 Cryogenic Engineering Conference Committee is pleased to pre sent the papers of the 1959 Cryogenic Engineering
 Conference We are fortunate to have had the University of California at Berkeley Ca as our host for the fifth national meeting
 of this kind The move to the West Coast for this past Cryogenic Engineering Conference was prompted in part by the large
 concentration of missile activities which are to be found there Recognition of cryogenic operations and techniques in the mis
 sile field is given in many of the included papers The University of California was certainly wen suited for such a meeting as
 this because it was here that much early work was done in cryogenics This pioneering in cryogenics is still evident today in
 the operation of the 72 in bub ble chamber at the Lawrence Radiation Laboratory The Cryogenic Engineering Conference
 salutes the missile industry and the cryogenic pioneers of yesterday and today at the University of California Special thanks
