one of the most pressing issues in contemporary environmental politics How can environmental policies be designed in a way that achieves both effective protection of nature and an adequate representation of public values In other words how can we make the environmental decision process competent and fair All the invited scholars from academia international research institutes and governmental agencies agreed on one fundamental principle For environmental policies to be effective and legitimate we need to involve the people who are or will be affected by the outcomes of these policies There is no technocratic solution to this problem Without public involvement environmental policies are doomed to fail The workshop was preceded by a joint effort by the three editors to develop a framework for evaluating different models of public participation in the environmental policy arena During a preliminary review of the literature we made four major observations These came to serve as the primary motivation for this book First the last decade has witnessed only a fair amount of interest within the sociological or political science communities in issues of public participation

Urban Peacebuilding In Divided Societies Scott Bollens, 2021-11-28 Urban Peacebuilding in Divided Societies explores the effects of urban policy and planning in the management of ethnic conflict in strife torn societies focusing on the cases of Belfast and Johannesburg It combines perspectives from urban geography political science social psychology and urban planning to study the relationship between ethnic ideologies and the urban strategies that affect ethnic territoriality in the form of urban land use housing economic development services and citizen involvement The book contrasts Belfast embedded within an uncertain shift from conflict to political settlement with Johannesburg engaged in post resolution reconciliation to analyze along different points of societal transition the contributions of urban policymaking to peacemaking and peacebuilding It describes the differing roles obstructive or facilitative that contested cities can play amidst broader peacemaking efforts consistent with Bollens contention that there are lessons in urban peacebuilding for constructing mutually tolerable living environments at the regional and national levels Effectively cities and urban policies are the locus for operationalizing national ideologies of ethnic coexistence Urban Peacebuilding in Divided Societies explores the effects of urban policy and planning in the management of ethnic conflict in strife torn societies focusing on the cases of Belfast and Johannesburg It combines perspectives from urban geography political science social psychology and urban planning to study the relationship between ethnic ideologies and the urban strategies that affect ethnic territoriality in the form of urban land use housing economic development services and citizen involvement The book contrasts Belfast embedded within an uncertain shift from conflict to political settlement with Johannesburg engaged in post resolution reconciliation to analyze along different points of societal transition the contributions of urban policymaking to peacemaking and peacebuilding It describes the differing roles obstructive or facilitative that contested cities can play amidst broader peacemaking efforts consistent with Bollens contention that there are lessons in urban peacebuilding for constructing mutually tolerable living environments at the regional and national levels Effectively cities and urban policies are the locus for operationalizing national ideologies of

ethnic coexistence **The Earthscan Reader in Sustainable Cities** David Satterthwaite, 2021-12-24 The last five years have brought an enormous growth in the literature on how urban development can meet human needs and ensure ecological sustainability This collection brings together the most outstanding contributions from leading experts on the issues surrounding sustainable cities and urban development The Earthscan Reader in Sustainable Cities is fully international in scope and coverage It will be the basic introduction to the subject for a wide range of students in urban geography planning and environmental studies and is essential reading for professionals involved with the successful running and development of cities Protecting Seniors Against Environmental Disasters Michael R Greenberg, 2014-07-11 The baby boom generation were born between 1946 and 1964 and are the largest population cohort in US history They should number about 90 million by mid century more than doubling their current size The massive increase in seniors and relative decline of those of working age in the US is mirrored in almost all the world's most populous countries This book connects the dots between the US baby boom generation and the marked increase in natural and human caused disasters It evaluates options available to seniors their aids for and not for and for profit organizations and government to reduce vulnerability to hazard events These include coordinated planning risk assessment regulations and guidelines education and other risk management efforts Using interviews with experts cases studies especially of Superstorm Sandy and literature it culls best practice and identify major gaps It is original and successful in making the connection between the growing group of vulnerable US seniors environmental events and risk management practices in order to isolate the most effective lessons learned *Populations At Risk In America* George J Demko, Michael C. Jackson, 2019-06-04 As this century draws to a close and the new one approaches the United States is still struggling with serious and persistent social problems These troubling dilemmas including poverty homelessness discrimination and severe inequity afflict some subgroups of the population more than others and it is the plight of these at risk groups childr **Facility Siting in the AsiaPacific** Fung Tung, S. Hayden Lesbirel, Kin-che Lam, 2011-07-18 This volume explores the management of conflicts arising from the siting of unwanted projects in the AsiaPacific a region inadequately explored by the relevant literature The work includes studies on a variety of locations including Hong Kong Japan Mainland China Taiwan Vietnam Singapore and others Contributions are drawn from several leading scholars intimately familiar with the locations under study and employ theoretical comparative and policybased approaches to analysis of environmental conflict risk management and public participation The editors also provide introductory and concluding sections in which the siting issues under discussion are summarized and contextualized The result is a collection that serves as an invaluable aid and source of information for policymakers environmentalists and scholars of the AsiaPacific and elsewhere **Communities In Economic Crisis** John Gaventa, Barbara Ellen Smith, Alex W. Willingham, 1990-01-08 Resisting injustice in Appalachia and empowering residents to build democratic alternatives to the heritage of enduring poverty **Controlling Technocracy** Gregory E. McAvoy, 1999-11-01 Disputes over hazardous waste

