**Blackness and Transatlantic Irish Identity** Lauren Onkey, 2011-02-09 Blackness and Transatlantic Irish Identity analyzes the long history of imagined and real relationships between the Irish and African Americans Onkey examines how

Irish and Irish American identity is often constructed through or against African Americans mapping this through the work of writers playwrights political activists and musicians Ireland and Empire Stephen Howe,2000 Many analyses of Ireland s past and present are couched in colonial terms For some it is the only framework for understanding Ireland Others reject the label This study evaluates and analyzes the situation Rock Music in Performance D. Pattie,2007-10-23 In this new study David Pattie examines the apparent contradiction between authenticity and theatricality in the live performance of rock music and looks at the way in which various performers have dealt with this paradox from rock music s early development in the 1960s up to the present day The Dynamics of Conflict in Northern Ireland Joseph Ruane,Jennifer Todd,1996-11-13 This book offers a uniquely comprehensive account of the conflict in Northern Ireland providing a rigorous analysis of its dynamics and present structure and proposing a new approach to its resolution It deals with historical process communal relations ideology politics economics and culture and with the wider British Irish and international contexts It reveals at once the enormous complexity of the conflict and shows how it is generated by a particular system of relationships which can be precisely and clearly described The book proposes an emancipatory approach to the resolution of the conflict conceived as the dismantling of this system of relationships Although radical this approach is already implicit in the converging understandings of the British and Irish governments of the causes of conflict The authors argue that only much more determined pursuit of an emancipatory approach will allow an agreed political settlement to emerge **Ireland's New Religious Movements** Olivia Cosgrove,Laurence Cox,Carmen Kuhling,2010-10-12 Until recently Irish religion has been seen as defined by Catholic power in the South and sectarianism in the North In recent years however both have been shaken by widespread changes in religious practice and belief the rise of new religious movements the revival of magical devotionism the arrival of migrant religion and the spread of New Age and alternative spirituality This book is the first to bring together researchers exploring all these areas in a wide ranging overview of new religion in Ireland Chapters explore the role of feminism Ireland as global Celtic homeland the growth of Islam understanding the New Age evangelicals in the Republic alternative healing Irish interest in Buddhism channelled teachings and religious visions This book will be an indispensable handbook for professionals in many fields seeking to understand Ireland s increasingly diverse and multicultural religious landscape as well as for students of religion sociology psychology anthropology and Irish Studies Giving an overview of the shape of new religion in Ireland today and models of the best work in the field it is likely to remain a standard text for many years to come **Postcolonial and Gender Perspectives in Irish Studies** Marisol Morales Ladrón,2007 This book represents an attempt to tackle questions related to fragmented and often conflicting ideologies within Irish studies Although a collective outcome with contributions in English and Spanish its unifying concern has been the appliance of postcolonial and gender perspectives to the analysis of Irish literature prose drama and verse and cinema as well as to the aesthetic production of both the Republic of Ireland and Northern Ireland Along the volume while some authors have chosen to delve

into the broad theoretical debate concerning the position of Irish studies within postcolonial and feminist theories others offer detailed examinations of specific literary pieces and authors that fit in this panorama All in all the chapters are wide and diverse enough to trace a spatial and temporal map of the evolution of these paradigms within contemporary Irish studies

North and South of the border **Luck and the Irish** R. F.
