Louis Riel Hartwell Bowsfield, 1988 The rise and fall of Louis Riel 1844-85 spanned only fifteen years yet he is one of the most controversial and colourful people in Canadian history The central figure in two rebellions which he led on behalf of the French speaking half breeds called Metis Riel has caught the imagination of Canadians as few other historical personalities have done His career began with the acts of resistance at the Red River Settlement in 1869 and continued through the formation of a Provisional Government and the notorious shooting of Thomas Scott in 1870 through years of mental illness and exile in the United States to the North West Rebellion of 1885 It reached an inevitable climax with his surrender and trial and the passionate outpouring of feeling that rocked the country when he was found guilty of treason and executed The religious and racial emotions of the time the bigotry and opportunism of politicians and Riel s own unstable mental condition all combine to make of his life a Canadian tragedy one that had profound consequences for Confederation

In the Interval of the Wave Mary McDonald-Rissanen, 2013-12-01 Taking its title from a poem by Prince Edward Island poet Anne Compton *In the Interval of the Wave* is a close study of diaries written by Prince Edward Island women in the nineteenth and early twentieth centuries Women from both rural and urban regions of the Island recorded their lives in a genre that allowed them to play with the conventions of the language they knew For busy farm wives their quotidian language syntax and choice of topic appear simple whereas for the urban elite like Margaret Gray Lord and Wanda Wyatt the erudition of their diaries suggests a more

leisured existence Mary McDonald Rissanen argues that the initial reception of the text its physical appearance handwriting gaps and flood of words provides interesting insights for understanding the circumstances of Prince Edward Island women from times past Intertextual readings of the diaries alongside other cultural artifacts such as paintings histories folk stories and songs embellish the idiosyncratic diary discourse Diaries enabled women to write their voices create a subjective identity and redefine their place in the world In the Interval of the Wave exposes lives lived and recorded in a special moment and place never far from the rhythm of the sea

Respectable Citizens Lara A. Campbell, 2009-10-21 High unemployment rates humiliating relief policy and the spectre of eviction characterized the experiences of many Ontario families in the Great Depression Respectable Citizens is an examination of the material difficulties and survival strategies of families facing poverty and unemployment and an analysis of how collective action and protest redefined the meanings of welfare and citizenship in the 1930s Lara Campbell draws on diverse sources including newspapers family and juvenile court records premiers papers memoirs and oral histories to uncover the ways in which the material workings of the family and the discursive category of respectable citizenship were invested with gendered obligations and Anglo British identity Respectable Citizens demonstrates how women and men represented themselves as entitled to make specific claims on the state shedding new light on the cooperative and conflicting relationships between men and women parents and children and citizen and state in 1930s Canada
