devoured their every word and clamored for more Civil War journalists were a breed of their own Freewheeling opportunists and adventurers they carved their reputations from the terror and devastation of a nation bent on self destruction With determination and grit they bullied their way into places decent folks had gladly fled hardening their hearts against the carnage and bloodshed to get the story and to get it first Correspondent Nick Canfield waded into the turmoil as a refugee moving against the tide He took cold comfort from the chaos of war the battlefield s smoke and confusion obscuring his personal struggle a conscience at odds with itself Like the nation he too was torn apart by an unresolved past and now faced an uncertain future And as the conflict played out he must make a final reckoning in a world changed forever **Circus**

Despite the mythology of sport bringing people together and encouraging everyone to work collectively to success modern sport remains a site of exclusionary practices that operate on a number of levels Although sports participation is in some cases at least becoming more open and meritocratic at the management level it remains very homogenous dominated by western white middle aged able bodied men This has implications both for how sport develops and how it is experienced by different participant groups across all levels Critical studies of sport have revealed that rather than being a passive mechanism and merely reflecting inequality sport via social agents interactions with sporting spaces is actively involved in producing reproducing sustaining and indeed resisting various manifestations of inequality The experiences of marginalised groups can act as a resource for explaining contemporary political struggles over what sport means how it should be played and by whom and its place within wider society Central to this collection is the argument that the dynamics of cultural identities are contextually contingent influenced heavily by time and place and the extent to which they are embedded in the

culture of their geographic location They also come to function differently within certain sites and institutions be it in one s everyday routine or leisure pursuits such as sport Among the themes and issues explored by the contributors to this volume are social inclusion and exclusion in relation to class race and ethnicity gender and sexuality social identities and authenticity social policy deviance and fandom This book was published as a special issue of Sport in Society **Conquerors of the**
