

Reading for Learning

A lot of people reject reading as a method for effective learning. There is a lot of poorly researched information online such as the learning pyramid.

The **learning pyramid** appears to suggest that if you read to learn you will only retain **10%** of the information.

There is no research to back up the **learning pyramid** and reading can be a very effective way to learn.

- **Debunk** one of the most common myths about reading.
