Economics, Bureaucracy, and Race Judith Russell, 2004 This is a hard hitting analysis of the war on poverty in the United States The book focuses on the genesis of the Economic Opportunity Act in the 1960s which constituted the core of the antipoverty crusade of President Kennedy and President Johnson Within, Against, and Beyond Liberalism David Blaney, Naeem Inayatullah, 2021-06-24 This book provides a generous immanent description of liberalism but also works against and looks beyond it It engages liberalism and its variants in IPE at a moment in time when liberalism and liberal internationalism are experiencing something of a crisis of confidence Though we are deeply critical of liberalism especially the variant that dominates in IPE we picture liberalism as variegated and rife with doubt and tensions that potentially open it to traditions of thinking beyond itself We also show how these tensions and doubts often prompt attempts at closure in the form of defensive maneuvers like Eurocentric conceptions of development that justify Western dominance and the condemnation of scholarship that exposes relations of domination and subordination as violating the precepts of unit level positive science But recognizing these maneuvers as defensive reactions may help us grasp the moments of greater openness within liberalism that connect to traditions that think against and beyond its central tenets Identity, Invention, and the Culture of Personalized Medicine Patenting Shubha Ghosh, 2012-09-10 This book provides an overview of developments in personalized medicine patenting and explores its normative implications to suggest policies to best regulate it the Making of American Liberalism Carol A. Horton, 2005-09-08 Race and the Making of American Liberalism traces the roots of the contemporary crisis of progressive liberalism deep into the nation's racial past Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a color blind conception of individual rights is innaccurate and misleading In contrast American liberalism has alternatively served both to support and oppose racial hierarchy as well as socioeconomic inequality more broadly Racial politics in the United States have repeatedly made it exceedingly difficult to establish powerful constituencies that understand socioeconomic equity as vital to American democracy and aspire to limit gross disparities of wealth power and status Revitalizing such equalitarian conceptions of American liberalism Horton suggests will require developing new forms of racial and class identity that support rather than The Penguin History of Economics Roger E Backhouse, 2002-01-31 The sabotage this fundamental political commitment

Racism Albert J. Wheeler,2005 Of all mankinds vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature Emancipation and the remaking of the British Imperial world Catherine Hall, Nicholas Draper, Keith McClelland, 2015-11-01 Slavery and the slavery business have cast a long shadow over British history In 1833 abolition was heralded as evidence of Britain's claim to be the modern global power Yet much is still unknown about the significance of the slavery business and emancipation in the formation of modern imperial Britain This book engages with current work exploring the importance of slavery and slave ownership in the remaking of the British imperial world after abolition in 1833

Sniderman, 2017-01-01 Can the citizens of a democracy be trusted to run it properly Modern political science has concentrated on cataloguing voters failings their lack of knowledge tolerance or consistency in political thinking While it would be a mistake to think this portrait of citizens is simply wrong it is a deeper mistake to accept it as a satisfactory likeness In this book Paul Sniderman demonstrates that a concentration on the pathologies of citizens political thinking has obscured the intense clash of opposing belief systems in the electorate He shows how a concentration on racism has distorted understanding of the politics of race by keeping out of sight those who think well of black Americans And he exposes the fallacy of spotlighting the dangers of mass politics while ignoring those of elite Southern Liberal Journalists and the Issue of Race, 1920-1944 John T. Kneebone, 2018-06-15 Before the politics Civil Rights movement southern liberal journalists played a crucial role in shaping southern thought on race and racism John Kneebone presents a richly detailed intellectual history of southern racial liberalism between World War I and World War II by examining the works of five leading southern journalists Gerald W Johnson Baltimore Evening Sun George Fort Milton Chattanooga News Virginius Dabney Richmond Times Dispatch Hodding Carter Greenville Miss Delta Democrat Times and Ralph McGill Atlanta Constitution The South's leading liberal journalists came from varied backgrounds and lived in different regions of the South but all had one characteristic in common as public advocates of southern liberalism each spoke as a southerner with deep roots in the southern past Yet their editorials were not intended solely for local audiences they wrote essays for national and regional journals of opinion as well and each of these men published important books on the South and its history Through their writings they gained reputations throughout the country as articulate spokesmen for southern liberalism Their essays editorials books and letters provide rich and abundant sources for studying the changing patterns of southern liberal thought in the critical years from the 1920s to the 1940s Moreover these journalists were members of southern liberal organizations Will W Alexander's Commission on Interracial Cooperation the Southern Commission on the Study of Lynching the Southern Policy Committee the Southern Conference for Human Welfare and the Southern Regional Council and so they helped devise the reform programs that they in turn publicized While they believed that social and economic change in the modern South required reform of race relations the journalists felt that these reforms could be accommodated within the framework of racial segregation The protests of blacks against segregation during World War II challenged that way of thinking and created a crisis for southern liberals Kneebone analyzes this crisis and the disconnection between the southern liberalism of the 1920s and 1930s and the Civil Rights movement Originally published in 1985 A UNC
