societies such as the Anthropological Institute and their widespread use of eugenic ideas in analysing society Archaeology of Race draws on archives and objects from the Petrie Museum of Egyptian Archaeology and the Galton collection at UCL These collections are used to explore anti-Semitism skull collecting New Race theory and physiognomy These collections give insight into the relationship between Galton and Petrie and place their ideas in historical context **When Race Trumps Merit** Heather Mac Donald, 2023-04-18 Does your workplace have too few black people in top jobs It's racist Does the advanced math and science high school in your city have too many Asians It's racist Does your local museum employ too many white women It's racist too After the Black Lives Matter protests of 2020 prestigious American institutions from the medical profession to the fine arts pleaded guilty to systemic racism How else explain why blacks are overrepresented in prisons and underrepresented in C suites and faculty lounges their leaders asked The official answer for those disparities is disparate impact a once obscure legal theory that is now transforming our world Any traditional standard of behavior or achievement that impedes exact racial proportionality in any enterprise is now presumed racist Medical school admissions tests expectations of scientific accomplishment in the award of research grants the enforcement of the criminal law all are under assault because they have a disparate impact on underrepresented minorities When Race Trumps Merit provides an alternative explanation for those racial disparities It is large academic skills gaps that cause the lack of proportional representation in our most meritocratic organizations and large differences in criminal offending that account for the racially disproportionate prison population The need for such a corrective argument could not be more urgent Federal science agencies now treat researchers skin color as a scientific qualification Museums and orchestras choose which art and music to promote based on race Police officers avoid

making arrests and prosecutors decline to bring charges to avoid disparate impact on minority criminals When Race Trumps Merit breaks powerful taboos But it is driven by a sense of alarm supported by detailed case studies of how disparate impact thinking is jeopardizing scientific progress destroying public order and poisoning the appreciation of art and culture As long as alleged racism remains the only allowable explanation for racial differences we will continue tearing down excellence and putting lives as well as civilizational achievement at risk *History for Ready Reference ...* Josephus Nelson Larned,1910
