Race Racism And Reparations:

Race, Racism, and Reparations J. Angelo Corlett, 2018-08-06 If affirmative action and other ethnicity based social programs are justified then J Angelo Corlett believes it is important to come to an adequate understanding of the nature of ethnicity in general and ethnic group membership in particular In *Race Racism and Reparations* Corlett reconceptualizes traditional ideas of race in terms of ethnicity As he makes clear the answers to the questions What is a Native American or What is a Latino have important implications for public policy especially for those programs designed to address historic injustices and economic and social imbalances among different groups in our society Having supplanted race with a well defined concept of ethnicity the author then analyzes the nature and function of racism Corlett argues for a notion of racism that must encompass not only racist beliefs but also racist actions omissions and attempted actions His aim is to craft a definition of racism that will prove useful in legal and public policy contexts Corlett places special emphasis on the broad questions of whether reparations for ethnic groups are desirable and what forms those reparations should take land money social programs He addresses the need for differential affirmative action programs and reparations policies the experiences and oppressors of different ethnic groups vary greatly Arguments for reparations to Native and African Americans are considered in light of a variety of objections that are or might be raised against them Corlett articulates and critically analyzes a number of possible proposals for reparations

Colonialism, Slavery, Reparations and Trade Fernne Brennan, John Packer, 2012-03-12 Colonialism Slavery Reparations and Trade Remedying the Past Addresses how reparations might be obtained for the legacy of the Trans Atlantic slave trade This collection lends weight to the argument that liability is not extinguished on the death of the plaintiffs or perpetrators Arguing that the impact of the slave trade is continuing and therefore contemporary it maintains that this trans generational debt remains and must be addressed Bringing together leading scholars practitioners diplomats and activists Colonialism Slavery Reparations and Trade provides a powerful and challenging exploration of the variety of available legal relief type economic based and multi level strategies and apparent barriers to achieving reparations for slavery

Racist America Joe R. Feagin, 2001 Despite the apparent advances since the civil rights era America remains fundamentally racist argues award winning author Joe Feagin *Racist America* is a bold thoughtful exploration of the ubiquity of race in contemporary life From a black New Jersey dentist stopped by police more than 100 times for driving to work in an expensive car to the labourer who must defend his promotion against charges of undeserved affirmative action Feagin lays bare the economic ideologic and political structure of American racism In doing so he develops an antiracist theory rooted not only in the latest empirical data but also in the current reality of racism in the U S

Race Rights Reparations Fernne Brennan, 2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions

Officially Hispanic José Enrique Idler, 2007-01-01 Officially Hispanic takes a critical look at the American government's classification system of ethnicity and race Classification policies related to issues of identity and civil rights are an important feature of American politics The classification of Hispanic or Latino is especially significant due to the large percentage of the population identified in that category Delving into questions of group categorization and the nature of membership identity and ethnic groups Idler argues that the Hispanic category as currently used by the federal government does not adequately capture the multiplicity of circumstances and identities among Hispanics Applicable in the upper level undergraduate or graduate public policy political science and cultural studies classroom as well as for academics and practitioners this timely inquiry addresses one of the central questions of modern states how to socially and politically integrate all of its citizens

Re-cognizing W.E.B. Du Bois in the Twenty-first Century Mary Keller, Chester J. Fontenot, 2007 Abstract

The Movement for Black Lives Brandon Hogan, Michael Cholbi, Alex Madva, Benjamin S. Yost, 2021-09-08 The Movement for Black Lives M4BL has gained worldwide visibility as a grassroots social justice movement distinguished by a decentralized non hierarchal mode of organization and in 2020 Black Lives Matter protests across the country shook America's moral conscience to its core M4BL

