Race In Another America The Significance Of Skin Color In Brazil:

Race in Another America Edward E. Telles, 2014-04-24 This is the most comprehensive and up to date book on the increasingly important and controversial subject of race relations in Brazil North American scholars of race relations frequently turn to Brazil for comparisons since its history has many key similarities to that of the United States Brazilians have commonly compared themselves with North Americans and have traditionally argued that race relations in Brazil are far more harmonious because the country encourages race mixture rather than formal or informal segregation More recently however scholars have challenged this national myth seeking to show that race relations are characterized by exclusion not inclusion and that fair skinned Brazilians continue to be privileged and hold a disproportionate share of wealth and power In this sociological and demographic study Edward Telles seeks to understand the reality of race in Brazil and how well it squares with these traditional and revisionist views of race relations He shows that both schools have it partly right that there is far more miscegenation in Brazil than in the United States but that exclusion remains a serious problem He blends his demographic analysis with ethnographic fieldwork history and political theory to try to understand the enigma of Brazilian race relations how inclusiveness can coexist with exclusiveness The book also seeks to understand some of the political pathologies of buying too readily into unexamined ideas about race relations In the end Telles contends the traditional myth that Brazil had harmonious race relations compared with the United States encouraged the government to do almost nothing to address its shortcomings

Race in Another America Edward Eric Telles, 2006 **Skin Color, Power, and Politics in America** Mara Cecilia Ostfeld, Nicole Yadon, 2022-04-30 A person's skin color affects their life experiences including income educational attainment health outcomes exposure to discrimination interactions with the criminal justice system and one's sense of ethnoracial group belonging But do these disparate experiences affect the relationship between skin color and political views In *Skin Color Power and Politics in America* political scientists Mara Ostfeld and Nicole Yadon explore the relationship between skin color and political views in the U S among Latino Black and White Americans They examine how skin color influences an individual's politics and whether a person's political views influence how they assess their own skin color Ostfeld and Yadon surveyed over 1 300 people about their political views including party affiliation their opinions on welfare and the importance of speaking English in the U S The authors created a matrix grounded in their Roots of Race framework which predicts the relationship between skin color and political attitudes for each ethnoracial group based on the blurriness of the group's boundaries and historical levels of privilege They draw upon three distinct measures of skin color to conceptualize the relationship between skin color and political views Machine Rated Skin Color measured with a light reflectance meter Self Assessed Skin Color using the Yadon Ostfeld Skin Color Scale and Skin Color Discrepancy the difference between one's Machine Rated and Self Assessed Skin Color Ostfeld and Yadon examine patterns that emerge among these measures and their relationships with life experiences and political stances

Among Latinos a group with relatively blurry group boundaries and low levels of historical privilege the authors find a robust relationship between political views and Self Assessed Skin Color Latinos who overestimate the lightness of their skin color are more likely to hold conservative views on current racialized political issues such as policing Latinos who overestimate the darkness of their skin color on the other hand are more likely to hold liberal political views As America s major political parties remain divided on issues of race this suggests that for Latinos self reported skin color is used as a means of aligning oneself with valued political coalitions African Americans another group with low levels of historical privilege but with more clearly defined group boundaries demonstrated no significant relationship between skin color and political attitudes Thus the lived experiences associated with being African American appeared to supersede the differences in life experiences due to skin color Whites a group with more historical privilege and increasingly blurry group boundaries showed a clear relationship between machine assessed skin color and attitudes on political issues Those with darker Machine Rated Skin Color are more likely to hold conservative views suggesting that they are responding to the threat of losing their privilege in a multicultural society At a time when the U S is both more diverse and politically divided Skin Color Power and Politics in America is a timely account of the ways in which skin color and politics are intertwined

Brazilian Telenovelas and the Myth of Racial Democracy Samantha Nogueira Joyce, 2012-04-01 Brazilian Telenovelas and the Myth of Racial Democracy by Samantha Nogueira Joyce examines what happens when a telenovela directly addresses matters of race and racism in contemporary Brazil This investigation provides a traditional textual analysis of *Duas Caras* 2007 2008 a watershed telenovela for two main reasons It was the first of its kind to present audiences with an Afro Brazilian as the main hero openly addressing race matters through plot and dialogue Additionally for the first time in the history of Brazilian television the author of *Duas Caras* kept a web blog where he discussed the public s reactions to the storylines media discussions pertaining to the characters and plot and directly engaged with fans and critics of the program Joyce combines her investigation of *Duas Caras* with a study of related media in order to demonstrate how the program introduced novel ideas about race and also offered a forum where varying perspectives on race class and racial relations in Brazil could be discussed Brazilian Telenovelas is not a reception study in the traditional sense it is not a story of entertainment education in the strict sense and it is not solely a textual analysis Instead Joyce s text is a study of the social milieu that the telenovela and especially *Duas Caras* navigates one that is a component of a contemporary progressive social movement in Brazil and one that views the text as being located in social interactions As such this book reveals how telenovelas contribute to social change in a way that has not been fully explored in previous scholarship

