Media and Mass Atrocity Allan Thompson,2019-04-05 When human beings are at their worst as they most certainly were in Rwanda during the 1994 genocide the world needs the institutions of journalism and the media to be at their best Sadly in Rwanda the media fell short Media and Mass Atrocity revisits the case of Rwanda but also examines how the nexus between media and mass atrocity has been shaped by the dramatic rise of social media It has been twenty five years since Rwanda slid into the abyss The killings happened in broad daylight but many of us turned away A quarter century later there is still much to learn about the relationship between the media and genocide an issue laid bare by the Rwanda tragedy Media and Mass Atrocity revisits the debate over the role of traditional news media in Rwanda where confronted by the horrors taking place international news media for the most part turned away and at times muddled the story when they did pay attention Hate media outlets in Rwanda played a role in laying the groundwork for genocide and then actively encouraged the extermination campaign The news media not only failed to fully grasp and communicate the genocide but mostly overlooked the war crimes committed during the genocide and in its aftermath by the Rwandan Patriotic Front The global media landscape has been

transformed since Rwanda We are now saturated with social media generated as often as not by non journalists Mobile phones are everywhere And in many quarters the traditional news media business model continues to recede Against that backdrop it is more important than ever to examine the nexus between media and mass atrocity The book includes an extensive section on the echoes of Rwanda which looks at the cases of Darfur the Central African Republic Myanmar and South Sudan while the impact of social media as a new actor is examined through chapters on social media use by the Islamic State and in Syria and in other contexts across the developing world It also looks at the aftermath of the genocide the shifting narrative of the genocide itself the evolving debate over the role and impact of hate media in Rwanda the challenge of digitizing archival records of the genocide and the fostering of free and independent media in atrocity s wake The volume also probes how journalists themselves confront mass atrocity and examines the preventive function of media through the use of advanced digital technology as well as radio programming in the Lake Chad Basin and the Democratic Republic of Congo Media and Mass Atrocity questions what the lessons of Rwanda mean now in an age of communications so dramatically influenced by social media and the relative decline of traditional news media Alternative and Mainstream Media Linda Jean Kenix,2011-11-01 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Historically alternative media have been viewed as fundamental albeit at times culturally peripheral forces in social change In this book however Kenix argues that these media do not uniformly subvert the hierarchies of access that are so central to mainstream media in fact their journalistic norms and routines have always been based on the professional standards of the mainstream Kenix goes on to posit the perception of mainstream and alternative as a misconception She argues that although alternative media can and do construct distinct alternative communications they have always existed on the same continuum as the mainstream and the two will continue to converge Through comparative analysis this book argues that many alternative and mainstream media are merging to create a continuous spectrum rooted in commercial ideology Indeed much of what is now considered alternative media actually draws very little from principles of the independent press whereas many contemporary mainstream media now use communication techniques more commonly associated with media that do not operate for financial gain This book puts forward a controversial but convincing argument around the relationship between alternative and mainstream media drawing on examples from the UK US Australia and New Zealand to strengthen and develop the central premise *Connecting After Chaos* Stephen F. Ostertag,2023-07-11 A riveting portrait of how one community used the power of culture to restore their lives and social connections in the years after a devastating natural disaster Natural disasters and other such catastrophes typically attract large scale media attention and public concern in their immediate aftermath However rebuilding efforts can take years or even decades and communities are often left to repair physical and psychological damage on their own once public sympathy fades away *Connecting After Chaos* tells the story of how people restored their lives and society in the

months and years after disaster focusing on how New Orleanians used social media to cope with trauma following Hurricane Katrina Stephen F Ostertag draws on almost a decade of research to create a vivid portrait of life in settling times a term he defines as a distinct social condition of prolonged insecurity and uncertainty after disasters He portrays this precarious state through the story of how a group of strangers began blogging in the wake of Katrina and how they used those blogs to put their lives and their city back together In the face of institutional failure weak authority figures and an abundance of chaos the people of New Orleans used social media to gain information foster camaraderie build support networks advocate for and against proposed policies and cope with trauma In the efforts of these bloggers Ostertag finds evidence of the capacity of this and other forms of cultural work to motivate guide and energize collective action aimed at weathering the constant instability of extended recovery periods Connecting After Chaos is both a compelling story of a community in crisis and a broader argument for the power of social media and cultural cooperation to create order when chaos abounds **Routledge**

