Department of Justice,1975 **Drug Dependence** M.M. Glatt,2012-12-06 Drug dependence according to the 1969 W orld Health Organization definition is A state psychic and sometimes also physical resulting from the interaction between a living organism and a drug characte rized by behavioural and other responses that always include a com pulsion to take the drug on a continuous or periodic basis in order to experience its psychic effects and sometimes to avoid the discomfort of its absence Tolerance mayor may not be present A person may be dependent on more than one drug The substitution of the term Drug Dependence in place of the previously employed terms Drug Addiction and Drug Habituation was recommended by a WHO Expert Committee in 1964 It was felt that there had been ongoing confusion in the use of the terms addiction and habituation and in particular misuse of the term addiction In 1965 the WHO Expert Committee was pleased to note the generally favourable reaction to the recommendations made in the previous year and the gradual acceptance of the new term In general in subsequent years the term Drug Dependence has gained increasing acceptance Yet it would seem that difficulties may arise whatever term and definition may be used Glatt 1974 and although by and large the newer term seems more appropriate than the older definitions one still often comes across the term Addiction and this not only when discussing the matter with laymen or drug misusers themselves **Library Book Catalog** United States.