Racial Subordination in Latin America Tanya Katerí Hernández, 2013 There are approximately 150 million people of African descent in Latin America yet Afro descendants have been consistently marginalized as undesirable elements of the society Latin America has nevertheless long prided itself on its absence of U S styled state mandated Jim Crow racial segregation laws This book disrupts the traditional narrative of

Latin America's legally benign racial past by comprehensively examining the existence of customary laws of racial regulation and the historic complicity of Latin American states in erecting and sustaining racial hierarchies Tanya Kater Hernandez is the first author to consider the salience of the customary law of race regulation for the contemporary development of racial equality laws across the region Therefore the book has a particular relevance for the contemporary U S racial context in which Jim Crow laws have long been abolished and a post racial rhetoric undermines the commitment to racial equality laws and policies amidst a backdrop of continued inequality Routledge Handbook of Brazilian Politics Barry Ames,2018-10-25 With contributions from leading international scholars this Handbook offers the most rigorous and up to date analyses of virtually every aspect of Brazilian politics including inequality environmental politics foreign policy economic policy making social policy and human rights The Handbook is divided into three major sections Part 1 focuses on mass behavior while Part 2 moves to representation and Part 3 treats political economy and policy The Handbook proffers five chapters on mass politics focusing on corruption participation gender race and religion three chapters on civil society assessing social movements grass roots participation and lobbying seven chapters focusing on money and campaigns federalism retrospective voting partisanship ideology the political right and negative partisanship five chapters on coalitional presidentialism participatory institutions judicial politics and the political character of the bureaucracy and eight chapters on inequality the environment foreign policy economic and industrial policy social programs and human rights This Handbook is an essential resource for students researchers and all those looking to understand contemporary Brazilian politics African Diaspora in Brazil Fassil Demissie,2016-03-16 The term Black Atlantic was coined to describe the social cultural and political space that emerged out of the experience of slavery exile oppression exploitation and resistance This volume seeks to recast a new map of the Black Atlantic beyond the Anglophone Atlantic zone by focusing on Brazil as a social and cultural space born out of the Atlantic slave trade The contributors draw from the recently reinvigorated scholarly debates which have shifted inquiry from the explicit study of cultural survival and acculturation towards an emphasis on placing Africans and their descendants at the center of their own histories Going beyond the notion of cultural survival or creolization the contributors explore different sites of power and resistance gendered cartographies memory and the various social and cultural networks and institutions that Africans and their descendants created and developed in Brazil This book illuminates the linkages networks disjunctions sense of collective consciousness memory and cultural imagination among the African descended populations in Brazil This book was originally published as a special issue of African and Black Diaspora An International Journal **Latino Identity in Contemporary America** Martin Bulmer,John Solomos,2014-01-02 This edited collection brings together original research papers that explore an important aspect of race and ethnic studies namely the processes that are shaping the making of Latina and Latino identities in contemporary America This is a question that has received much attention in the USA over the past decade and these papers make an original contribution to these debates Much of this attention towards Latino a

ideas about *brasilidade* Brazilian national consciousness are dramatised supported or attacked in contemporary fiction and documentary films **Reimagining Psychiatric Epidemiology in a Global Frame** Anne Lovell, Gerald M.

Oppenheimer, 2022 Psychiatric epidemiology like cancer heart disease or AIDS epidemiology increasingly dominates the bio politics of nations and of worldwide health campaigns like the Global Burden of Disease Yet this is the first book length history of psychiatric epidemiology arguably the oldest of epidemiological disciplines albeit the slowest to develop intellectually and institutionally The epidemiology of mental disorders and mental health differs radically from that of other diseases and health conditions in that it studies subjective states difficult to objectify or precisely define Despite these obstacles over many decades researchers governments and international organizations have continually attempted to measure mental states their distribution and presumed causes in the hope of informing public policy clinical treatment social reform and population management Since the nineteenth century epidemiology and earlier proto epidemiology in dissimilar contexts have served strikingly different purposes from census counts of the insane to imperialist and racist psychological profiles of subaltern groups to attempts to measure diagnostic entities in an entire nation We argue that these multiple historical paths resulted not in a uniform field based on common paradigms as was the case for cardio vascular and cancer epidemiology but in a plurality of psychiatric epidemiologies driven by different intellectual questions reformist ideals national cultures and social control objectives **Negotiating Identities** Anders Runesson, Cecilia Wassén, Karin Hedner

