study focuses on explaining and understanding the factors and constraints that exist between HUD's expectations for the resident council as an active agent for community building and the actual practices of the resident council To explain the disjunction in fact to determine if such disjunctions identified by Rivertown council members are real Using the tenets of Critical Race Theory allows us to understand what forces either real or imagined structural or cultural prevent the resident council from being an effective agent for change in the public housing community      *Encyclopedia of Race, Ethnicity, and Society* Richard T.