array of macro social critiques based on the analysis and critical understanding of contemporary contexts and representations and how they contribute to political social economic and cultural practices *Revisiting the 'Ideal Victim'* Marian Duggan, 2018-07-04 Nils Christie's 1986 seminal work on the Ideal Victim is reproduced in full in this edited collection of vibrant and provocative essays that respond to and update the concept from a range of thematic positions Each chapter celebrates and commemorates his work by analysing evaluating and critiquing the current nature and impact of victim identity experience policy and practice The collection expands the focus and remit of victim studies addressing key themes around race gender faith ability and age while encompassing new and diverse issues Examples include sex workers as victims of hate crimes victims experiences of online fraud and recognising historic child sexual abuse victims in Ireland With contributions from an array of academics including Vicky Heap Sheffield Hallam University Hannah Mason Bish University of Sussex and Pamela Davies Northumbria University as well as a Foreword by David Scott The Open University this book evaluates the contemporary relevance and applicability of Christie's Ideal Victim concept and creates an important platform for thinking differently about victimhood in the 21st century *Making Anti-Racial Discrimination Law* Iyiola Solanke, 2012-08-21 *Making Anti Racial Discrimination Law* examines the evolution of anti racial discrimination law from a socio legal perspective Taking a comparative and interdisciplinary approach the book does not simply look at race and society or race and law but brings these areas together by drawing out the tension in the process in different countries by which race becomes a policy issue which is subsequently regulated by law Moving beyond traditional social movement theory to include the extreme right wing as a social actor the study identifies the role of extreme right wing confrontation in agenda setting and law making a feature often neglected in studies of social action In so doing it identifies the influence of both the extreme right and liberalism on anti racial discrimination law Focusing primarily on Great Britain and Germany the book also demonstrates how national politics feeds into EU policy and identifies some of the challenges in creating a high and uniform level of protection against racial discrimination throughout the EU Using primary archival materials from Germany and the UK the empirical richness of this book constitutes a valuable contribution to the field of anti racial discrimination law at both undergraduate and postgraduate level The book will interest specialists and academics in law sociology and political science as well as non specialists who will find this study stimulating and useful to expand their knowledge of anti racial discrimination law or pursue teaching goals policy objectives and reform agendas **Critical Incidents in Journalism** Edson Tandoc Jr., Joy Jenkins, Ryan Thomas, Oscar Westlund, 2020-12-08 This edited collection examines critical incidents journalists have faced across different media contexts exploring how journalists and other key actors negotiate various aspects of their work Ranging from the Rwandan genocide to the News of the World hacking scandal in the UK this book defines a critical incident as an event that has led journalists to reconsider their routines roles and rules Combining theoretical and practical analysis the contributors offer a discussion of the key events that journalists cover such as political

turmoil or natural disasters as well as events that directly involve and affect journalists. Featuring case studies from countries including Australia, Germany, Brazil, Kenya, and the Philippines, the book explores the discourses that critical events have generated, how journalists and other stakeholders have responded to them, and how they have reshaped or are reshaping journalistic norms and practices. The Politics of Integration Chloe Gill-Khan, 2017-10-19. After almost seven decades, Britain and France, nations with divergent political cultures and heirs to contrasting philosophies of integration, have proclaimed the failure to integrate their post-war ethnic minorities. At this present time, the Muslim. The argument of this book therefore is a question: despite the legal, political, and social commitments that emerged from the events of the Holocaust, why do both nations continue to govern minorities on the sites of the law and race? Through comparative readings of British Asian and Franco-Maghrebian literatures, the author examines the contours and patterns of British and French post-war governance and racism over four decades. Departing from prevailing theories in postcolonial studies that situate post-war racism within the narrative of colonialism or the politics of the nation-state, *The Politics of Integration* shows how we must re-appraise the inter-war histories of minorities if we are to ask more meaningful questions about the present. We are invited to take stock of how well the theorization of post-war ethnic populations and their politics have served us in terms of asking what does history tell us, and how and where do we, Europe and its minorities, go from here. As such, the book will appeal to scholars in multiple disciplines in the humanities and social sciences such as history, philosophy, literature, cultural, and postcolonial studies.

The Oxford Handbook of Cultural Sociology Jeffrey C. Alexander, Ronald Jacobs, Philip Smith, 2012-01-26. Since sociologists returned to the study of culture in the past several decades, a pursuit all but anathema for a generation, cultural sociology has emerged as a vibrant field. Edited by three leading cultural sociologists, *The Oxford Handbook of*