Zetterholm, Magnus Zetterholm, 2022-10-03 Covering the period from 200 BCE to 600 CE this book describes important aspects of identity formation processes within early Judaism and Christianity and shows how negotiations involving issues of ethnicity stereotyping purity commensality and institution building contributed to the forming of group identities Over time some of these Jewish group identities evolved into non Jewish Christian identities others into a rabbinic Jewish identity while yet others remained somewhere in between The contributors to this volume trace these developments in archaeological remains as well as in texts from the Qumran movement the New Testament and the reception of Paul's writings rabbinic literature and apocryphal and pseudepigraphical writings such as the Book of Dreams and the Pseudo Clementine Homilies The long timespan covered in the volume together with the combined expertise of scholars from various fields make this book a unique contribution to research on group identity Jewish and Christian identity formation the Partings of the ways between Judaism and Christianity and interactions between Jews and Christians *Brazilian-African Diaspora in Ghana* Kwame

Essien, 2016-10-01 *Brazilian African Diaspora in Ghana* is a fresh approach challenging both pre existing and established notions of the African Diaspora by engaging new regions conceptualizations and articulations that move the field forward This book examines the untold story of freed slaves from Brazil who thrived socially culturally and economically despite the challenges they encountered after they settled in Ghana Kwame Essien goes beyond the one dimensional approach that only focuses on British abolitionists funding of freed slaves resettlements in Africa The new interpretation of reverse migrations

examines the paradox of freedom in discussing how emancipated Brazilian Africans came under threat from British colonial officials who introduced stringent land ordinances that deprived the freed Brazilian Africans from owning land particularly Brazilian land Essien considers anew contention between the returnees and other entities that were simultaneously vying for control over social political commercial and religious spaces in Accra and tackles the fluidity of memory and how it continues to shape Ghana's history The ongoing search for lost connections with the support of the Brazilian government inspiring multiple generations of Tabom offspring of the returnees to travel across the Atlantic and back especially in the last decade illustrates the unending nature of the transatlantic diaspora journey and its impacts

Racial Domination Loïc Wacquant, 2024-06-07 Race is arguably the single most troublesome and volatile concept of the social sciences in the early 21st century It is invoked to explain all manner of historical phenomena and current issues from slavery to police brutality to acute poverty and it is also used as a term of civic denunciation and moral condemnation In this erudite and incisive book based on a panoramic mining of comparative and historical research from around the globe Loïc Wacquant pours cold analytical water on this hot topic and infuses it with epistemological clarity conceptual precision and empirical breadth Drawing on Gaston Bachelard Max Weber and Pierre Bourdieu Wacquant first articulates a series of reframings starting with dislodging the United States from its Archimedean position in order to capture race making as a form of symbolic violence He then forges a set of novel concepts to rethink the nexus of racial classification and stratification the continuum of ethnicity and race as disguised ethnicity the diagonal of racialization and the pentad of ethnoracial domination the checkerboard of violence and the dialectic of salience and consequentiality This enables him to elaborate a meticulous critique of such fashionable notions as structural racism and racial capitalism that promise much but deliver little due to their semantic ambiguity and rhetorical malleability notions that may even hamper the urgent fight against racial inequality Wacquant turns to deploying this conceptual framework to dissect two formidable institutions of ethnoracial rule in America Jim Crow and the prison He draws on ethnographies and historiographies of white domination in the postbellum South to construct a robust analytical concept of Jim Crow as caste terrorism erected in the late 19th century He unravels the deadly symbiosis between the black hyperghetto and the carceral archipelago that has coproduced and entrenched the material and symbolic marginality of the African American precariat in the metropolis of the late 20th century Wacquant concludes with reflections on the politics of knowledge and pointers on the vexed question of the relationship between social epistemology and racial justice Both sharply focused and wide ranging synthetic yet controversial Racial Domination will be of interest to students and scholars of race and ethnicity power and inequality and epistemology and theory across the social

sciences and humanities