sites usually are resolved by giving greater weight to expert opinion over public not in my back yard reactions Challenging the assumption that policy experts are better able to discern the general welfare Gregory E McAvoy here proposes that citizen opinion and democratic dissent occupy a vital constructive place in environmental policymaking McAvoy explores the issues of citizen rationality the tension between democracy and technocracy and the link between public opinion and policy in the case of an unsuccessful attempt to site a hazardous waste facility in Minnesota He shows how the site was defeated by citizens who had reasonable doubts over the need for the facility Offering a comprehensive look at the policymaking process McAvoy examines the motivations of public officials the resources they have for shaping opinion the influence of interest groups and the evolution of waste reduction programs in Minnesota and other states Integrating archival material interviews and quantitative survey data he argues that NIMBY movements can bring miscalculations to light and provide an essential check on policy experts often partisan views This book will be of value to those who work or study in the fields of hazardous waste policy facility siting environmental policy public policy public administration and political science Encyclopedia of Human Geography Barney Warf,2006-05-16 Human geography in the last decade has undergone a conceptual and methodological renaissance that transformed it into one of the most dynamic and innovative of the social sciences Long a borrower of ideas from other disciplines geography has become a contributor in its own right and a spatial turn is evident in disciplines as diverse as Sociology Anthropology and Literary Criticism With more than 300 entries written by an international team of leading authorities in the field the Encyclopedia of Human Geography offers a comprehensive overview of the major ideas concepts terms and approaches that characterize a notoriously diverse field This multidisciplinary volume provides cross cultural coverage of human geography as it is understood in the contemporary world and takes into account the enormous conceptual changes that have evolved since the 1970s including a variety of social constructivist approaches Key Features Examines a range of themes characterizing different schools of thought and addresses long standing topics such as urban economic and medical geography as well as contemporary topics including feminism the social dimensions of GIS and the social construction of nature Explores many of the dualities that long characterized social science nature versus society the individual versus the social the historical versus the geographical consumption versus production and breaks them down using postmodern and poststructuralist approaches Illustrates how social and spatial structures draw upon people s daily lives which in turn structures their actions Looks at how globalization has manifested differently from place to place by discussing topics such as transnational capital international trade global commodity chains global cities international financial and telecommunications systems and how the global economy is reshaping geopolitics and governance Key Themes Cartography Geographical Information Systems Economic Geography Geographic Theory and History Political Geography Social Cultural Geography Urban Geography **The View From the Center of the Universe** Joel R. Primack,Nancy Ellen Abrams,2007-08-07 In this strikingly original book a world renowned cosmologist and an innovative

writer of the history and philosophy of science uncover an astonishing truth Humans actually are central to the universe What does this mean for our culture and our personal lives The answer is revolutionary a science based cosmology that allows us to understand the universe as a whole and our extraordinary place in it **GIS for Group Decision Making** Piotr Jankowski,Timothy Nyerges,2001-01-18 In today s society it is very common for decisions that influence us all to be made by a combination of interested parties all with their own agenda In this instance how can we be sure that the decision is the correct one not just decided by the group with the most political influence or most money Such groups have now become fundamental deci **Environmental Justice Through Research-Based Decision-Making** William M. Bowen,2002-05-03 This book discusses whether and to what extent there are widespread injustices and inequities caused by the distribution of environmental hazards in America today Environmental Policy Analysis and Practice Michael R Greenberg,2008-03-13 Pressing environmental challenges are frequently surrounded with stakeholders on all sides of the issues Opinions expressed by government agencies the private sector special interests nonprofit communities and the media among others can quickly cloud the dialogue leaving one to wonder how policy decisions actually come about In Environmental Policy Analysis and Practice Michael R Greenberg cuts through the complicated layers of bureaucracy science and the public interest to show how all policy considerations can be broken down according to six specific factors 1 the reaction of elected government officials 2 the reactions of the public and special interests 3 knowledge developed by scientists and engineers 4 economics 5 ethical imperatives and 6 time pressure to make a decision The book is organized into two parts with the first part defining and illustrating each one of these criteria Greenberg draws on examples such as nuclear power pesticides brownfield redevelopment gasoline additives and environmental cancer but focuses on how these subjects can be analyzed rather than exclusively on the issues themselves Part two goes on to describe a set of over twenty tools that are used widely in policy analysis including risk assessment environmental impact analysis public opinion surveys cost benefit analysis and others These tools are described and then illustrated with examples from part one Weaving together an impressive combination of practical advice and engaging first person accounts from government officials administrators and leaders in the fields of public health and medicine this clearly written volume is poised to become a leading text in environmental policy **Waste Incineration and Public Health** National Research Council,Commission on Life Sciences,Board on Environmental Studies and Toxicology,Committee on Health Effects of Waste Incineration,2000-10-21 Incineration has been used widely for waste disposal including household hazardous and medical waste but there is increasing public concern over the benefits of combusting the waste versus the health risk from pollutants emitted during combustion Waste Incineration and Public Health informs the emerging debate with the most up to date information available on incineration pollution and human health along with expert conclusions and recommendations for further research and improvement of such areas as risk communication The committee provides details on Processes involved in incineration and how contaminants are released Environmental

dynamics of contaminants and routes of human exposure Tools and approaches for assessing possible human health effects
Scientific concerns pertinent to future regulatory actions The book also examines some of the social psychological and
economic factors that affect the communities where incineration takes place and addresses the problem of uncertainty and
variation in predicting the health effects of incineration processes **The Law of Environmental Justice** Michael

Gerrard, Sheila R. Foster, 2008 Environmental justice is the concept that minority and low income individuals communities
and populations should not be disproportionately exposed to environmental hazards and that they should share fully in
making the decisions that affect their environment This volume examines the sources of environmental justice law and how
evolving regulations and court decisions impact projects around the country

The Top Books of the Year Resolving Locational Conflict The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Resolving Locational Conflict : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Resolving Locational Conflict : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