Cultural Sociology presents the full theoretical and methodological vitality of this critically significant new area. The Handbook gathers together works by authors confronting the crucial choices all cultural sociologists face today about analytic priorities, methods, topics, epistemologies, ideologies, and even modes of writing. It is a vital collection of preeminent thinkers studying the ways in which culture, society, politics, and economy interact in the world. Organized by empirical areas of study rather than particular theories or competing intellectual strands, the Handbook addresses power, politics, and states, economics, and organization, mass media, social movements, religion, aesthetics, knowledge, and health. Allowing the reader to observe tensions as well as convergences, the collection displays the value of cultural sociology not as a niche discipline but as a way to view and understand the many facets of contemporary society. The first of its kind, *The Oxford Handbook of Cultural Sociology* offers comprehensive and immediate access to the real developments and disagreements taking place in the field and deftly exemplifies how cultural sociology provides a new way of seeing and modeling social facts. This groundbreaking readable handbook is the first single volume to attempt to unify its diverse contemporary applications in a wide range of traditional genres of sociology. The International Library of Essays on Capital Punishment, Volume 3 Peter Hodgkinson, 2016-12-05 This volume provides analyses of a range of subjects and issues in the death penalty debate from medicine to the media. The essays address in particular the personal complexities of those involved, a fundamental part of the subject usually overridden by the theoretical and legal aspects of the debate. The unique personal vantage offered by this volume makes it essential reading for anyone interested in going beyond the removed theoretical understanding of the death penalty to better comprehending its fundamental humanity. Additionally, the international range of the analysis, enabling disaggregation of country-specific motivations, ensures the complexities of the death penalty are also considered from a global perspective.

Intercultural Communication Martin S. Remland, Tricia S. Jones, Anita Foeman, Dolores Rafter Arévalo, 2014-08-27 We live in an increasingly more globalized world where living and working with people of various cultures is a nearly everyday occurrence. These interactions combined with ever-growing opportunities for students to explore and study in foreign settings make it important to master effective ways to engage and learn from these experiences. *Intercultural Communication* will engage readers interested in developing intercultural competence with an eye towards fostering diverse and vibrant communities that coexist peacefully. The authors begin by defining competent communication and describing how it contributes to peaceful communities before considering how cultural differences relate to the effects of cultural frames, emotions, and nonverbal and verbal communication. The second half of the book surveys how culture influences friendships, families, classrooms, workplaces, the media, and our visits to cultures different from our own. Recognizing the effects of these influences allows readers to take advantage of opportunities and overcome obstacles to more fully immerse themselves in a different way of life. Each chapter offers various boxed inserts with important and entertaining

insights to supplement topics and provide opportunities for discussion *The Chicago Conspiracy Trial and the Press* Nick Sharman, 2016-05-11 This book analyzes the newspaper coverage of one of America's most famous and dramatic trials the trial of the Chicago 8. Covering a five month period from September 1969 to February 1970 the book considers the way eight radical activists including Black Panther leader Bobby Seale antiwar activists Tom Hayden David Dellinger and Rennie Davis and leading Yippies Abbie Hoffman and Jerry Rubin are represented in the press. How did the New York Times represent Judge Hoffman's decision to chain and gag Bobby Seale in the courtroom for demanding his right to represent himself? To what extent did the press adequately describe the injustice visited on the defendants in the trial by the presiding Judge Julius J. Hoffman? The author aims to answer these questions and demonstrate the press's reluctance to criticize Judge Hoffman in the case until the evidence of his misconduct of the trial became overwhelming *The Civil Sphere* Jeffrey C.

Alexander, 2006-08-03 What binds societies together and how can these social orders be structured in a fair way? Jeffrey C. Alexander's masterful work *The Civil Sphere* addresses this central paradox of modern life. Feelings for others the solidarity that is ignored or underplayed by theories of power or self interest are at the heart of this novel inquiry into the meeting place between normative theories of what we think we should do and empirical studies of who we actually are. Solidarity Alexander demonstrates creates inclusive and exclusive social structures and shows how they can be repaired. It is not perfect it is not absolute and the horrors which occur in its lapses have been seen all too frequently in the forms of discrimination genocide and war. Despite its worldly flaws and contradictions however solidarity and the project of civil society remain our best hope the antidote to every divisive institution every unfair distribution every abusive and dominating hierarchy. This grand sweeping statement and rigorous empirical investigation is a major contribution to our thinking about the real but ideal world in which we all reside **Race, Racism and Sports Journalism** Neil Farrington, Daniel

Kilvington, 2012 Beginning with a theoretical discussion of race sport and media this book critically examines issues of race racism and sports journalism and offers practical advice on sports reporting including a discussion of guidelines for ethical journalism. The background and impacts of these representations will also be discussed through interviews with athletes and sports journalists. Subjects covered include cricket in the UK Australian and Asian media with particular focus on Pakistan athletics and media representations of athletes including a study of the reporting of South African runner Caster Semenya football and the under representation of British Asians with an analysis of how race is constructed in the digital arena boxing with particular reference to Muhammad Ali America and Islam Formula One and analysis of the media reporting international spectator response and racism towards Lewis Hamilton described in the media as the first black driver. Finally the book will analyse the make up of sports journalism examining the causes and consequences of a lack of diversity within the profession **Climate Change as Social Drama** Philip

Smith,Nicolas Howe,2015-05-05 Climate Change as Social Drama looks at the cultural sociology of climate change in public communication
