This book provides in depth analysis of the historical philosophical anthropological political and neurobiological reinforcements of fear and the role of fear on fear interactions in the construction and maintenance of systems This text will help systems appreciate the profound pervasive and deleterious role fear has played in the establishment of laws policies and practices and explore what systems can do to reduce fear and prioritize safety and healing Right now we are dealing with hard truths human suffering runs deep and is universal trauma is ubiquitous and widespread racism is real and has profound psychological physical political social and economic implications and the world is hurting and needs healing Many are curious about where and when healing will commence who will facilitate it and what it will look and feel like Healing comes in this order safety truth and then reconciliation When we know better we can or should certainly do better This book offers a framework for how to effectively begin to deconstruct systemic fear prioritize safety reduce needless suffering and move toward optimal healing and sustained change **The Color of Skin** Enrique A Cordero,2020-10-09 Ignorance and fear of the unknown gave birth to racism and it has been fueled by hatred for hundreds of years Unfortunately racism is so pervasive and insidious that it has become a systemic illness that slowly erodes the health of our society It can rear its ugly head where you least expect it The fact that we are confronting issues like the murder of George Floyd among many others is a testament to the fact that racism abides in all institutions I wrote this book for all ethnic groups so that we can be armed with knowledge and can perhaps come together once and for all to create the legislative and social changes that will begin to weed out systemic racism We live in the 21st century Don t you think it s time to open our minds our hearts our very souls and rewrite the useless scripts that have been passed down from generation to generation We cannot change the world unless we are willing to change ourselves first The most fundamental step to change and improve society in a meaningful and lasting way is through self transformation It s not an easy task but we must tap into the deepest recesses of our souls and analyze our ideas and beliefs regarding the world Then we must educate ourselves by expanding our knowledge base Here are a few of the topics covered in this book We are Homo sapiens why we look different The misuse of brain size and IQ studies to propagate racism Fear of the unknown Separatist ideology Racism is taught There is only one race Homo sapiens How racist ideas are spread Ethnicity Systemic racism Semantics Monuments and their significance Slavery past and present

Racism and Religion What will the future hold We all deserve the same opportunities that society offers We must emulate the work of our predecessors by raising our voices our minds and our spirits to fight for freedom and equality for all people In so doing we will enrich our lives beyond measure **Racism and Fear** Earl H. Brill, Forward Movement Publications, 1991

Silent Fear R. Hopper, 2017-09-06 this book deals with discrimination and fear **The Roots of Racism** , 2003