rose to prominence in part thanks to its protests against police brutality and misconduct directed at Black Americans. However, its animating concerns are far broader, calling for a wide range of economic, political, legal, and cultural measures to address what it terms a war against Black people as well as the shared struggle with all oppressed people. Yet despite the significance of the social, political, and economic goals of M4BL, as well as the innovative organizational leadership strategies it employs, M4BL has so far received little sustained philosophical attention. *The Movement for Black Lives Philosophical Perspectives* brings philosophical analysis to bear on the aims, strategies, policy positions, and intellectual/historical context of M4BL. Leading scholars tackle such themes as Black Lives Matter as a political speech act, M4BL's conception of the value of Black lives, the gender dynamics of the Movement, the relation of M4BL to other Black liberation movements and transitional justice movements, the Movement's new forms of leadership and organization, and the impact of racism on the normative assessment of the criminal justice system. The volume broaches a wide range of pressing issues in the philosophy of language, social and political philosophy, philosophy of race, philosophy of gender, and the philosophy of punishment. It is vital reading for students and scholars in the humanities and social sciences interested in race inequality and social justice movements.

The Errors of Atheism J. Angelo Corlett, 2010-01-01. *The Errors of Atheism* is a response to the glaring gap that exists in analytical philosophy on the concept of God. While there is the large body of work that either defends or challenges orthodox Christian theistic arguments, there is a lack of analytical philosophical work articulating agnosticism as a critique of both theism and atheism. J. Angelo Corlett shows that the conceptual depths of theism must be explored beyond orthodoxy in order to re-open the debate on the problem of God. His book is an agnostic's statement on the current state of the debate about God's existence and where the discussion must go to make genuine philosophical progress instead of remaining in a dialectical stalemate.

Time for Reparations Jacqueline Bhabha, Margareta Matache, Caroline Elkins, 2021-09-03. Past state injustice has enduring consequences, and the harm needs to be addressed as a matter of justice and equity. *Time for Reparations* offers detailed case studies of state injustices from slavery to forced sterilization to widespread atrocities and interdisciplinary perspectives on the potential impact of reparative strategies.

Race or Ethnicity? Jorge J. E. Gracia, 2018-07-05. What is race? What is ethnicity? Should we think of them as identities? Can they be effectively individuated? How are they related? How do the relations between them influence pressing issues concerned with social identity, gender, racism, assimilation, exploitation, justice, the law, and public policy? And how are the answers to these questions affected by the Black and Latino experience in the United States? From the Preface: This collection of new essays explores the relation between race and ethnicity and its social and political implications. Although much work has been done on the philosophy of race in the past century in the United States, the concept of ethnicity has only recently awoken the interest of American philosophers, and the relations between race and ethnicity remain largely unexamined. The discussion is divided into two parts: dealing on the one hand with the nature and the relation between race and ethnicity, and on the other with the social consequences of the

complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

Responsibility and Punishment J. Angelo Corlett, 2013-03-14 Responsibility and Punishment presents a clear headed defense of retributivism against several long standing criticisms In the end a viable version of retributivism emerges as one which withstands more criticism than competing theories of responsibility and punishment Extending the problem of wrong doing to collectives and compensation Corlett explores the matter of reparations for past wrongs in the case of the crimes committed against Native Americans by the United States Government No other philosophical work on responsibility and punishment exhibits this breadth of scope as it delves deeply into particular concerns with retributivism responsibility and certain areas of compensation Academicians and professionals in ethics moral social political and legal philosophy are likely to benefit from this analytical treatment of responsibility and punishment

The End of College Football Nathan Kalman-Lamb, Derek Silva, 2024-10-04 In this book Nathan Kalman Lamb and Derek Silva offer an existential challenge to one of America s favorite pastimes college football Drawing on twenty five in depth interviews with former players from some of the country s most prominent college football teams Kalman Lamb and Silva explore how football is both predicated on a foundation of coercion and suffused with racialized harm and exploitation Through the stories of those who lived it the authors examine the ways in which college football must be understood as a site of harm revealing how players are systematically denied the economic value they produce for universities and offered only a devalued education in return By illuminating the plantation dynamics that make college football a particularly racialized form of exploitation the book makes legible the forms of physical sacrifice that are required the ultimate cost in health and well being and the coercion that drives players into the sport and compels them to endure such abusive conditions
